Crescent Moon Rising The Islamic Transformation Of America:

Crescent Moon Rising Paul L. Williams, 2013-01-22 Forty years ago Muslims in America were a statistically insignificant minority numbering fewer than one thousand individuals. By contrast, Islam is today the second largest and fastest growing religion in America with more than six million adherents. In *Crescent Moon Rising*, journalist Paul L. Williams examines the phenomenal rise of Islam in the United States and discusses its implications. In the first half of the book, the author traces the beginnings of Islam in this country, in particular the rise and influence of the Nation of Islam among African Americans. He emphasizes the impact of the 1965 Hart-Celler Act which abolished national origin quotas and led to successive waves of Muslim immigrants who entered this country from Palestine, Kuwait, Iraq, Southeast Asia, Africa, Turkey, and other parts of the world. In the second half, Williams considers statistical studies of American Muslims regarding age, groups, family size, professional affiliations, annual income, and religious and political commitments. He also addresses a number of disturbing concerns about some aspects of the Muslim presence in America. These include the connections between many American mosques with Saudi benefactors who promote an ultra-orthodox anti-Western agenda, the existence of Muslim paramilitary training grounds recruiting ex-convicts, and the ties of even self-described moderate Muslim spokespersons with more politically radical elements. Informative and at times controversial, *Crescent Moon Rising* clearly shows that Islam will be a force to reckon with for some time in America.

Finding W.D. Fard John Andrew Morrow, 2019-01-14 Since his arrival in Detroit on July 4, 1930, W.D. Fard, known also as Wallace Fard Muhammad and over fifty other aliases, has elicited an enormous amount of curiosity. Who was this man who claimed that he was both the Messiah and the Mahdi and who was identified as God in Person by his disciple Elijah Muhammad, whom he reportedly appointed as his Final Messenger? The people who actually met him and the scholars who have studied him have suggested that he was variously an African American, an Arab from Syria, Lebanon, Algeria, Morocco, or Saudi Arabia, a Jamaican, a Turk, an Afghan, an Indo-Pakistani, an Iranian, an Azeri, a white American, a Bosnian, a Mexican, a Greek, or even a Jew. In an attempt to determine the origins of W.D. Fard, most scholars have relied on his teachings as passed down and perhaps modified by Elijah Muhammad. Some have suggested that he was a member of the Moorish Science Temple of America or the Ahmadiyyah Movement. Others have suggested that he was a Druze or a Shiite. *Finding W.D. Fard: Unveiling the Identity of the Founder of the Nation of Islam* provides an overview of the scholarly literature related to this mysterious subject and the theories concerning his ethnic and racial origins. It provides the most detailed analysis of his teachings to date in order to identify their original and multifarious sources. *Finding W.D. Fard* considers the conflicting views shared by his early followers to decipher the doctrine he actually taught. Did W.D. Fard really profess to be Allah, or was he deified after his death by Elijah Muhammad? The book features a meticulous study of any and all subjects who fit the profile of W.D. Fard and provides the most detailed information regarding his life to date. It also offers an overview of the turn of the 20th-century Islam in the state of

Georgy Gounev provides readers with a detailed assessment of the people countries and global movements that factor into Islam's mounting threat. From the evolution and history of radical Islam to the role of the United States and Russia in the rise of Islam, the author lays out the factors contributing to this global phenomenon. Taking the reader from Chechnya and Kosovo to Sudan and Somalia to Afghanistan and Iraq, Gounev explores the motivations that lurk beneath the surface of active conflict and extend the threat to the shores of Britain, Russia, and even the United States. He illuminates the vast network that is actively transmitting the political and religious dogma of radical Islam. Casting a cold eye on the theocratic fundamentalism emanating from Iran and Saudi Arabia, Gounev sounds an alarm about a growing threat both outside and inside our borders.

The Dawn of Islamic Literalism Joseph A. Butta, 2013-03. The Dawn of Islamic Literalism: Rise of the Crescent Moon is a book written specifically for the People of the Occident. It places the subject matter, which is unfamiliar to most westerners, in chronological sequence and historical context. It exposes readers to the Qur'an and to the traditions of Muhammad as they occurred in the 6th and 7th century. However, unlike most other related works, it provides commentary and analysis from both an Islamic literalist and a Western perspective. It aims to give the reader an awareness into the ideology and behavior of 7th century Muslims and to help provide insight into contemporary Islamic literalism and its implications for the Western world.

American Crescent Sayyid Hassan Qazwini, 2013-11-01. **American Crescent** Hassan Qazwini, Brad Crawford, 2007. A prominent Muslim cleric reflects on his experiences as a Muslim in the United States and what it means to be Arab, Muslim, and American in the post-September 11 world, arguing that Islam and America have great benefits to offer each other. 35,000 first printing.

