CRIMES IN THE THE NEW SECTARIANISM: NEW WILDER-

This manual contains the first publication of information on a series of new sectarian groups in the U.S.S.R.: Foodniks, Sinnerists, Arkists, Khazarists, Good-believers, Steppies, etc. It includes extensive excerpts from the writings of sectarian leaders, as well as a detailed analysis of little-known religio-mystical texts. The manuscript collection of the Institute of Atheism, in the course of religiology expeditions in the U.S.S.R., is intended for specialists in Scientific Atheism and Contemporary Non-traditional Beliefs.

Cries In The New Wilderness:

The Transformative Humanities Mikhail Epstein, 2012-09-13 Distinguished scholar Mikhail Epstein offers a re assessment of the role of the humanities and advocates their constructive potential for the society and intellectual culture of the future In his famous classification of the sciences Francis Bacon not only catalogued those branches of knowledge that already existed in his time but also anticipated the new disciplines he believed would emerge in the future the desirable sciences In this open access publication Mikhail Epstein echoes in part Bacon s vision and outlines the desirable disciplines and methodologies that may emerge in the humanities in response to the new realities of the twenty first century Are the humanities a purely scholarly field or should they have some active constructive supplement We know that technology serves as the practical extension of the natural sciences and politics as the extension of the social sciences Both technology and politics are designed to transform what their respective disciplines study objectively The Transformative Humanities A Manifesto addresses the question Is there any activity in the humanities that would correspond to the transformative status of technology and politics It argues that we need a practical branch of the humanities which functions similarly to technology and politics but is specific to the cultural domain The ebook editions of this book are available open access under a CC BY NC ND 4 0 license on bloomsburycollections.com

Russian Postmodernism Mikhail N. Epstein, Alexander A. Genis, Slobodanka Vladiv-Glover, 2016 Recent decades have been decisive for Russia not only politically but culturally as well The end of the Cold War has enabled Russia to take part in the global rise and crystallization of postmodernism This volume investigates the manifestations of this crucial trend in Russian fiction poetry art and spirituality demonstrating how Russian postmodernism is its own unique entity It offers a point of departure and valuable guide to an area of contemporary literary cultural studies insufficiently represented in English language scholarship This second edition includes additional essays on the topic and a new introduction examining the most recent developments

The Landscape of Stalinism Evgeny Dobrenko, Eric Naiman, 2011-11-15 This wide ranging cultural history explores the expression of Bolshevik Party ideology through the lens of landscape or more broadly space Portrayed in visual images and words the landscape played a vital role in expressing and promoting ideology in the former Soviet Union during the Stalin years especially in the 1930s At the time the iconoclasm of the immediate postrevolutionary years had given way to nation building and a conscious attempt to create a new Soviet culture In painting architecture literature cinema and song images of landscape were enlisted to help mold the masses into joyful hardworking citizens of a state with a radiant utopian future all under the fatherly guidance of Joseph Stalin From backgrounds in history art history literary studies and philosophy the contributors show how Soviet space was sanctified coded and sold as an ideological product They explore the ways in which producers of various art forms used space to express what Katerina Clark calls a cartography of power an organization of the entire country into a hierarchy of spheres of relative sacredness with Moscow at the center The theme of center versus periphery figures prominently in many of the

essays and the periphery is shown often to be paradoxically central Examining representations of space in objects as diverse as postage stamps a hikers magazine advertisements and the Soviet musical the authors show how cultural producers attempted to naturalize ideological space to make it an unquestioned part of the worldview Whether focusing on the new or the centuries old whether exploring a built cityscape a film documentary or the painting Stalin and Voroshilov in the Kremlin the authors offer a consistently fascinating journey through the landscape of the Soviet ideological imagination Not all features of Soviet space were entirely novel and several of the essayists assert continuities with the prerevolutionary past One example is the importance of the mother image in mass songs of the Stalin period another is the boundless longing inspired in the Russian character by the burden of living amid vast empty spaces But whether focusing on the new or the centuries old whether exploring a built cityscape a film documentary or the painting Stalin and Voroshilov in the Kremlin the authors offer a consistently fascinating journey through the landscape of the Soviet ideological imagination

