Dear Parent/Guardian,

The purpose of this letter is to inform you that your student will be taking the **Grade 4 FCAT 2.0 Writing Test on Tuesday, February 25, 2014**. The FCAT 2.0 Writing Test is administered in one 60-minute session in which students write an essay in response to a prompt. Later this spring, your student will receive a score for his/her writing on a scale from 1-6 score points.

Please review the following policies with your student before testing:

■ **Electronic Devices**—If your student is found with *ANY* electronic devices, including, but not limited to, cell phones and smart phones, at any time during testing OR during breaks, his or her test will be invalidated, which means it will not be scored. The best practice is for students to leave devices at home on the day of testing.

■ **Testing Rules Acknowledgment**—The Writing test includes a Testing Rules Acknowledgment that reads, "I understand the testing rules that were just read to me. If I do not follow these rules, my test score may be invalidated." Prior to testing, test administrators will read the rules to students, and students must acknowledge that they understand the testing rules by signing their names under the statement.

■ **Discussing Test Content after Testing**—The last portion of the testing rules read to students before they sign the acknowledgment reads, "After the test, you may not discuss the Writing prompt with anyone. This includes any type of electronic communication, such as texting, emailing, or posting online, for example, on websites like Facebook, Twitter, or Instagram." If students are found sharing information about test items, even without the intent to cheat, their tests will be invalidated.

■ **Leaving Campus**—If your student leaves campus before completing the test (for an appointment, illness, etc.), he or she **WILL NOT** be allowed to complete the test. If your student does not feel well on the day of testing, it may be best for him or her to wait and be tested on the make-up day.

Sincerely,

Mr. Allen Breeding, Principal

Putting Performance First United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Oversight and Investigations, 2000 *Leaving No Child Behind?* F. Hess, 2004-10-01 NCLB is the signal domestic policy initiative of the Bush administration and the most ambitious piece of federal education legislation in at least thirty five years Mandating a testing regime to force schools to continually improve student performance it uses school choice and additional learning resources as sticks and carrots intended to improve low performing schools and districts The focus is on improving alternatives to children in low performing schools Here top experts evaluate the potential and the problems of NCLB in its initial stages of implementation This first look provides valuable insights offering lessons crucial to understanding this dramatic change in American education

Holding Schools Accountable Kris Sloan, 2006-12-30 Sloan explores the varied contours of the educational accountability movement that has swept the United States He describes the historical origins and underlying assumptions of present day accountability measures current issues surrounding accountability relationships between the accountability and the standards movements and the role of standardized testing in each of these movements and provides a critical reading of the seemingly divided literature concerning the effects of accountability on public education This volume also focuses on the implications of accountability measures on parents families and communities including details of the varied efforts by grassroots organizations that have raised concerns over current accountability measures While there has been a substantial amount of parent and community opposition to both state and national accountability policies increasingly these organizations are offering suggestions for ways to make accountability measures better and more responsive to both community and student needs The work concludes by offering valuable suggestions about improving even strengthening accountability measures in ways that are more responsive and respectful of students their families and local communities

SAGE Handbook of Research on Classroom Assessment James H. McMillan, 2013 The Sage Handbook of Research on Classroom Assessment provides scholars professors graduate students and other researchers and policy makers in the organizations agencies testing companies and school districts with a comprehensive source of research on all aspects of K 12 classroom assessment The handbook emphasizes theory conceptual frameworks and all varieties of research quantitative qualitative mixed methods to provide an in depth understanding of the knowledge base in each area of classroom assessment and how to conduct inquiry in the area It presents classroom assessment research to convey in depth the state of knowledge and understanding that is represented by the research with particular emphasis on how classroom assessment practices affect student achievement and teacher behavior Editor James H McMillan and five Associate Editors bring the best thinking and analysis from leading classroom assessment researchers on the nature of the research making significant contributions to this prominent and hotly debated topic in education

