Cambodia Reborn The Transition To Democracy And Development:

Cambodia Reborn? Grant Curtis, 1998 When United Nations sponsored elections were held in 1993 there were high hopes that Cambodia would finally be able to escape the nightmare of war the killing fields famine and economic turmoil that its people had endured since 1970 Large amounts of international development assistance a rapidly expanding NGO sector and a pragmatic power sharing arrangement between former adversaries seemed to bode well for the future Yet as the country was once again preparing for elections in 1998 serious tensions and conflicts continued to undermine the transition process This book examines Cambodia's uneasy renaissance from years of conflict isolation and authoritarian rule It assesses in particular the efforts of the government NGOs and the international community to facilitate Cambodia's various transitions to peace democracy and a market economy as well as the strengthening of civil society Copublished with the United Nations Research Institute for Social Development

Political Transition in Cambodia 1991-99 David Roberts, 2016-04-29 This book illustrates the limits to the 1990s UNTAC peacekeeping intervention in Cambodia and raises a critical challenge to the assumptions underpinning key tenets of the Liberal Project as a mechanism for resolving complex severe struggles for elite political power in developing countries The book highlights the limitations of externally imposed power sharing In the case of Cambodia the imagined effect was a coalition that would share power democratically However this approach was appropriate only for resolving the superpower conflict that had created Cambodia's war Rather than bringing long term peace to Cambodia Roberts argues it created the temporary illusion of a democratic system that in fact recreated the military conflict and housed it in a superficial coalition The book challenges assumptions regarding the inevitability of the globalization of liberalism as a means of ordering non western societies It explains the failure of democratic transition in terms of the impropriety and weakness of the plan which preceded it and in terms of the elite's traditional reliance on absolutism and resistance to the concept of Opposition

Beyond Democracy in Cambodia Joakim Öjendal, Mona Lilja, 2009 This is the first in depth study to assess the post conflict democratization process in Cambodia in a systematic empirical way

From Development to Democracy Dan Slater, Joseph Wong, 2024-08-20 Why some of Asia's authoritarian regimes have democratized as they have grown richer and why others haven't Over the past century Asia has been transformed by rapid economic growth industrialization and urbanization a spectacular record of development that has turned one of the world's poorest regions into one of its richest Yet Asia's record of democratization has been much more uneven despite the global correlation between development and democracy Why have some Asian countries become more democratic as they have grown richer while others most notably China haven't In *From Development to Democracy* Dan Slater and Joseph Wong offer a sweeping and original answer to this crucial question Slater and Wong demonstrate that Asia defies the conventional expectation that authoritarian regimes concede democratization only as a last resort during times of weakness Instead Asian dictators have pursued democratic reforms as a proactive strategy to revitalize their power from a position of strength Of

central importance is whether authoritarians are confident of victory and stability In Japan South Korea and Taiwan these factors fostered democracy through strength while democratic experiments in Indonesia Thailand and Myanmar were less successful and more reversible At the same time resistance to democratic reforms has proven intractable in Singapore Malaysia Hong Kong China Vietnam and Cambodia Reconsidering China's 1989 crackdown Slater and Wong argue that it was the action of a regime too weak to concede not too strong to fail and they explain why China can allow democracy without inviting instability The result is a comprehensive regional history that offers important new insights about when and how democratic transitions happen and what the future of Asia might be **The Political Economy of the Cambodian**