Komiks José Alaniz, 2011-02-03 Jos Alaniz explores the problematic publication history of komiks an art form much maligned as bourgeois mass diversion before during and after the collapse of the USSR with an emphasis on the last twenty years Using archival research interviews with major artists and publishers and close readings of several works Komiks Comic Art in Russia provides heretofore unavailable access to the country s rich but unknown comics heritage The study examines the dizzying experimental comics of the late Czarist and early revolutionary era caricature from the satirical journal Krokodil and the postwar series Petia Ryzhik the Russian Tintin Detailed case studies include the Perestroika era KOM studio the first devoted to comics in the Soviet Union post Soviet comics in contemporary art autobiography and the work of Nikolai Maslov and women s comics by such artists as Lena Uzhinova Namida and Re I Alaniz examines such issues as anti Americanism censorship the rise of consumerism globalization e g in Russian manga the impact of the internet and the hard won establishment of a comics subculture in Russia Komiks have often borne the brunt of ideological change thriving in summers of relative freedom freezing in hard winters of official disdain This volume covers the art form s origins in religious icon making and book illustration and later the immensely popular lubok or woodblock print Alaniz reveals comics vilification and marginalization under the Communists the art form s economic struggles and its eventual internet migration in the post Soviet era This book shows that Russian comics as with the people who made them never had a normal life

When Angels Cry Robert Wright, 2006 This book culminates years of study and research by its writer Robert Wright While still a child Robert intrigued by discussions held by his parents and family friends as they celebrated the Sabbath hours on Friday evenings and Saturdays developed a love for Bible prophecy and history Educated in both public and private Christian schools Robert has a Masters degree in Educational Psychology Of his many interests Bible prophecy is his passion In this book the writer examines Seventh day Adventists beliefs concerning Babylon the Great He addresses the issues head on challenging traditional views providing alternative perspectives yet leaving in tact the essential truths espoused by the

church regarding the Papacy The symbols of Revelation 12 17 and 18 are re examined as the writer presents evidence that suggests Babylon the Great does not symbolize the Papacy as traditionally taught This book offers a bible based defense of what Babylon symbolizes Most importantly this book encourages the reader to rely on the Bible as its own expositor the only source upon which to establish faith as it introduces compelling insights regarding the message of the angel of Revelation 18 The message of this angel the fourth angel s message accompanied by the outpouring of the Latter Rain represents God s final warning to the inhabitants of a planet destined for destruction Yet at the same time the message offers hope a means of escape for all people that heed the Divine invitation to come out of Babylon To follow up with questions about the contents of this book or its writer e mail questions or comments to mail powervisionministries org *What Will Be Already Exists* Emese Kürti,Zsuzsa László,2021-09-03 How do artist archives survive and stay authentic in radically changed contexts The volume addresses the challenge of continuity sustainability and institutionalization of archives established by Eastern European artists At its center stands the 40th anniversary of the Artpool Art Research Center founded in 1979 in Budapest as an underground institution based on Gy rgy Gal ntai s Active Archive concept Ten internationally renowned scholars propose contemporary interpretations of this concept and frame artist archives not as mere sources of art history but as models of self historicization The contributions give knowledgeable insights into the transition of Cold War art networks and institutional landscapes *Ideas Against Ideocracy* Mikhail Epstein,2021-09-09 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures awarded by the Modern Languages Association This groundbreaking work by one of the world s foremost theoreticians of culture and scholars of Russian philosophy gives for the first time a systematic examination of the development of Russian philosophy during the late Soviet period Countering the traditional view of an intellectual wilderness under the Soviet regime Mikhail Epstein provides a comprehensive account of Russian thought of the second half of the 20th century that is highly sophisticated without losing clarity It provides new insights into previously mostly ignored areas such as late Soviet Russian nationalism and Eurasianism religious thought cosmism and esoterism and postmodernism and conceptualism Epstein shows how Russian philosophy has long been trapped in an intellectual prison of its own making as it sought to create its own utopia However he demonstrates that it is time to reappraise Russian thought now freed from the bonds of Soviet totalitarianism and ideocracy but nevertheless dangerously engaged into new nationalist aspirations and metaphysical radicalism We are left with not only a new and exciting interpretation of recent Russian intellectual history but also the opportunity to rethink our own philosophical heritage

