## **Criminal Profiling International Theory Research And Practice:**

**Criminal Profiling** Richard N. Kocsis, 2007-07-06 In this book renowned profiler Dr Richard Kocsis presents a distinct approach to profiling called Crime Action Profiling or CAP. The volume explains the scope and methodology employed in the studies that the author has undertaken over the past decade and a half. CAP adopts the view that profiling essentially represents a psychological technique that has its foundations in the disciplinary knowledge of forensic psychology.

**Criminal Profiling** Richard N. Kocsis, 2007-11-03 Criminal Profiling Principles and Practice provides a compendium of original scientific research on constructing a criminal profile for crimes that are not readily resolvable by conventional police investigative methods. Leading profiling expert Richard N. Kocsis PhD utilizes a distinct approach referred to as Crime Action Profiling (CAP), a technique that has its foundations in the disciplinary knowledge of forensic psychology. The initial four chapters examine the skills, accuracy, components and processes surrounding the construction of a criminal profile. The next two chapters focus on CAP research, the methods developed for the profiling of violent crimes and describing a systematic method for the interpretation and use of the CAP models. The subsequent three chapters canvass the respective CAP studies undertaken for crimes of serial rape, serial sexual murder and serial arson. An explanation for how each of the models is developed is also given. The final chapters of the book are devoted to the geographical analysis of crime patterns and to a discussion of the format conventions and procedural guidelines for developing a criminal profile. Offering a scientifically grounded method for the construction of a criminal profile, Criminal Profiling Principles and Practice provides law enforcement personnel, forensic psychologists and psychiatrists, criminologists and forensic investigators with a step by step practical guide for understanding and applying CAP techniques for the construction of a criminal profile in a systematic and replicable manner.

*Terrorist Profiling and Law Enforcement* Noel McGuirk, 2021-02-10 This book analyses the usefulness of terrorist profiling utilised by law enforcement officers as a pre-emptive means to assist them in the detection prevention and deterrence of terrorism and or its preparatory activities It explores two main themes arising from the phenomenon of terrorist profiling the lawfulness of terrorist profiling and the utility of profiling These two themes are explored in three separate parts Firstly the book begins by drawing upon human rights concerns arising from the use of terrorist profiling by law enforcement officers Secondly an analytical framework capable of making determinations on the usefulness of terrorist profiling This framework develops a profiling spectrum that ranges from formal and informal manifestations of terrorist profiling that forms the basis for evaluating its usefulness Finally the book presents an examination of various manifestations of terrorist profiling by separating the analysis of the construction of profiles on the one hand from their application on the other so as to be able to identify and examine profiling's usefulness as a technique to assist law enforcement officers make predictions about likely offender characteristics This book ultimately concludes that terrorist profiling should only be conducted by undertaking a systematic assessment of the construction of profiles separate from the application of profiles whilst simultaneously taking into account fundamental human rights concerns with the practice of terrorist profiling The work will be an essential resource for academics law enforcement officers and lawyers in the disciplines of law criminology human rights criminal justice and policing As the book engages with terrorist profiling it will also be of interest to those engaged in the psychology of terrorism