Left Behind in the Race to the Top Julie A. Gorlewski, Brad J. Porfilio, 2013-08-01 Public education is suffering attacks

that are well funded and extraordinarily complex and multifaceted These conditions make it difficult for educators and citizens to gather the information they need to mount meaningful resistance especially since mainstream media tends to be uncritically supportive of neoliberal reforms The Orwellian language of reforms is adopted and promoted through news outlets politicians and film thus arguments against these reforms must bubble up through social media and alternative outlets By providing a coherent comprehensive description of contemporary neoliberal initiatives and analyzing their effects on students teachers administrators and teacher education this book will allow educators parents students and citizens to strengthen their resolve to save public education and potentially work to preserve the promise of democracy This book examines and uncovers the effects of standardization and privatization on public education Contributors consider the how of standardized curriculum and assessment coupled with philanthropic and corporate pressure have influenced the experiences of students parents and teachers Divided in sections entitled Testing Testing Privatization and Militarization Redefining Schools Alienation Displacing Students and Teachers and Resistance Opting Out and Hope for Change this text offers a combination of information and inspiration for teachers teacher educators policymakers parents and anyone interested in understanding the current state of public education

Leadership from the Ground Up Michele A. Acker-Hocevar, Marta I. Cruz-Janzen, Cynthia L. Wilson, 2012-01-01 This book chronicles the journey of seven schools serving students of poverty English Language Learners ELLs and students of color which were able to sustain school improvement for a decade on either state and or national criteria that measure student performance outcomes The book shares stories of these seven schools and demonstrates that it takes an entire school working together with their communities adding to the social and cultural capital of their students and families to create and nurture what we call a Learning Partnership for sustainable school improvement The answers for how these schools sustained school improvement and are effective schools is evident from their school student metrics that validate the school s ability to meet and sustain external mandates of high performance over time The seven individual case stories illustrate that what matters most is what happens in the school itself It is the internal culture of caring and respecting each other and working from an additive perspective of valuing students for their unique gifts and abilities rather than exclusively focusing on increasing test scores that makes these school stories unique This is not about heroic leadership but leadership spread out and shared among professionals working together to achieve common goals around shared values and beliefs This book is about using resources in ways that value human capital as the greatest asset in the school to ensure that educators feel a sense of commitment connection and passion for their work together with students their families and their communities that enable them to excel together We offer readers seven cases that demonstrate there is no cookie cutter approach to having an effective school Rather there is a theory in practice that grounds the Learning Partnership depicted as a tree within a sustainable school improvement culture This sustainable culture connects shared leadership and accountability resourcefulness a humanistic philosophy additive schooling and results in an organization

synergy that sustains organizational and collective efficacy for achieving results in these schools that other educators in schools with similar demographics are often unable to sustain or attain *A Chronicle of Echoes* Mercedes K.

Schneider,2014-04-01 Corporate reform is not reform at all Instead it is the systematic destruction of the foundational American institution of public education The primary motivation behind this destruction is greed Public education in America is worth almost a trillion dollars a year Whereas American public education is a democratic institution its destruction is being choreographed by a few wealthy well positioned individuals and organizations This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school *The Politics of African-American Education* Kenneth J. Meier,Amanda Rutherford,2016-08-22 Based on the

