## Anchorage Police Department

Case Number **07-7770**

### **NARRATIVE**

says, Pirate Heads, nylon pirate flags which are consistent with the red flags that were found over on the west end of the living room.

On top of the table, the end table, there in this corner, there is a telephone with a portable phone on it. There is a small wooden box, and opening up the box there is what looks like, possibly, some rolling papers for marijuana cigarettes or some green powder residue in a plastic bag. There is also darkish brown substance in another plastic bag and part of a marijuana pipe. A small lamp that is in the shape of a skull or several skulls with that general theme all around. Above that is a stuffed caribou head, hanging off of that head is a caricature of an Indian with some sort of a dragon's head on top of that, has an Indian headdress with feathers, hanging off of those antlers, also.

Continuing clockwise now against the south wall, there is another picture window looking out to the south. The vertical blinds here are closed up. There is another shelving on top of this window. This has similar bric-a-brac. Located on top of that shelf there is a pair of snakeskin cowboy boots, children's type, a stuffed teddy bear, small speaker, a railroad engine, figurines, a small panda bear, a small globe, a buffalo figurine.

The couch down below that has a tannish colored cover on top of the couch, has a horse themed blanket on the back, a reddish, tan and black pillows on the sides. There is, what appears to be, a couple of camera bags on the west end of the couch, closed up. There is also a charger for some sort of battery in the middle part of the couch. Over on the east end of the couch, on one of the cushions, there are, at least, four drops of, what appear to be, blood and some blood transfer. There is also a defect with a grayish swipe on it that is, possibly, a bullet strike onto the cushion, itself. On the rug, in front of the cushion, there are several more blood drops/blood transfer onto the rug. There is also a bullet at, appears to be, heavily deformed that is on the rug next to one of the large drops of blood. Also, another bullet fragment just in front of the couch by where the blood drops on the couch cushion are located.

courses in report writing but the textbooks available are commonly geared toward general law enforcement and first responders. However, none of the books on the market focus on the craft of effective informative writing with graphic crime scene specific considerations in mind. While falling under law enforcement's purview, crime scene investigations fall within the forensic science field and as such the reporting required is more technical and often more scientific in nature than the average police report. Due to the lack of published resources and guidance in this critical area, there is no standard that currently exists for vital function within crime scene and investigative circles and often the subject is given short shrift. This creates wide discrepancies among what students are being taught. This book is the first of its kind to provide students and those professionals and agencies in need of a blueprint with a resource to teach them the various types of reports and how to refer to scenarios and specific types of evidence to ensure that the report holds up under the process of an investigation and for use within the courts. Key features: Outlines the key distinctions between police style reports and crime scene style reports and writing. Explains how to clearly and accurately provide an accounting and description of a variety of evidence recovered from a scene. Details how to best organize the report in a logical manner and sequence including the various components of the crime scene report. Presents an explanation of the information that should be included in the report and the rationale behind its importance for testimonial purposes. Report Writing for Crime Scene Investigators provides to the reader the fundamentals of effective report writing for the active field. Crime Scene Investigator Coverage includes the necessary steps to thoroughly document scenes and evidence from the time the CSI receives the call until the time the CSI testifies in court. In addition to the student market, the book will be a welcome resource for professional crime scene investigators, attorneys, and as a reference and standard for professional training programs.
