African American

Classics in Criminology and Criminal Justice Shaun L Gabbidon, Helen Taylor Greene, Vernetta D Young, 2002

Congratulations to SAGE author Shaun L Gabbidon for becoming the second scholar in the college's history to be named a Distinguished Professor by the University's Office of the President Pennsylvania State University Harrisburg. This collection of writings is crucially important in part because it reminds us the theoretical paradigms of these and other African American scholars are excluded when crime, its causes, and its control are discussed by criminologists, criminal justice practitioners, and policy makers. To understand crime fully, the perspectives advanced by these scholars must become an integral part of discussions about who is a criminal and which public policies will best control crime. From the forward by Anne Thomas Sulton Ph.D. From W.E.B. DuBois through Lee Brown, this anthology provides a collection of the key articles in criminology and criminal justice written by black scholars. Available in a single volume for the first time, the articles collected in this book reflect the voices of African American scholars and display the diversity of perspectives sought after in today's academic community. Crime in the African American community is examined from social, economic, and political perspectives, and the historical context of each article is provided by the editors. Spanning the 20th century, these works present a historical chronology of African American views on crime and its control with theoretical perspectives that have often been tangential to mainstream scholarship. For your courses in Criminological Theory, Race and Crime, Crime and Social Policy, Minorities, and Criminal Justice.

21st Century Criminology: A Reference Handbook J. Mitchell Miller, 2009-08-06. Criminology has experienced tremendous growth over the last few decades, evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U.S. and internationally. Evolutionary paradigmatic shift has accompanied this surge in definitional, disciplinary, and pragmatic terms. Though long identified as a leading sociological specialty area, criminology has emerged as a stand-alone discipline in its own right, one that continues to grow and is clearly here to stay. Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields. Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes, effects, and responses to crime. 21st Century Criminology: A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a first look reference source for most criminological inquiries. Both connected to the sociological origins of criminology, i.e., theory and research methods, and the justice systems' response to crime and related social problems, as well as coverage of major crime types, this two-volume set offers a comprehensive overview of the current state of criminology. From student term papers and masters theses to researchers commencing literature reviews, 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology. This two-volume set in the

SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon detail or density as a journal article or research handbook chapter 100 entries or mini chapters highlight the most important topics issues questions and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century Curricular driven chapters provide students with initial footholds on topics of interest in researching term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Comprehensive in coverage major sections include The Discipline of Criminology Correlates of Crime Theories of Crime Justice Measurement Research Types of Crime and Crime the Justice System The contributor group is comprised of well known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers students and general readers alike with fundamental and detailed information for each topic Uniform chapter structure makes it easy for students to locate key information with most chapters following a format of Introduction Theory Methods Applications Comparison Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access wherever they may be