1 800 largest school districts in the United States over a decade The Politics of African American Education documents the status of African American education and the major role that partisanship plays The book brings together the most comprehensive database on minority education to date that centers around three arguments First partisanship permeates African American education it affects who is elected to the school board the racial composition of school administrators and teachers and the access of African American students to quality education Second African American representation matters The effectiveness of African American representation however is enhanced in Democratic districts while representation in Republican districts has little influence Third political structures matter but they are not determinative Two different structures election rules and the independent school district create the rules of the game in US education politics and policy but do not limit others from using those rules to change the outcome *Dance of the Reptiles* Carl Hiaasen,2014-01-28 NEW YORK TIMES BESTSELLER A collection of the best Miami Herald columns from the New York Times bestselling author of Squeeze Me on burning issues like animal welfare polluted rivers and the broken criminal justice system If you think the wildest wackiest stories that Carl Hiaasen can tell have all made it into his hilarious bestselling novels think again Dance of the Reptiles collects the best of Hiaasen s Miami Herald columns which lay bare the stories large and small that demonstrate anew that truth is far stranger than fiction Hiaasen offers his commentary indignant disbelieving sometimes righteously angry and frequently hilarious on issues like the Deepwater Horizon oil spill Bernie Madoff s trial and the shenanigans of the recent presidential elections Whether or not you have read Carl Hiaasen before you are in for a wild ride **The Next**

Phase in Heritage Language Studies: Methodological Considerations and Advancements Fatih Bayram,Maki Kubota,Sergio Miguel Pereira Soares,2024-03-27 Over the past three decades studies investigating heritage speaker HS linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language s HS outcomes display variation across a wide spectrum of differences as compared to each other other types of bilinguals as well as their monolingual peers Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields e g L1 acquisition adult L2 acquisition offering in addition to documenting and describing HS performance important

insights for linguistic theory and challenges related to home minority language maintenance contact policy and more A birds eye view makes it clear that the methodologies one uses to tap into HSs linguistic knowledge areas if not more are important than the phenomena under investigation especially in light of how their unique experiences with their heritage and other languages are present across a continuum *Reading Interventions for the Improvement of the Reading Performances of Bilingual and Bi-Dialectal Children* Dr. Afra Johnson,2015-10-29 The book explores the remedial pedagogy applied during intervention designed to improve the students metacognitive processes of learning new English language knowledge Todays globalization and technology on social behaviors demand that school age students acquire reading skills by the use of audio visual practices The linguistic integrations during the intervention processes combined with direct instruction produced an individualized awareness of improvements in comprehension Each student cognitively processed the audio input and visual text My findings were related to the cultural practices of ESOL and ELL students to counteract the mismatch between home and school language frameworks This type of technique encourages students to use the concepts of the English language related to what they hear read and speak within and outside of the school environment **Independent Banker** ,2007

Understanding Variability in Second Language Acquisition, Bilingualism, and Cognition Kristin Kersten,Adam Winsler,2022-07-29 This collection brings together linguistic psychological and sociological perspectives reflecting on the relationships and interactions of the multilayered factors impacting second language development and cognitive competence The book advocates a system approach as a counterpoint to existing scholarship which has tended to focus on a small set of variables The 13 chapters demonstrate the ways in which cognitive and linguistic development are intrinsically linked occurring within a nested structure of multiple levels individual neuro cognitive systems and processes individual engagement with the social world and the wider social and institutional environments and cultural contexts affecting the belief systems and linguistic conventions of social groups The volume begins by outlining the theoretical and methodological foundations before moving into a more focused look at the interplay of these different variables at the macro meso and micro levels A final section features two commentary chapters from linguistics and psychology respectively synthesizing insights from earlier chapters and situating the collection within broader scholarship on linguistic and cognitive development theoretical and methodological implications and discussions of avenues for future empirical research This book will be of particular interest to scholars in second language acquisition psycholinguistics cognition psychology and sociology

Accountability Frankenstein Sherman Dorn,2007-03-01 To understand the current moment in school accountability one must understand the larger contradictions in education politics Accountability Frankenstein provides a broader perspective on the school accountability debate by exploring the contradictions inherent in high stakes testing Accountability Frankenstein explains the historical and social origins of test based accountability the political roots of accountability why we trust test scores while we distrust teachers the assumptions behind formulaic accountability systems and the weaknesses