Transition Caroline Hughes, 2003-09-02 Cambodia underwent a triple transition in the 1990s from war to peace from communism to electoral democracy and from command economy to free market This book addresses the political economy of these transitions examining how the much publicised international intervention to bring peace and democracy to Cambodia was subverted by the poverty of the Cambodian economy and by the state's manipulation of the move to the free market This analysis of the material basis of obstacles to Cambodia's democratisation suggests that the long established theoretical link between economy and democracy stands even in the face of new strategies of international democracy promotion *Hun Sen's Cambodia* Sebastian Strangio, 2014-11-28 To many in the West the name Cambodia still conjures up indelible images of destruction and death the legacy of the brutal Khmer Rouge regime and the terror it inflicted in its attempt to create a communist utopia in the 1970s Sebastian Strangio a journalist based in the capital city of Phnom Penh now offers an eye opening appraisal of modern day Cambodia in the years following its emergence from bitter conflict and bloody upheaval In the early 1990s Cambodia became the focus of the UN's first great post Cold War nation building project with billions in international aid rolling in to support the fledgling democracy But since the UN supervised elections in 1993 the nation has slipped steadily backward into neo authoritarian rule under Prime Minister Hun Sen Behind a mirage of democracy ordinary people have few rights and corruption infuses virtually every facet of everyday life In this lively and compelling study the first of its kind Strangio explores the present state of Cambodian society under Hun Sen's leadership painting a vivid portrait of a nation struggling to reconcile the promise of peace and democracy with a violent and tumultuous past *Visible Hands ; ;*

Unrisd, 2019-08-15 This volume is a compilation of an United Nations research institute for social development report for Geneva in 2000 It provides a comprehensive analysis of the progress to date exploring efforts to reassert the value of equity and social cohesion in an increasingly individualistic world **Post-Conflict Heritage, Postcolonial Tourism** Tim

Winter, 2007-11-08 Weaving together a political analysis of heritage policies with an understanding of tourism as a series of intersecting cultural economies this book explores a decade of world heritage and tourism in Angkor *Southeast Asia and the Civil Society Gaze* Gabi Waibel, Judith Ehlert, Hart N. Feuer, 2013-11-20 As developing countries with recent histories of isolation and extreme poverty followed by restoration and reform both Cambodia and Vietnam have seen new opportunities

and demands for non state actors to engage in and manage the effects of rapid socio economic transformation This book examines how in both countries civil society actors and the state manage their relationship to one another in an environment that is continuously shaped and re constructed by changing legislation collaboration and negotiation advocacy and protest and social control Further it explores the countries divergent experiences whilst also uncovering the underlying basis and drivers of civil society activity that are shared by Cambodia and Vietnam Crucially this book engages with the contested nature of civil society and how it is socially constructed through research and development activities by looking at contemporary discourses and manifestations of civil society in the two countries including national and community level organisations associations and networks that operate in a variety of sectors such as gender the environment and health Drawing on extensive fieldwork conducted in Cambodia and Vietnam this book will be of huge interest to students and scholars of Southeast Asian studies Southeast Asian politics development studies and civil society

Lost Goddesses Trudy Jacobsen, 2008 Women had a high status in premodern Southeast Asia this is constantly stated especially in relation to discussions on the status of women today in the region Why then is it that the position of women there today is far from equitable Few studies have examined how when or even why this change came about This is the first study ever to address the place of women in Cambodian history A narrative and visual tour de force it revises accepted perspectives in the history and geopolitical organization of Cambodia since c 230 C E In so doing the book examines the relationship between women and power and analyzes the extent of female political and economic participation as revealed in historical sources including the ways in which women were represented in art and literature

Governing Cambodia's Forests Andrew Cock, 2017-12-13 The widespread destruction of Cambodia's forests in recent decades saw the loss of the last major area of pristine tropical forest in South east Asia The proceeds of often indiscriminate logging and sale of forest and plantation concessions have enriched the country's ruling elite but cost its rural population dearly It was moreover a process in which foreign aid donors were deeply involved even if the outcome was contrary to their intentions The tragedy of Cambodia's forests has received much international publicity from environmental NGOs but far less scholarly treatment That deficiency is now addressed by this detailed and sophisticated case study of how externally sponsored reform agendas can be manipulated by domestic elites

