

## Criminological Theory Summaries

Theory	Main Points	Theorists/Researchers
Classical	Crime occurs when the benefits outweigh the costs—when people pursue self-interest in the absence of effective punishments. Crime is a free-willed choice. See also deterrence, rational choice.	Beccaria
Positivist	Crime is caused or determined. Lombroso placed more emphasis on biological deficiencies, whereas later scholars would emphasize psychological and sociological factors. Use science to determine the factors associated with crime.	Lombroso Guerry Quetelet
Individual Trait	Criminals differ from noncriminals on a number of biological and psychological traits. These traits cause crime in interaction with the social environment.	Glueck & Glueck Mednick Caspi Moffitt
Social Disorganization	Disorganized communities cause crime because informal social controls break down and criminal cultures emerge. They lack collective efficacy to fight crime and disorder.	Shaw & McKay Sampson Bursik & Grasmick
Differential Association Social Learning Subcultural	Crime is learned through associations with criminal definitions. These definitions might be generally approving of criminal conduct or be neutralizations that justify crime only under certain circumstances. Interacting with antisocial peers is a major cause of crime. Criminal behavior will be repeated and become chronic if reinforced. When criminal subcultures exist, then many individuals can learn to commit crime in one location and crime rates—including violence—may become very high.	Sutherland & Cressey Sykes & Matza Akers Wolfgang & Ferracuti Anderson
Anomic Institutional-Anomic	The gap between the American Dream's goal of economic success and the opportunity to obtain this goal creates structural strain. Norms weaken and 'anomic' ensues, thus creating high crime rates. When other social institutions (such as the family) are weak to begin with or also weakened by the American Dream, the economic institution is dominant. When such an institutional imbalance exists—as in the United States—then crime rates are very high.	Merton Messner & Rosenfeld

**An Introduction to Crime and Crime Causation** Robert C. Winters, Julie L. Globokar, Cliff Roberson, 2014-06-26 An Introduction to Crime and Crime Causation is a student friendly textbook that defines and explains the concepts of crime criminal law and criminology Ideal for a one semester course the book compares and contrasts early criminal behavior and today s modern forms of crime It also explores society s responses to criminal behavior in the past and in the present day It covers both major and lesser known crime causation theories and their impact on society Topics covered include The importance of understanding crime data The goals of punishment The history of criminology including the influence of social Darwinism on early trait theorists Crime causation theories including a comparison of mainstream and critical theories The relationship between crime and biology including the influence of genetics substance use and mental illness The social structural approach to crime including a consideration of the changing contexts of urban criminality The nature and function of the justice system at the local state and federal levels and basic categories of crimes Drug trafficking crimes drug court efforts and perceived weaknesses in current antidrug efforts Each chapter begins with a set of objectives and concludes with a summary Interactive questions promote classroom discussion and practicum sections facilitate contextual learning Drawn from different and distinct backgrounds the authors each have unique perspectives on crime making for a particularly well rounded text that explores crime from several angles The book attempts to educate readers in the development of new insights on crime and crime causation and provides a greater understanding of the steps that need to be taken before a significant reduction in crime can occur

**An Economic Analysis of Public Good Provision in Rural Russia** Daniela Lohlein, 2003 Adequate access to public goods plays an important role in the economic and rural development of any country For the transition countries however providing public goods is particularly problematic owing to several factors associated with the transition process itself e g economic recession and a change in ownership of local public goods Taking Russia as an example this study examines the effect of the transition process on rural household s access to public goods With reference to education and health care household access to public goods is addressed in terms of community availability and economic access The analysis is taken a step further through an examination of the role of informal institutions in public good provision Multiple regression analysis was used to test for the significance of income as a determinant of private expenditures on public goods The results indicate that contrary to expectations neither income nor informal payments are important determinants of access to public goods Informal institutions continue to exert a strong influence on the provision of public goods

**The Oxford Handbook of Criminological Theory** Francis T. Cullen, Pamela Wilcox, 2013-02-01 Criminological theory texts typically follow a conventional format Diverse writings are neatly packaged into schools of thought which are given clear labels and conveyed a chapter at a time with topics like control theory in one chapter and strain theory in another The Oxford Handbook of Criminological Theory takes a different approach across the criminological

landscape The volume is organized not around schools of thought but around themes that shape much thinking about and research on crime This more unconventional approach seeks to show that criminological theory is not static but dynamic In fact most prominent scholars do not spend their time commenting upon and retesting theoretical propositions that have existed for many years Rather they move into more novel areas areas often located in the interstitial junctures between more traditional theories This Oxford Handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed As a result the volume is replete with new ideas discussions of substantive topics with salient theoretical implications and reviews and interpretations of literatures that illuminate promising avenues along which theory and research should evolve Special attention is paid to how criminal participation is shaped intimately by individual traits diverse social contexts the situations in which the choice of crime is made and exposure to coercive experiences Each chapter can be read on its own as furnishing an important analysis of a given theoretical issue yet read as a whole The Oxford Handbook of Criminological Theory offers a unique and deep understanding of criminology at its cutting edge

**Advances in Criminological Theory, Volume 2** William S. Laufer, Freda Adler, Criminology has developed strong methodological tools over the past decades establishing itself as a competitive and sophisticated social science Despite and perhaps because of its emphasis on research design methodology and quantitative analysis criminology has had few significant advances in theory This is the first publication exclusively dedicated to the dissemination of original work on criminological theory It encourages theory construction and validation in existing criminological publications as well as furthering the free exchange of ideas propositions and postulates This volume is dedicated to a pioneer in criminology Donald Cressey and is especially noteworthy for its comparative and international dimension Contents G O W Mueller Whose Prophet Is Cesare Beccaria An Essay on the Origins of Criminological Theory John Braithwaite and Brent Fisse On the Plausibility of Corporate Crime Theory Raymond Paternoster and Charles R Tittle Parental Work Control and Delinquency A Theoretical and Empirical Critique J O Finckenauer Legal Socialization Theory A Precursor to Comparative Research in the Soviet Union Jeanette Covington Theoretical Explanations of Race Differences in Heroin Use Hans Joachim Schneider The Media World of Crime A Study of Social Learning Theory and Symbolic Interaction Alexander Yakovlov Epistemological Problems of Criminology John Braithwaite and Joan McCord The State of Criminology Theoretical Decay or Renaissance Joan McCord One Perspective on the State of Criminology *The Routledge Companion to Criminological Theory and Concepts* Avi Brisman, Eamonn Carrabine, Nigel South, 2018-07-03 A comprehensive one stop reference text The Routledge Companion to Criminological Theory and Concepts the Companion will find a place on every bookshelf whether it be that of a budding scholar or a seasoned academic Comprising over a hundred concise and authoritative essays written by leading scholars in the field this volume explains in a clear and inviting way the emergence context evolution and current status of key criminological theories and conceptual themes The Companion is divided into six historical and thematic parts each

introduced by the editors and containing a selection of accessible and engaging short essays written specifically for this text Foundations of criminological thought and contemporary revitalizations The emergence and growth of American criminology From appreciation to critique Late critical criminologies and new directions Punishment and security Geographies of crime Comprehensive cross referencing between entries will provide the reader with signposts to later developments to critiques and to associated theoretical developments explored within the book and lists of further reading in every entry will encourage independent thinking and study This book is an essential reference work for criminology students at all levels and is the perfect companion for courses on criminological theory
