

Credit Rating Agencies

- A company that assigns credit ratings for issuers of debt securities such as bonds.
- Makes it easier for investors to get an idea of the credit risk that they are taking on.
- CRA's do thorough research of a company's current financial position and future prospects, from which they assign a rating.
- The higher the rating the more credit-worthy the company's debt instruments are.
- The lower the credit rating the more risky a company's debt securities are, meaning that investors will demand higher interest rates to invest. This will make debt funding more expensive.