The Crescent Obscured Robert J. Allison, 2000. **Black Crescent** Michael A. Gomez, 2005-03-21. Beginning with Latin America in the fifteenth century, this book, first published in 2005, is a social history of the experiences of African Muslims and their descendants throughout the Americas, including the Caribbean. The record under slavery is examined, as is the post-slavery period into the twentieth century. The experiences vary, arguably, due to some extent to the Old World context. Muslim revolts in Brazil are also discussed, especially in 1835, by way of a nuanced analysis. The second part of the book looks at the emergence of Islam among the African descended in the United States in the twentieth century, with successive chapters on Noble Drew Ali, Elijah Muhammad, and Malcolm X, with a view to explaining how orthodoxy arose from varied unorthodox roots.

A History of Islam in America Kambiz GhaneaBassiri, 2010-04-19. Muslims began arriving in the New World long before the rise of the Atlantic slave trade. Kambiz GhaneaBassiri's fascinating book traces the history of Muslims in the United States and their different waves of immigration and conversion across five centuries, through colonial and antebellum America, through world wars and civil rights struggles to the contemporary era. The book tells the often deeply moving stories of individual Muslims and their lives as immigrants and citizens within the broad context of the American religious experience, showing how that experience has been integral to the evolution of American Muslim institutions and practices. This is a unique and intelligent portrayal of a diverse religious community and its relationship with

America It will serve as a strong antidote to the current politicized dichotomy between Islam and the West which has come to dominate the study of Muslims in America and further afield

The Crescent Obscured Robert Allison, 2000-07-15 From the beginning of the colonial period to the recent conflicts in the Middle East encounters with the Muslim world have helped Americans define national identity and purpose Focusing on America's encounter with the Barbary states of North Africa from 1776 to 1815 Robert Allison traces the perceptions and misperceptions of Islam in the American mind as the new nation constructed its ideology and system of government A powerful ending that explains how the experience with the Barbary states compelled many Americans to look inward with increasing doubts about the institution of slavery David W Lesch Middle East Journal Allison's incisive and informative account of the fledgling republic's encounter with the Muslim world is a revelation with a special pertinence to today's international scene Richard W Bulliet Journal of Interdisciplinary History This book should be widely read Allison's study provides a context for understanding more recent developments such as America's tendency to demonize figures like Iran's Khomeini Libya's Qaddafi and Iraq's Saddam Richard M Eaton Eighteenth Century Studies

The Killing of Uncle Sam Rodney Howard-Browne, Paul L. Williams, 2019-10-31 Pride greed and power have driven men to do the unthinkable including selling out their nations and unsuspected citizens to the most corrupt and destructive invisible global leaders on Earth But how did this happen on American soil How did the downfall begin and who were the predators that the land of the free and home of the brave fell victim to And is all hope lost This book captures details of the last 200 years of American history that mainstream media does not want you to know It dissects the legalized system of the private central banks that has gone unchecked and delivers gut wrenching truths about the real domestic and foreign enemies of the United States With over 1000 footnotes and quotes from former presidents prime ministers and state officials it will equip you with the facts that the elites have covered up for centuries and empower you to stand up for the truth

Changing Face of Islam in America Larry Poston, 1996

American Muslim Agenda Dr. Mike Ghouse, 2019-01-11 This book The American Muslim Agenda is a primer a blueprint a roadmap for American Muslims to consider A Muslim is someone who is a conflict mitigator and a goodwill nurturer following a formula for peaceful societies practiced by Prophet Muhammad PBUH and guided by the Quran As a community American Muslims have not developed any concrete plans to extricate themselves out of the chaotic situations hostility and incessant Islamophobic rhetoric we face Each time a terrorist acts out we start praying and wishing that the terrorist not be a Muslim We are Americans and we can do better than that This book paves the way for us to own the mistakes we have made remedy them and become fully integrated Americans There is only one America and all of us are fully integrated parts of that nation We need to learn to engage with those who are opposed to us and I have some good success stories to share on that front When we start defending America and American values we are in We become an integral part of American Fabric

Reflections in a Bloodshot Lens Larry Pintak, 2006 There exists today a tragic rift between Americans and the world's Muslims Each views

the other with suspicion and anger Yet in the immediate aftermath of 9 11 there was widespread sympathy for the U S in the great arc of Muslim nations from West Africa to Southeast Asia This book explores what happened It examines the disconnect that leads Americans and Muslims around the world to view the same words and images in fundamentally different ways Partly a result of a centuries old us against them dichotomy and an essential difference in worldview the problem is exacerbated by an increasingly polarised media and by leaders on both sides who either don t understand or don t care what impact their words and policies have in the world at large Journalist scholar Lawrence Pintak a former CBS News Middle East correspondent argues that the Arab media revolution and the rise of patriot journalists in the US marginalized voices of moderation distorting perceptions on both sides of the divide with potentially disastrous results Built on the author s extensive journalistic experience the book is carefully grounded in contemporary academic scholarship including Orientalism othering worldview media effects theory and framing theory amongst others giving it broad appeal to policymakers students of such fields as media studies Middle East studies and Islamic studies and general current affairs readers
