Creative Writing Exercises For Middle School:

A Practical Guide to Creative Writing in Schools Fiona Clark, 2021-04-22 This book contains seven tried and tested creative writing projects for pupils aged 8-14. Each project is delivered through a series of workshops and enables pupils to explore a literary genre or writing style, discuss themes and topics, and receive constructive feedback about their writing. The projects cover topics such as identity, cultural heritage, tolerance, empathy, morality, dreams, and much more. Teachers wanting to run creative writing projects will find this book easy to follow, practical, and timesaving. Each project allows students to explore a certain literary genre or writing style in detail, be creative, and have fun while learning. Think about, talk about, and discuss themes and topics, receive constructive feedback about their writing, pursue their own ideas, see themselves as real writers with a real audience, understand that writing can be enjoyable, artistic, and relaxing, experience creativity to improve their wellbeing. These ready-made projects are invaluable for teachers who are looking for new and successful creative writing projects for a range of students. They will enable teachers to immediately start making a difference to their students' confidence and writing skills, allowing them to be as creative and imaginative as possible and use creativity as a springboard for their own writing.

Creative Writing Pedagogies for the Twenty-First Century Alexandria Peary, Tom C Hunley, 2015-06-25 The creative writing workshop, beloved by some, dreaded by others, and ubiquitous in writing programs across the nation. For decades, the workshop has been entrenched as the primary pedagogy of creative writing. While the field of creative writing studies has sometimes myopically focused on this single method, the related discipline of composition studies has made use of numerous pedagogical models. In *Creative Writing Pedagogies for the Twenty-First Century*, editors Alexandria Peary and Tom C Hunley gather experts from both creative writing and composition studies to offer innovative alternatives to the traditional creative writing workshop. Drawing primarily from the field of composition studies, a discipline rich with a wide range of established pedagogies, the contributors in this volume build on previous models to present fresh and inventive methods for the teaching of creative writing. Each chapter offers both a theoretical and a historical background for its respective pedagogical ideas, as well as practical applications for use in the classroom. This myriad of methods can be used either as a supplement to the customary workshop model or as stand-alone roadmaps to engage and reinvigorate the creative process for both students and teachers alike. A fresh and inspiring collection of teaching methods, *Creative Writing Pedagogies for the Twenty-First Century* combines both conventional and cutting-edge techniques to expand the pedagogical possibilities in creative writing studies.
