Nature's Experiments and the Search for Symbolist Form Allison Morehead, 2017-02-27 This provocative study argues that some of the most inventive artwork of the 1890s was strongly influenced by the methods of experimental science and ultimately foreshadowed twentieth century modernist practices Looking at avant garde figures such as Maurice Denis douard Vuillard August Strindberg and Edvard Munch Allison Morehead considers the conjunction of art making and experimentalism to illuminate how artists echoed the spirit of an increasingly explorative scientific culture in their work and processes She shows how the concept of nature s experiments the belief that the study of pathologies led to an understanding of scientific truths above all about the human mind and body extended from the scientific realm into the world of art underpinned artists solutions to the problem of symbolist form and provided a ready made methodology for fin de si cle truth seekers By using experimental methods to transform symbolist theories into visual form these artists broke from naturalist modes and interrogated concepts such as deformation automatism the arabesque and madness to create modern works that were radically and usefully strange Focusing on the scientific psychological and experimental tactics of symbolism *Nature s Experiments and the Search for Symbolist Form* demystifies the avant garde value of experimentation and reveals new and important insights into a foundational period for the development of European modernism

The Creative Turn Anne M. Harris, 2014-04-16 The conundrum of understanding practising and teaching contemporary creativity is that it wants to be all things to all people Almost all modern lists of creativity creative thinking and how to becoming creative books begin with one premise the creative individual artist is not special rather each of us is creative in a special way and these skills can and must be nurtured Increasingly industry and education leaders are claiming that creativity is the core skill to take us into a prosperous future signalling the democratisation of creativity as industry Yet centuries of association between aesthetics mastery and creativity are hard to dismantle These days it is increasingly difficult to discuss creativity without reference to business industry and innovation Why do we love to think of creativity in this way and no longer as that rare visitation of the muse or the elite gift of the few This book looks at the

possibility that creativity is taking a turn what that turn might be and how it relates to industry education and ultimately cultural role of creativity and aesthetics for the 21st century In proliferating discourses of the commodification of creativity there is one thing all the experts agree on creativity is undefinable possibly unteachable largely unassessable and becoming the most valuable commodity in 21st century markets *Environments for Outdoor Play* Theresa Casey, 2007-03-27 Theresa's book is full of lots of inspiring practical how to go about it ideas coupled with thought provoking and sometimes challenging comments and views The range of ideas and information contained in this book will go a long way to support the development of flexible imaginative yet not prescriptive play spaces that contribute to supporting children's play A very readable and worthwhile publication to add to your resources Muriel Young Grounds for Learning Learning Through Landscapes This practical book helps the reader plan design and manage the kinds of settings that afford children the opportunities to carry out the wide range of self directed activities that are so important to their development It's ideal for community development workers the organizers of after school programs children's hospital staff and groups of caring parents Roger A Hart Director of the Children's Environments Research Group The Graduate School of the City University of New York This readable and usable book is full of advice and ideas which will take every professional nearer to understanding the way to provide opportunities for children which the children themselves would want and enjoy A necessary addition to the bookshelf for all interested in the subject PlayRights Journal online journal of the International Play Association Refreshing and insightful One of the best things about this book is that Casey offers us a fresh perspective on our role While we may long for a world where we opened the door and sent children outside to play we are faced with the reality that for a variety of reasons these opportunities are no longer occurring naturally in our communities It is incumbent upon us now to recreate these essential childhood opportunities This will take intentional thoughtful informed design Casey's book gives us some great starting points A must read PlayRights Magazine I like the attention to individuality children's perspectives and community The author brings a strong playwork perspective to considering outdoor spaces which early years practitioners considering the design of new or refurbished areas should find valuable It's crucial to free up our thinking about playful spaces and this book brings a refreshing focus on working from children's motivations for play using playful values such as choice spontaneity freedom and meaning making to drive thinking being careful not to over design and the organic growth of a space into a place through the play that occurs Nursery World Casey's extensive research and years of practice in award winning play services are very much in evidence in the various techniques and ideas that she describes in this publication a great resource for any play setting considering setting up or developing their outdoor play space SOSCN News Update If you are daunted but excited by the challenge of developing your outdoor spaces to meet the needs of all children this book is an excellent resource Early Years Update Exciting spaces to play are vital if we are to provide children with challenging flexible inclusive and stimulating opportunities to learn develop and have fun together This book provides

readers with ideas for developing play environments that will meet the needs of the children in their care It illustrates how improving the play environment also offers a better more positive way of dealing with a number of issues from inclusion to playground management and the need to promote physical activity It includes clear frameworks for designing play environments case studies showing examples of how play environments can be developed ideas and activities which lead to interesting designs with the participation of the children practical examples illustrations research evidence showing the importance of good play environments The book is aimed at practitioners and managers in all early years and children s play settings and students on education early childhood child care and playwork courses It is also very relevant to playground designers landscape architects and community education and development workers **House Corner** ,1979 Provides criteria to help teachers observe and assess children s level of ability in play and provides suggestions for arranging the house corner area **ENC Focus** ,2000 **Surviving and Thriving in the Secondary School** Susan Capel,Julia Lawrence,Marilyn Leask,Sarah Younie,2019-10-01 With an emphasis on developing a reflective resilient approach that will ensure both effective teaching and teacher well being Surviving and Thriving in the Secondary School covers key issues that may be encountered in the day to day practice of teaching in the secondary school With evidence based practice at the forefront this volume allows new teachers to avoid common pitfalls of teaching and it will help provide a new found confidence within the classroom Including a wide range of tasks that will help guide and demonstrate successful practice this book covers topics and concerns such as Building relationships within teaching Managing and responding to change Becoming an inclusive educator Working to improve classroom climate and pupil behaviour Assessment homework and marking Inclusion of digital technologies and ICT Looking after yourself and your professional development Surviving and Thriving in the Secondary School can be utilised to help support and provide ideas on specific areas of concern or it can be read as a continuing professional development CPD companion allowing practice to be developed and refined Written by world renown experts in the field this volume provides support for all newly qualified teachers and is an essential resource for the first year of teaching and beyond
