California Surfing And Climbing In The Fifties:

California Surfing and Climbing in the Fifties, 2013 The story told by the photographs in California Surfing and Climbing in the Fifties takes place against the larger backdrop of postwar America Truman and Eisenhower the Korean War the Cold War and the Red Scare Young people were embracing new symbols of non conformity Elvis Presley Jack Kerouac Marlon Brando and James Dean All along the California coast surfing became popular as heavy balsawood boards were replaced with lightweight ones crafted from polyurethane foam fiberglass and resin Meanwhile climbers descended on Tahquitz Rock in the south and Yosemite Valley to the north to test handcrafted equipment that would set new standards for safety technique and performance The photographs in this volume include images of legendary surfers such as Joe Quigg Tom Zahn Dale Velzy and Renny Yater in locations such as Rincon Malibu South Bay Laguna and San Onofre and famous climbers such as Warren Harding Royal Robbins and Wayne Merry among others photographed mostly in the Yosemite Valley by the likes of Bob Swift Alan Steck Jerry Gallwas and Frank Hoover Soaked in surf sun and adrenaline the photographs in California Surfing and Climbing in the Fifties depict the birth of an era and an exhilarating moment in Californian history

The Mourning After John Ibson, 2018-11-01 On the battlefields of World War II with their fellow soldiers as the only shield between life and death a generation of American men found themselves connecting with each other in new and profound ways Back home after the war however these intimacies faced both scorn and vicious homophobia The Mourning After makes sense of this cruel irony telling the story of the unmeasured toll exacted upon generations of male friendships John Ibson draws evidence from the contrasting views of male closeness depicted in WWII era fiction by Gore Vidal and John Horne Burns as well as from such wide ranging sources as psychiatry texts child development books the memoirs of veterans children and a slew of vernacular snapshots of happy male couples In this sweeping reinterpretation of the postwar years Ibson argues that a prolonged mourning for tenderness lost lay at the core of midcentury American masculinity leaving far too many men with an unspoken ache that continued long after the fighting stopped forever damaging their relationships with their wives their children and each other

Surfer, 1991 **Surfing**, 1980 *Pilgrims of the Vertical* Joseph E. Taylor III, 2010-10-15 Few things suggest rugged individualism as powerfully as the solitary mountaineer testing his or her mettle in the rough country Yet the long history of wilderness sport complicates this image In this surprising story of the premier rock climbing venue in the United States Pilgrims of the Vertical offers insight into the nature of wilderness adventure From the founding era of mountain climbing in Victorian Europe to present day climbing gyms Pilgrims of the Vertical shows how ever changing alignments of nature technology gender sport and consumer culture have shaped climbers relations to nature and to each other Even in Yosemite Valley a premier site for sporting and environmental culture since the 1800s elite athletes cannot be entirely disentangled from the many men and women seeking recreation and camaraderie Following these climbers through time Joseph Taylor uncovers lessons about the relationship of individuals to groups sport to society and nature to culture He

also shows how social and historical contexts influenced adventurers choices and experiences and why some became leading environmental activists including John Muir David Brower and Yvon Chouinard In a world in which wild nature is increasingly associated with play and virtuous play with environmental values Pilgrims of the Vertical explains when and how these ideas developed and why they became intimately linked to consumerism Pop Goes the Decade Ralph G.
