

Abstracts: Asset Measurement Chemistry 1127-116
Abstracts:

Students' work today should not involve a worksheet with disconnected, elementary arithmetic questions. Rather, give them a challenging problem, perhaps from an outside source, which has about a 90 percent chance that students will complete using a reasonable (not brute force) method that will require some critical thinking.

[illegible]

The following is a list of the names of the persons who have been appointed to the various positions in the various departments of the Government of the State of New York, for the year 1900, as shown on the accompanying list. The names are given in alphabetical order, and the positions are given in the order in which they appear on the list. The names are given in the order in which they appear on the list, and the positions are given in the order in which they appear on the list. The names are given in the order in which they appear on the list, and the positions are given in the order in which they appear on the list.
