**A Guide for Using Call It Courage in the Classroom** Julia Jasmine, Julia JASMINE, 1997-02 Teaching literature unit based on the popular children's story Call it courage *Call it Courage Lit Links Series Gr. 7-8*, *Call it Courage* Armstrong Sperry, 1940 *The National Union Catalog, Pre-1956 Imprints*, 1978 [Great Authors of Children's Books](#) Britannica Educational Publishing, 2014-01-01 Few stories have the power to stay with us the way the tales we hear in childhood do Great children's book authors have at their disposal countless techniques to channel young imaginations and appeal directly to their audience's tender sensibilities They craft colorful characters whose circumstances and actions resonate with readers in a way that carries through well into adulthood The creators of some of the most whimsical witty thought provoking and powerful children's books of all time including Lewis Carroll Dr Seuss Beatrix Potter Maurice Sendak and Laura Ingalls Wilder among many others are presented in this exciting volume *Dust Off the Gold Medal* Sara L. Schwebel, Jocelyn Van Tuyl, 2021-08-23 The oldest and most prestigious children's literature award the Newbery Medal has since 1922 been granted annually by the American Library Association to the children's book it deems most distinguished Medal books enjoy an outsized influence on American children's literature figuring perennially on publishers lists on library and bookstore shelves and in school curricula As such they offer a compelling window into the history of US children's literature and publishing as well as into changing societal attitudes about which books are best for America's schoolchildren Yet literary scholars have disproportionately ignored the Medal winners in their research This volume provides a critically and historically grounded scholarly analysis of representative but understudied Newbery Medal books from the 1920s through the 2010s interrogating the disjunction between the books omnipresence and influence on the one hand and the critical silence surrounding them on the other *Dust Off the Gold Medal* makes a case for closing these scholarly gaps by revealing neglected texts insights into the politics of children's literature prizing and by demonstrating how neglected titles illuminate critical debates currently central to the field of children's literature In particular the essays shed light on the hidden elements of diversity apparent in the neglected Newbery canon while illustrating how the books respond sometimes in quite subtle ways to contemporaneous concerns around race class gender disability nationalism and globalism **Sailing Alone** Richard J. King, 2024-05-21 2024 National Outdoor Book Award Silver Medal Winner A masterfully curated collection You don't have to be a sailor to be blown away by this fascinating bighearted book Nathaniel Philbrick author of *In the Heart of the Sea* *Travels with George and Second Wind* A story as vast and exhilarating as the open ocean itself *SAILING ALONE* chronicles the daring disastrous and often absurd history of those who chose to sail across the ocean in very small boats alone Sailing by yourself out of sight of land can be invigorating and terrifying compelling and tedious and sometimes all of the above in one morning But it is also a wide expanse of time in which to think *Sailing Alone* tells the story of some of the remarkable people who over the last four centuries have spent weeks and months moving slowly over the world's largest

laboratory a capricious and startling place in which to observe oneself the weather the stars and countless sea creatures from the tiniest to the most massive and threatening Richard J King profiles characters famous diverse international and obscure from Joshua Slocum of 1898 to modern teenagers daring to take the challenge They see strange hallucinations lie to us and themselves on their travel logs encounter sharks befriend birds and experience ESP all part of the unnerving reality of extended isolation And some disappear altogether Sailing Alone also recounts the author's own nearly catastrophic solo crossing of the Atlantic and the mystery of his inexplicable survival one sunny afternoon An enormously engaging new book for skippers and armchair voyagers alike
