Kulusika, 2006 Criminal Law Jonathan Herring, 2021 **Presumption of Innocence in EU Anti-Cartel Enforcement** Aisté Mickonytė, 2018-11-26 In this monograph Aist Mickonyt examines the compliance of the European anti cartel enforcement procedure with the presumption of innocence under Article 6 2 of the European Convention on Human Rights ECHR The author maintains that the pursuit of manifestly severe punishment with insistence of the European Commission on administrative level procedural safeguards is inconsistent with the robust standards of protection under the Convention Arguing that EU anti cartel procedure is criminal within the meaning of the Convention this work considers this procedure in light of the core elements of the presumption of innocence such as the burden of proof and the principle of fault The author zeroes in on the de facto automatic liability of parental companies for offences committed by their subsidiaries *Text, Cases, and Materials on Criminal Law* Stuart Keith Macdonald, 2018 **Text, Cases, and Materials on Sex-based Discrimination** Herma Hill Kay, 1988 *Text, Cases, and Materials on Sex-based Discrimination* Kenneth M. Davidson, Ruth Bader Ginsburg, Herma Hill Kay, 1974 Monograph examining and commenting on legislation incl Labour legislation and jurisprudence relating to sex discrimination in the USA covers equal opportunity and women s rights marriage and family life family planning employment and the woman worker equal pay etc **Time, Temporality and Legal Judgment** Tanzil Chowdhury, 2020-05-25 This book challenges the correspondence theory of judicial fact construction that legal rules resemble and subsume facts out there and instead provides an account of judicial fact construction through legally produced times or adjudicative temporalities that structure legal subject and event formation in legal judgement Drawing on Bergsonian and Gadamerian theories of time this book details how certain adjudicative temporalities can produce fully willed and autonomous subjects through time framed legal events in effect the paradigmatic liberal legal subject or how alternative adjudicative temporalities may structure legal subjects that are situated and constituted by social structures The consequences of this novel account of legal judgement are fourfold The first is that judicial fact construction is not exclusively determined by the legal rule s but by adjudication s production of temporalities The second is that the selection between different adjudicative temporalities is generally indeterminate though influenced by wider social structures As will be argued social structures framed as a particular type of past produced by certain adjudicative temporalities may either be incorporated in the rendering of the legal event or elided The third is that with the book s focus on criminal law different deployments of adjudicative temporalities effect responsibility ascription Finally it is argued that the demystification of time as that which structures event and subject formation reveals another way in which to uncover the politics of legal judgement and the potential for its transformative potential through either its inclusion or its elision of social structures in adjudication s determination of facts This book will be of interest to students and scholars in the field of legal judgement legal theory and jurisprudence Space in Support of Human Rights Annette Froehlich, Claudiu Mihai

Tăiatu,2020-01-02 This book stems from the worrying scale and intensity of conflicts humanitarian crises and human rights violations around the world which can be seen in a wide range of global hotspots including Venezuela Yemen Syria Myanmar Sudan Eritrea and numerous others These developments are also relevant for Europe given the large scale migrations they can produce In order to effectively respond to them it has become imperative to analyse ways in which space data and technologies can be used to uphold human rights and monitor violations Various international tribunals such as the International Court of Justice ICJ and the International Criminal Court ICC are increasingly relying on satellite data and especially images when considering human rights violations cases This use of space related technologies represents a trend that promises to continue as the range and accuracy of space derived data improves Further satellite data has important legal implications because it allows the fulfilment of international obligations to be monitored and offers a powerful tool for dispute resolution Accordingly this book examines the use of satellite images for cases concerning human rights violations since the multitude of humanitarian crises worldwide demonstrate that it is of the utmost importance to analyse how space law policies and space related applications could further support the implementation and monitoring of the observance of human rights thus contributing to enhanced security and sustainable development A range of relevant areas such as migration refugees including settlements and whether they are adequately supplied with basic necessities water distribution and quality housing and settlement monitoring are crucial aspects addressed in this book In closing the use of satellite data for legal purposes is not without its fair share of problems and concerns which are also considered to guide the evolution of this emerging field
