Marijuana

Federalism Jonathan H. Adler,2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization

Transfer Pricing and

Financial Transactions Michael Lang,Raffaella Petruzzi,2022-03-16 Transfer pricing and financial transactions Issues and developments Since years issues related to transfer pricing and intra group financing are prominent in the agendas of both

taxpayers and governments The extreme relevance of these topics and the need to address them has attracted the interest of various international organizations for a long time Already in 1972 the OECD emphasized that these topics required further attention and the 1979 OECD Transfer Pricing Report dedicated an entire chapter to issues concerning loans However the first OECD Transfer Pricing Guidelines issued in 1995 did not include a chapter on these issues Twenty five years later in February 2020 the OECD finally released its 2022 Transfer Pricing Guidelines on Financial Transactions that became Chapter X of the OECD Transfer Pricing Guidelines Meanwhile in 2021 the United Nations included these topics in Chapter 9 of its Practical Manual for Developing Countries With those welcomed recent developments from the OECD and the UN the topic is now being extensively discussed especially considering the necessary implementation of the guidance at the national level and the future answers from the tax courts at national and European levels when dealing with this matter This publication discusses the most important issues and recent developments related to this topic Beginning with an in depth analysis on the accurate delineation of financial transactions it further deals with the specific transactions concerning loans financial guarantees and cash pooling This book is based on the outcomes of the presentations and discussions held during the WU Transfer Pricing Symposium held in October 2021 at the WU Vienna University of Economics and Business The authors apart from providing a theoretical background to the discussed issues also present case studies that show how those issues can be approached in practice
