Encyclopedia of Criminological Theory Francis T. Cullen,Pamela Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume *Encyclopedia of Criminological Theory* available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime

policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory Assessing the Use of Agent-Based Models for Tobacco Regulation Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Assessment of Agent-Based Models to Inform Tobacco Product Regulation, 2015-07-17 Tobacco consumption continues to be the leading cause of preventable disease and death in the United States The Food and Drug Administration FDA regulates the manufacture distribution and marketing of tobacco products specifically cigarettes cigarette tobacco roll your own tobacco and smokeless tobacco to protect public health and reduce tobacco use in the United States Given the strong social component inherent to tobacco use onset cessation and relapse and given the heterogeneity of those social interactions agent based models have the potential to be an essential tool in assessing the effects of policies to control tobacco Assessing the Use of Agent Based Models for Tobacco Regulation describes the complex tobacco environment discusses the usefulness of agent based models to inform tobacco policy and regulation presents an evaluation framework for policy relevant agent based models examines the role and type of data needed to develop agent based models for tobacco regulation provides an assessment of the agent based model developed for FDA and offers strategies for using agent based models to inform decision making in the future
