**Florida's Test-Based Promotion Policy. How Does Retention Affect Students' Academic Performance?** Philipp Leppert, 2015-11-12 Seminar paper from the year 2014 in the subject Pedagogy School System Educational and School Politics grade 1.0 University of Kassel language English abstract This paper aims to provide an overview of the outcomes of the test based promotion policy for the federal state Florida introduced in 2002 The first chapter will deal with specific features of Florida's test based promotion policy followed by the research design that was used by Schwerdt and West 2013 to evaluate the program Afterwards estimation results and the treatment effect are discussed including results of Chicago's test based promotion policy to compare the findings of different studies [The Testing Charade](#) Daniel Koretz, 2017-08-31 For decades we've been studying experimenting with and wrangling over different approaches to improving public education and there's still little consensus on what works and what to do The one thing people seem to agree on however is that schools need to be held accountable we need to know whether what they're doing is actually working But what does that mean in practice High stakes tests Lots of them And that has become a major problem Daniel Koretz one of the nation's foremost experts on educational testing argues in *The Testing Charade* that the whole idea of test based accountability has failed it has increasingly become an end in itself harming students and corrupting the very ideals of teaching In this powerful polemic built on unimpeachable evidence and rooted in decades of experience with educational testing Koretz calls out high stakes testing as a sham a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement Rather than setting up incentives to divert instructional time to pointless test prep he argues we need to measure what matters and measure it in multiple ways not just via standardized tests Right now we're lying to ourselves about whether our children are learning And the longer we accept that lie the more damage we do It's time to end our blind reliance on high stakes tests With *The Testing Charade* Daniel Koretz insists that we face the facts and change course and he gives us a blueprint for doing better *A Chronicle of Echoes* Mercedes K. Schneider, 2014-04-01 Corporate reform is not reform at all Instead it is the systematic destruction of the foundational American institution of public education The primary motivation behind this destruction is greed Public education in America is worth almost a trillion dollars a year Whereas American public education is a democratic institution its destruction is being choreographed by a few wealthy well positioned individuals and organizations This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school **Fostering Change in Institutions, Environments, and People** David C. Corrigan,2014-10-28 Against the

backdrop of the Tea Party dominated GOP former Florida governor Jeb Bush may appear comparatively moderate but his record tells a different story In Conservative Hurricane Matthew Corrigan probes beyond the mild veneer the sound bites and the photo ops to examine the real evidence of Bush s political leanings his policies politics and legacy as the state s most powerful governor After remaking himself from a strident ideologue into a restrained conservative policy wonk Bush became Florida s first two term Republican governor The small government conservative who in his second inaugural address dreamed of an idyllic Tallahassee free of government employees was unstoppable He presided over the largest accumulation of executive branch authority in the state s history and advanced a multitude of social and economic reforms the effects of which are still felt in the Sunshine State today It was the beginning of a new kind of conservative activism one that has only gained strength in the years since Bush left office From the culture wars to the management of state government Corrigan examines the governor s indelible mark on Florida He demonstrates how the issues most closely associated with Bush s leadership including education reform end of life decisions and gun rights would guide Republican governors in other states as they rode the rising tide of conservative populism For anyone curious about a potential Jeb Bush presidency this book is required reading

**Test Fraud** Neal Kingston, Amy Clark, 2014-06-27 There has been an increase in awareness and perhaps occurrence of individual and organized cheating on tests Recent reports of widespread problems with state student accountability tests and teacher certification testing have raised questions about the very validity of assessment programs While there are several books that specifically detail the issues of test security cheating on assessments few outline the statistical procedures used for detecting various types of potential test fraud and the associated research findings Without a significant research literature base the new generation of researchers will have little opportunity or incentive to improve on existing methods Enlisting a variety of experts and scholars in different fields of testing this edited volume expands on the current literature base by including examples of detailed research findings arrived at by statistical methodology It also provides a synthesis of the current state of the art with regard to the statistical detection of testing infidelity particularly for large scale assessments By presenting methods currently used by testing organizations and research on new methods the volume offers an important forum for expanding the literature in this area

**Expertise** Jessica Gerrard, Jessica Holloway, 2023-01-26 This book offers an important and timely critique of expertise showing how it is a keyword shaped by social historical and political debates about what counts as knowledge and truth and who counts as experts Using teacher expertise as an illustrative case Jessica Gerrard and Jessica Holloway reflect on recent events including COVID 19 and the climate crisis to examine how expertise is never neutral objective or fixed They argue that getting political is not just an inevitable part of teacher expertise but a

necessary basis of any claim to it Across the chapters Expertise explores how expertise is socially constructed in relation to governance uses of data and evidence understandings of ignorance and the unknown and ultimately power Using contemporary and historical examples from international contexts the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not and what is and is not expertise Gerrard and Holloway argue that ongoing policy debates about teacher expertise cannot be resolved by neutral definitions of good teaching Rather expertise is unavoidably political in its expression More Than a Score Jesse Hagopian, 2014-11-10 Jesse Hagopian brought a rare moment of truth to the corporate dominated Education Nation show when he spoke on behalf of his colleagues at Garfield High in Seattle He instantly became the voice and face of the movement to stop pointless and punitive high stakes testing Diane Ravitch author of *Reign of Terror* In cities across the country students are walking out parents are opting their children out and teachers are rallying against the abuses of high stakes standardized testing These are the stories in their own words of some of those who are defying the corporate education reformers and fueling a national movement to reclaim public education Alongside the voices of students parents teachers and grassroots education activists the book features renowned education researchers and advocates including Nancy Carrlson Paige Karen Lewis and Monty Neill Jesse Hagopian teaches history and is the Black Student Union adviser at Garfield High School the site of the historic boycott of the MAP test in 2013 He is an associate editor of *Rethinking Schools* and winner of the 2013 Secondary School Teacher of Year award from the Academy of Education Arts and Sciences He is a contributing author to *Education and Capitalism Struggles for Learning and Liberation* and *101 Changemakers Rebels and Radicals Who Changed US History* and writes regularly for *Truthout Black Agenda Report* and the *Seattle Times Op Ed page* **Handbook of Reading Assessment** Sherry Mee Bell, R.
