

Chemistry 1st Semester Final Exam Review – ANSWER KEY

READ THE FOLLOWING PARAGRAPH BEFORE YOU START! This worksheet is meant to be a "practice test" to help you prepare for your final exam.

Suggestions on how to prepare: I would first order my notes and homework by the dates on them. Then I would look at the topic statement below (the capital letter phrases) for the first topic. Find this topic and all related information or materials in your possession and study them thoroughly! I would suggest you re-read your textbook/notes and re-work old problems. When you feel you have the topic well reviewed and understood THEN work the topic problems or questions on this sheet. If you don't get the answers right, go back and spend more time reviewing your old materials. If you do get them right, go on to the next topic and repeat the process. After you do all topics this way, start over!

As always, remember to use and report answers to the correct significant figures and to include units!