The Spirit of Socialism Joseph Kellner,2025-06-15 *The Spirit of Socialism* is a cultural history of the Soviet collapse It examines the millions of Soviet people who during the cascading crises of the collapse and the post Soviet transition embarked on a spirited and highly visible search for new meaning Amid profound disorientation these seekers found direction in their horoscopes or behind gurus in saffron robes or apocalyptic preachers or by turning from the most basic

premises of official science and history to orient themselves anew The beliefs they seized on and even more the questions that guided their search reveal the essence of late Soviet culture and its legacy in post Soviet Russia To skeptical outsiders the seekers appeared eccentric deviant and above all un Soviet Yet they came to their ideas by Soviet sources and Soviet premises As Joseph Kellner demonstrates their motley beliefs reflect modern values that formed the spiritual core of Soviet ideology among them a high regard for science an informed and generous internationalism and a confidence in humanity to chart its own course Soviet ideology failed however to unite these values in an overarching vision that could withstand historical change And so as The Spirit of Socialism shows the seekers asked questions raised but not resolved by the Russian Revolution and subsequent Soviet order questions of epistemic authority of cultural identity and of history's ultimate meaning Although the Soviet collapse was not the end of history it was a rupture of epochal significance whose fissures extend into our own uncertain era

Critical Theory in Russia and the West Alastair Renfrew, Galin Tihanov, 2009-12-04 The traditional view that the rise of Western theoretical thought in the 1960s and 1970s could be traced back to the Soviet 1920s once accepted in Russia and the West alike because it directly associated the academic prestige of contemporary Western theory with the intellectual climate of post revolutionary Russia is increasingly challenged today With the gradual retreat in recent years of theory from the high ground of the Western humanities new work has emerged to suggest unexpected parallels and to undermine others This book with contributions from some of the most visible specialists in the field re examines the significant transfers cross fertilisations and synergies of cultural and literary theory between Russia and the West from the 1920s through to the present day It focuses primarily on those tendencies which have made the most significant contribution to critical theory over the last century and looks ahead at the theoretical paradigms that are most likely to shape the future dialogue between Russia and the West in the humanities

In Marx's Shadow Costica Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the

logical continuation of intellectual conversations and confrontations initiated long before 1989 *Studies in Textual Criticism* Emanuel Tov, 2024-02-06 Twenty eight rewritten and updated essays on the textual criticism of the Hebrew Bible the Septuagint and the Dead Sea Scrolls mainly published between 2019 and 2022 are presented in the fifth volume of the author's collected essays They are joined by an unpublished study an unpublished reflection on the development of text critical research in 1970 2020 and the author's academic memoirs All the topics included in this volume are at the forefront of textual research **Russian Spirituality and the Secularization of Culture** Mikhail Epstein, 2011 This book explores the challenges to the process of secularization in Russian society during the period of its dominance by the Orthodox Church and subsequently during the Soviet atheistic era Both are based on the binary opposition of values sacred and profane and do not admit of a middle ground where truly secular culture develops The book presents the foundational categories of Russian spirituality such as the demonic and the apophatic banality and inversion drawing on the work of Russian writers and thinkers of the 19th and 20th centuries The author considers modern Russian culture's need for a neutral middle ground between its extreme polarities He also explores the dangers of comprehensive neutralization in culture and the necessity of retaining elements of the dual model along with the introduction of intermediate elements When combined these views do not cancel each other out but rather produced a ternary model of a cultural symbiosis between the extreme and the media despite their apparent incompatibility P 4 of cover **Optical Play** Julia Bekman Chadaga, 2014-10-31 Longlist finalist 2015 Historia Nova Prize for Best Book on Russian Intellectual and Cultural History Julia Bekman Chadaga's ambitious study posits that glass in its uses as a material and as captured in culture is a key to understanding the evolution of Russian identity from the eighteenth century onward From the contemporary perspective it is easy to overlook how glass has profoundly transformed vision Chadaga shows the far reaching effects of this phenomenon Her book examines the similarities between glass and language the ideological uses of glass and the material's associations with modernity while illuminating the work of Lomonosov Dostoevsky Zamyatin and Eisenstein among others In particular Chadaga explores the prominent role of glass in the discourse around Russia's contentious relationship with the West by turns admiring and antagonistic as the nation crafted a vision for its own future Chadaga returns throughout to the spectacular aspect of glass and shows how both the tendentious capacity and the playfulness of this material have shaped Russian culture

