**The Delight And Dilemma Of Female-To-Male Transgender** Dr. Oswald Thomas, 2022-05-16 A small number of persons whom have been label as female to male transgender FTMs have been growing and have become more noticeable as they push for a more inclusive society that will accept them as equal and treat them as the gender and sex they have chosen Females to male transgender individuals are only fifty eight thousand of the United States population that is a very small part of over three hundred million people and

about 1.1 million worldwide. However, researchers have found that far too many transgender individuals have attempted or committed suicide because they are unable to assimilate into mainstream society and accepted for the gender and sex they have chosen to become. Female to male transgender persons believe that they were born in the wrong body and actively detest being the person they were labeled at the time of their births. Now that many have been able to assimilate into their sex and gender, there begins and ends their delight and dilemma. This author has interviewed ten female to male transgender individuals about their self-esteem and social acceptance after reassignment into their chosen sex and gender.

What Are Children For? Anastasia Berg, Rachel Wiseman, 2024-08-15. Having children is one of the biggest decisions you'll make in your life. Increasingly, we aren't making it at all. A NEW STATESMAN BEST BOOK OF 2024. A book for lovers of sound reasoning. THE NEW YORKER. Across the developed world, fewer and fewer people are becoming parents. We seek self-fulfillment; we want women to find meaning and self-worth outside the household; we wish to protect the planet from the ravages of climate change; we do what we can to protect others from senseless suffering. On the face of it, none of these goals are served by having children. Amid such pressures, how on earth can we make the choice to do so? Anastasia Berg and Rachel Wiseman offer a way out of this inertia and indecision by reminding us that in making the individual decision whether to have children, we confront a profound philosophical question: for all its pains and failures, is human life worth living? *What Are Children For?* is a stirring call to overcome fear and dread and embrace the value of human existence and a human future.

*Ripped in Time: Prehistoric Animals Break into US Parks Book 2:* AJ Griffith, 2022-05-16. But when they get confronted by predatory dinosaurs and get trapped in another time, things change. They now all have to survive and wait until a solution appears. This will be quite an adventure for the watchers and the 5Ds.

For every woman who grew up competing on the uneven playing field, who is told she is too aggressive, assertive, dramatic, or emotional, this book is the battle cry you need to learn to thrive within the system that exists today, even if it's not the one we wish it were. *Take Back Your Power* presents both hard data and Liu's personal experiences from twenty years as a woman leader in the male-dominated tech industry to help you find your voice, learn how to ask and achieve what you want in a system that isn't fair and wasn't created for you. Debunk the negative connotations of power and harness it for your own success. Discover how to be heard, seen, and taken more seriously at work by getting out of your own way.