Not Just Victims Audrey U. Kim, 2003 Not Just Victims contains twelve oral histories based on conversations with Cambodian community leaders in eight American cities Long Beach Philadelphia Washington D C Seattle Portland Tacoma and the Massachusetts towns of Fall River and Lowell Unlike the dozens of autobiographies published by Cambodians that focus largely on their victimization these narratives describe how Cambodian refugees have adapted to life in the United States Sucheng Chan's extensive introduction provides a historical framework she discusses the civil war 1970-75 the bloody Khmer Rouge revolution 1975-79 the border war during the Vietnamese occupation of Cambodia 1979-89 and the additional travails faced by those who escaped to holding camps in Thailand The book also includes an essay on oral history and a substantial bibliography

Peacebuilding and NGOs Ryerson Christie, 2013 Analysing the relationship between civil society and the state this book lays bare the assumptions informing peacebuilding practices and demonstrates through empirical research how such practices have led to new dynamics of conflict The drive to establish a sustainable liberal peace largely escapes critical examination When such attention is paid to peacebuilding practices scholars tend to concentrate either on the military components of the mission or on the liberal economic reforms This means that the roles of Non Governmental Organizations NGOs and the impact of attempting to nurture Northern forms of civil society is often overlooked Focusing on the case of Cambodia this book seeks to examine the assumptions underlying peacebuilding policies in order to highlight the reliance on a particular linear reading of European North American history The author argues that such policies in fostering a particular form of civil society have affected patterns of conflict dictating when and where politics can occur and who is empowered to participate in such practices Drawing on interviews with NGO representatives and government representatives this volume will assert that while the expansion of civil society may resolve some sources of conflict its introduction has also created new dynamics of contestation This book will be of much interest to students of peacebuilding conflict resolution development studies S E Asian politics and IR in general

Gender, Religion and Education in a Chaotic Postmodern World Zehavit Gross, Lynn

Davies, Al-Khansaa Diab, 2012-12-04 The immense changes that the world is undergoing in terms of globalization and migration of peoples have had a profound effect on cultures and identities. The question is whether this means shifts in religious identities for women and men in different contexts, whether such shifts are seen as beneficial, negative or insufficient, or whether social change actually means new conservatism or even fundamentalisms. Surrounding these questions is the role of education in any change or new contradiction. This unique book enhances an interdisciplinary discourse about the complex intersections between gender, religion and education in the contemporary world. Literature in the social sciences and humanities have expanded our understanding of women's involvement in almost every aspect of life, yet the combined religious/educational aspect is still an under-studied and often under-theorized field of research. How people experience their religious identity in a new context or country is also a theme now needing more complex attention. Questions of the body, visibility and invisibility are receiving new treatments. This book fills these gaps. The book provides a strong comparative perspective with 15 countries or contexts represented. The context of education and learning covers schools, higher education, non-formal education, religious institutions, adult literacy, curriculum and textbooks. Overall, the book reveals a great complexity and often contradiction in modern negotiations of religion and secularism by girls and boys, women and men, and a range of possibilities for change. It provides a theoretical and practical resource for researchers, religious and educational institutions, policy makers and teachers.

A Post-Liberal Peace Oliver Richmond, 2012-08-21 This book examines how the liberal peace experiment of the post-Cold War environment has failed to connect with its target populations which have instead set about transforming it according to their own local requirements. Liberal peacebuilding has caused a range of unintended consequences. These emerge from the liberal peace's internal contradictions, from its claim to offer a universal normative and epistemological basis for peace and to offer a technology and process which can be applied to achieve it. When viewed from a range of contextual and local perspectives, these top-down and distant processes often appear to represent power rather than humanitarianism or emancipation. Yet the liberal peace also offers a civil peace and emancipation. These tensions enable a range of hitherto little-understood local and contextual peacebuilding agencies to emerge which renegotiate both the local context and the liberal peace framework, leading to a local liberal hybrid form of peace. This might be called a post-liberal peace. Such processes are examined in this book in a range of different cases of peacebuilding and statebuilding since the end of the Cold War. This book will be of interest to students of peacebuilding, peacekeeping, peace and conflict studies, international organisations and IR/Security Studies.