with the current carrot and stick approach to motivating teachers Accountability Frankenstein answers the questions of educators and parents who want to understand the origins of accountability This book challenges the beliefs of fierce advocates and opponents of highstakes testing It provides a rescue plan for accountability after the failures of high stakes testing a plan to make accountability smart democratic and real *Florida Standards* Susan Nelson Wood,2007 Florida Standards A Handbook for Teaching in the Sunshine State is a book for elementary and secondary teachers in Florida s schools Focusing specifically on one geographic area the discussion is grounded using the language resources and policies as they currently exist in the sunshine state At the heart of this book is a focus on student learning Contextualized across domains of learning school demographics student needs and curricular variance this book is meant to provide readers with increased understanding about how to make a difference in the classroom FEATURES Outcome expectations Goals and objectives for what readers should accomplish are presented in the introduction and at the start of each chapter Reflective prompts To support readers as they monitor and self assess a series of reflective prompts are placed throughout the handbook Before reading features As a window into the complex issues addressed in this handbook Taking a Stance boxes are placed at the beginning of each chapter These open ended statements invite readers to consider their positions and opinions before reading During reading features Informing and Articulating Your Stance mid chapter checkpoints and text boxes appear throughout each chapter serving as prompts for further thinking writing and discussion After reading features Toward the end of each chapter Researching and Extending Your Stance a series of questions revisit initial assumptions and offer suggestions for further research Evidence learning Each chapter ends with a Summary section that contains specific questions aligned with the chapter s objective In addition all writing completed during the reading of this handbook will document student learning and serve as artifacts in a professional portfolio Resources Due to the constant shifts in standards and assessments the primary resources offered in this handbook are Internet links Websites have been carefully selected to give readers the kind of specificity impossible to contain in an affordable text like this Glossary The specialized vocabulary of the standards movement as applicable to this book is defined in a short glossary **Muck City** Bryan Mealer,2013-08-13 In a town deep in the Florida Everglades where high school football is the only escape a haunted quarterback a returning hero and a scholar struggle against terrible odds The loamy black muck that surrounds Belle Glade Florida once built an empire for Big Sugar and provided much of the nation s vegetables often on the backs of roving destitute migrants Many of these were children who honed their skills along the field rows and started one of the most legendary football programs in America Belle Glade s high school team the Glades Central Raiders has sent an extraordinary number of players to the National Football League 27 since 1985 with five of those drafted in the first round The industry that gave rise to the town and its team also spawned the chronic poverty teeming migrant ghettos and violence that cripples futures before they can ever begin Muck City tells the story of quarterback Mario Rowley whose dream is to win a championship for his deceased parents

and quiet the ghosts that haunt him head coach Jessie Hester the town's first NFL star who returns home to win kids not championships and Jonteria Williams who must build her dream of becoming a doctor in one of the poorest high schools in the nation For boys like Mario being a Raider is a one shot window for escape and a college education Without football Jonteria and the rest must make it on brains and fortitude alone For the coach good intentions must battle a town's obsession to win above all else Beyond the Friday night lights this book is an engrossing portrait of a community mired in a shameful past and uncertain future but with the fierce will to survive win and escape to a better life *Naked America* Michael Anthony Smith, 2008 Every society has its ideals and its myths In *Naked America* author Michael A Smith examines many of the nation's original ideals and presents compelling information indicating most of them have been transformed into myths For example many regularly describe the United States as the land of economic opportunity yet 20 percent of American households earn half of all income and own more than half of all the nation's assets Education is touted as the road to success although only one third of high school graduates achieve a postsecondary education degree Two thirds of future jobs in what has become essentially a service economy are projected to be low or very low paying In the world's self proclaimed greatest democracy pessimism about government is widespread and only 35 percent of registered voters vote regularly Although more than 80 percent of Americans profess to be practicing Christians New Testament ethics appear overwhelmed by mindless materialism pervasive marketplace fraud a high crime rate constant ideological bickering and cultural kitsch To rectify this situation and turn America's ideals into reality the author proposes many wide ranging social economic and political reforms