Perspectives on Language and Text Francis I. Andersen, 1987 Essays on Semitics Statistics and Linguistics the Hebrew Bible the Greek Bible and Religion by an international group of scholars reflect the wide ranging interests of Professor Andersen's research and writing In addition a number of poems by friends of Professor Andersen are included in appreciation of his long standing interest and involvement in poetics The contributions reflect the deep impact of his leadership in linguistics and study of the Hebrew Bible **Significance of the Dead Sea Scrolls and other Essays** S. Nkhoma, 2013-07-26 Jonathan Nkhoma in this scholarly collection of essays enriches the reader with different interesting

windows on how one can unearth the riches contained in some of the New Testament writings The first two essays underscore the importance of placing the New Testament in a proper context and attempt to construct this context by discussing the historical background and the theological understanding of the Qumran Covenanters as derived from the Dead Sea Scrolls Jonathan Nkhoma treats many aspects touching the proper interpretation of the New Testament writings For example he shows how the sacramental rituals of washing and eating together in the Qumran Community add meaning to the same rituals carried over to the New Testament The significance of table fellowship is treated in greater depth in a subsequent essay Throughout the various essays the question of the historicity of the various texts is treated in a succinct way and the author is able to come to some helpful conclusions drawing on the previous work of many well know scholars The later essays tackle the very difficult question of martyrdom and Jonathan Nkhoma delves into the history of two particular cases in order to shed light on this difficult subject All essays are written in impeccable English which flows in an easy style This collection of essays would be invaluable to anyone who would wish to make a serious study of the New Testament writings

The Bible's Many Voices Michael Carasik,2014-01-01 The most common English translations of the Bible often sound like a single somewhat archaic voice In fact the Bible is made up of many separate books composed by multiple writers in a wide range of styles and perspectives It is as Michael Carasik demonstrates not a remote text reserved for churches and synagogues but rather a human document full of history poetry politics theology and spirituality Using historic linguistic anthropological and theological sources Carasik helps us distinguish between the Jewish Bible s voices the mythic the historical the prophetic the theological and the legal By articulating the differences among these voices he shows us not just their messages and meanings but also what mattered to the authors In these contrasts we encounter the Bible anew as a living work whose many voices tell us about the world out of which the Bible grew and the world that it created

Cry God Hears, The Barbara J. Yoder,2011 Bestselling author and respected pastor offers keys and encouragement for pressing through fear in difficult times anointing them for spiritual breakthrough

Exodus in the New Testament Seth M. Ehorn,2022-03-24 In focusing exclusively on the book of Exodus and its constant allusions in the New Testament this new collection of studies seeks both to increase knowledge of the textual transmission of Exodus in the first century and to encourage further methodological reflection on the use of Scripture vs scriptural traditions as employed by ancient authors First exploring the role of Exodus within Judaism in the Second Temple Period the contributors then reflect upon the rhetorical impact of Exodus citations and allusions in the New Testament By taking the reader from the Four Gospels through the Pauline and Disputed Letters and

Hebrews and all the way to Revelation itself this volume demonstrates both the unity and the diversity of appeals to Exodus traditions in Jewish and Christian literature within the Second Temple Period
