

FEDEX EXPRESS VIRTUAL FLIGHT OPERATIONS MANUAL

Revised September 29, 2017

Introduction

Welcome to FedEx Express Virtual. This document was designed to: provide new members with the information they need to get started right away; and be a reference for the general operations of our organization.

FedEx Express Virtual (FDXVA) was founded by two ardent fans of the real life FedEx: Garen Evans and Mike Tabb. These two friends founded FDXVA in 2015 because they wanted to share their passion for cargo air operations with others. Mike and Garen have many thousands of hours of flight simulation experience, and extensive experience with virtual airline administration, air traffic control, technical development, and web and software management.

At FDXVA we balance realism with a common-sense approach to flight simulation. For example: our route structure mimics our real life counterpart, yet the system is dynamic and often includes charter and ferry flights; our fleet is based on the same aircraft used by the real life FedEx, yet members have the flexibility to choose any of those aircraft for any flight; we have more than one thousand destinations, and a system that allows our members to jumpseat to new points of departure around the globe.

In short, we have coupled FedEx's real life route structure with common sense approach to flight operations. As a result, our members enjoy a number of features that are unique to the virtual aviation community without an overly burdensome set of rules and regulations. We like it this way, and we hope you will too.

Counterfeit Community John F. Freie, 1998-06-11 From gated communities to Heaven's Gate the idea and practice of community in America have not only declined but mutated In the process Americans longing to be connected to something greater than themselves has intensified This longing coupled with an absence of genuine community alternatives opens the way to counterfeit claims by those promoting economic rather than social agendas This book examines counterfeit community as it has become manifest throughout contemporary American society in housing as it shapes our public spaces in

the workplace in politics in religion and most recently in cyberspace Promises of community come from those hawking exclusive golf course housing developments from shopping malls and shopping channels from total quality management and mission statement rhetoric from televangelists and electronic town meetings and all lure us in only to disappoint As Counterfeit Community shows building genuine community means no quick fixes and no false appeals The hard work of weaving relationships must be combined with political economic and social change to counter the counterfeit trend Marshaling positive examples of genuine community as well as increasing our sensitivity to false ringers this book starts us along the way
