JOAN EDWARDS.* Joan Edwards,1975      *Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public* Margaret Ponsonby,2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the National Trust preserve their contents rather than restore them to a particular period The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated Although the reason for this preservation and lack of fashionable renewable can be attributed to declining economic fortunes in the twentieth century there are many examples of families practising this method of homemaking over a much longer period Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role of historic textiles Firstly it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle secondly the role of the National Trust as both guardian and interpreter of these houses and their collections and finally and most importantly the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past The importance of preserved textiles in establishing the visual character of historic houses is a neglected area and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries letters and household accounts the study takes a broad approach that will be of interest to all those with an interest in material culture heritage collecting studies and cultural history      *The History of English Secular Embroidery* Margaret Jourdain,1912      *The Bayeux Tapestry* John F. Szabo,Nicholas E. Kuefler,2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror s invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period Who commissioned it and for what purpose What was the intended venue for its display Who was the designer and who executed the enormous task of its manufacture How does it inform our understanding of eleventh century life And who was the mysterious Aelfgyva depicted in the Tapestry s main register This book is an effort to capture and describe the scholarship that attempts to answer these questions But the bibliography also reflects the popularity of the Tapestry in literature covering a surprisingly broad array of subjects The inclusion of this material will assist future scholars who may study references to the work in contemporary non fiction and

popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom The monographs articles and other works cited in this bibliography reflect dozens of research areas Major themes are the Tapestry as a source of information for eleventh century material culture its role in telling the story of the Battle of Hastings and events leading up to the invasion patronage of the Tapestry biographical detail on known historical figures in the Tapestry arms and armor medieval warfare strategy and techniques opus anglicanum the Anglo Saxon needlework tradition preservation and display of the artifact the Tapestry's place in medieval art the embroidery's depiction of medieval and Romanesque architecture and the life of the Bayeux Tapestry itself **The Handicrafter**, 1928 *The Royal School of Needlework Book of Embroidery* Royal School of Needlework, 2018-06-01 An all in one volume covering crewelwork canvaswork and six other types of hand embroidery from the renowned school established in nineteenth century England This beautiful book is a rich source of embroidery techniques stitches and projects covering eight key subjects in detail crewelwork bead embroidery stumpwork canvaswork goldwork whitework blackwork and silk shading Collecting all the books in the trusted bestselling Royal School of Needlework Essential Stitch Guide series plus a new section on mounting your finished work this fantastic book heavily illustrated with photos is a must have for all embroiderers *The Art of Crewel Embroidery* Mildred J. Schoelwer, 2012-01-01 Winner of the Connecticut Book Award 2011 Winner of the Connecticut League of History Organizations Award of Merit 2012 Connecticut women have long been noted for their creation of colorful and distinctive needlework including samplers and family registers bed rugs and memorial pictures crewel embroidered bed hangings and garments silk embroidered pictures of classical or religious scenes quilted petticoats and bedcovers and whitework dresses and linens This volume offers the first regional study encompassing the full range of needle arts produced prior to 1840 Seventy entries showcase more than one hundred fascinating examples many never before published from the Connecticut

Historical Society's extensive collection of this early American art form. Produced almost exclusively by women and girls, the needle arts provide an illuminating vantage point for exploring early American women's history and education, including family-based traditions predating the establishment of formal academies after the American Revolution. Extensive genealogical research reveals unseen family connections linking various types of needlework similar to the multi-generational male workshops documented for other artisan trades such as woodworking or metalsmithing. Photographs of stitches, reverse sides, sketches, design sources, and related works enhance our understanding and appreciation of this fragile art form and the talented women who created it. An exhibition of needlework in this book will be held at the Connecticut Historical Society in late fall 2010. Funding for this project has been provided by the Coby Foundation Ltd and the National Endowment for the Arts.

*Needlework through History* Catherine Amoroso Leslie, 2007-04-30. Needlework serves functional purposes such as providing warmth but has also communicated individual and social identity, spiritual beliefs, and aesthetic ideals throughout time and geography. Needlework traditions are often associated with rituals and celebrations of life events. Often overlooked by historians, practicing needlework and creating needlework objects provides insights to the history of everyday life. Needlework techniques traveled with merchants and explorers, creating a legacy of cross-cultural exchange. Some techniques are virtually universal, and others are limited to a small geographical area. Settlers brought traditions which were sometimes re-invented as indigenous arts. This volume of approximately 75 entries is a comprehensive resource on techniques and cultural traditions for students, information professionals, and collectors.

*The Art of Cloth in Mughal India* Sylvia Houghteling, 2022-03-15. A richly illustrated history of textiles in the Mughal Empire. In the sixteenth and seventeenth centuries, a vast array of textiles circulated throughout the Mughal Empire. Made from rare fibers and crafted using virtuosic techniques, these exquisite objects animated early modern experience from the intimate sensory pleasure of garments to the monumentality of imperial tents. *The Art of Cloth in Mughal India* tells the story of textiles crafted and collected across South Asia and beyond, illuminating how cloth participated in political negotiations, social conversations, and the shared seasonal rhythms of the year. Drawing on small-scale paintings, popular poetry, chronicle histories, and royal inventory records, Sylvia Houghteling charts the travels of textiles from the Mughal imperial court to the kingdoms of Rajasthan, the Deccan sultanates, and the British Isles. She shows how the art of cloth encompassed both the making of textiles as well as their creative uses. Houghteling asks what cloth made its wearers feel, how it acted in space, and what images and memories it conjured in the mind. She reveals how woven objects began to evoke the natural environment, convey political and personal meaning, and span the distance between faraway people and places. Beautifully illustrated, *The Art of Cloth in Mughal India* offers an incomparable account of the aesthetics and techniques of cloth and cloth-making and the ways that textiles shaped the social, political, religious, and aesthetic life of early modern South Asia.
