## **Crisis In North Korea The Failure Of De Stalinization 1956 Hawaii Studies On Korea:**

**Crisis in North Korea** Andrei Lankov, 2005-01-01 Through his access to Soviet archival material made available only a decade ago contemporary North Korean press accounts and personal interviews Andrei Lankov presents for the first time a detailed look at one of the turning points in North Korean history the country's unsuccessful attempts to de Stalinize in the mid 1950s

**Crisis in North Korea** Andrei Lankov, 2007-05-31 North Korea remains the most mysterious of all Communist countries The acute shortage of available sources has made it a difficult subject of scholarship Through his access to Soviet archival material made available only a decade ago contemporary North Korean press accounts and personal interviews Andrei Lankov presents for the first time a detailed look at one of the turning points in North Korean history the country's unsuccessful attempts to de Stalinize in the mid 1950s He demonstrates that contrary to common perception North Korea was not a realm of undisturbed Stalinism Kim Il Sung had to deal with a reformist opposition that was weak but present nevertheless Lankov traces the impact of Soviet reforms on North Korea placing them in the context of contemporaneous political crises in Poland and Hungary He documents the dissent among various social groups intellectuals students party cadres and their attempts to oust Kim in the unsuccessful August plot of 1956 His reconstruction of the Peng Mikoyan visit of that year the most dramatic Sino Soviet intervention into Pyongyang politics shows how it helped bring an end to purges of the opposition The purges however resumed in less than a year as Kim skillfully began to distance himself from both Moscow and Beijing The final chapters of this fascinating and revealing study deal with events of the late 1950s that eventually led to Kim's version of national Stalinism Lankov unearths data that for the first time allows us to estimate the scale and character of North Korea's Great Purge Meticulously researched and cogently argued *Crisis in North Korea* is a must read for students and scholars of Korea and anyone interested in political leadership and personality cults regime transition and communist politics

**Non-Traditional Security Issues in North Korea** Kyung-Ae Park, 2013-07-31 The concept of security has undergone significant change in the past few decades Traditionally thought of in terms of the state centric militarily focused realist discourse the concept of security has been broadened to include a greater number of potential threats and an increased number of relevant actors Yet despite the great changes in security scholarship the vast majority of studies on North Korea continue to focus primarily on the country's nuclear weapons program its military and other traditional security issues surrounding Pyongyang While North Korea captures headlines with its aggressive behavior and growing nuclear arsenal the ground level threats to average everyday North Koreans go largely unnoticed This groundbreaking volume seeks to refocus research on North Korean security from the traditional to largely unexplored non traditional security NTS issues In the wake of political succession to Kim Jong Un the issue of non traditional security is increasingly important From the lasting effects of the famine of the 1990s to continued food shortages and the growing marketization of North Korean society the Pyongyang regime is facing diverse and unprecedented challenges This book offers cutting edge analyses of emerging

North Korean NTS issues by the world's leading specialists in the field. It looks at these issues and their effects at the local, regional and international level as well as examining the international community's efforts to promote an NTS approach to North Korea. More specifically, the volume addresses the traditional and non-traditional security paradigms, energy security, gender security, transnational organized crime, the internal and external dimensions of North Korea's food security, the Responsibility to Protect, refugee issues and international law, and the role of NGOs in promoting NTS in North Korea. As the global community begins to move toward a more people-centered approach to security and foreign policy work such as that presented in this thought-provoking volume, it will be increasingly vital to scholars, policymakers and interested citizens.

North Korea's New Diplomacy, Virginie Grzelczyk, 2024-07-19. In this second edition of *North Korea's New Diplomacy*, author Virginie Grzelczyk shows how North Korea has managed to weather an uncertain political future and catastrophic economic system since the end of the Cold War. Emerging as a state that has successfully developed and tested missiles and nuclear weapons, North Korea has consolidated the Kim family dynasty through the appointment of Kim Jong Un as Pyongyang's latest strongman. The author provides an up-to-date empirically rich account of new diplomatic recognitions, military partnerships, knowledge trade, coping mechanisms to offset international sanctions, import and export partners, foreign investment practices and engagement within the Global South. With new and updated text throughout, the book gives a detailed picture of a state that constantly becomes a more complex and relevant actor in the 21st-century diplomatic world. *The North Korean Army*, Fyodor Tertitskiy, 2022-09-27. This book focuses on the

Korean People's Army (KPA), the armed forces of North Korea, covering its history, structural organisation and lives of the soldiers and officers within its ranks. Utilising extensive Korean, English, Russian and Chinese language sources as well as multiple interviews with people who have served in the KPA, this book provides an illuminating insight into the experience of KPA personnel. It presents fascinating and detailed examples of everyday life in the KPA, such as the systems of discipline and reprimands, the experience of women in the army, typical salaries and daily food allowances. The book also succinctly traces the history of the KPA from its foundation under the guidance of the Soviet Union and the experiences of the Korean War through to the current iteration under Kim Jong Un. This pioneering work will be of huge interest to students and scholars of North Korea, the Cold War, Military Studies and Communism. **North Korea under Kim Chong-il**, Ken E.

Gause, 2011-08-17. This much-needed study draws on fresh material and firsthand observation to provide an understanding of North Korea as it exists today. *North Korea under Kim Chong-il: Power, Politics and Prospects for Change* delves deeply into what we know and what we think we know about the current North Korean system. This incisive book probes the dynamics that inform the nation's domestic and foreign policies, examining key leadership institutions and personalities as well as prospects for the next regime. In outlining the major events behind Kim Chong-il's assumption of power, Ken E. Gause

illuminates the environment that shaped Chong il s worldview and his concept of the regime and his role in it The book focuses on regime politics since 1994 Among other critical topics the book examines the evolution of North Korean decision making with regard to its internal and external affairs and how both are intermingled The prospects for a third hereditary succession and the prospective stability of the next regime are also considered **The Koreas** Charles K.

Armstrong,2013-08-22 Presenting a succinct historically informed introduction to North and South Korea the second edition of **The Koreas** considers the radically different ways these countries have dealt with the growing challenges of globalization Since the first edition s publication the economic political and social differences have only intensified making evident the relevancy and importance of Armstrong s work in understanding the Koreas now and in the future Ultimately **The Koreas** is a crisp engaging primer of Korea and the Korean people in the contemporary world This book is ideal for many courses in a variety of disciplines including politics history international business and Asian studies **1956** Carole Fink, Frank

Hadler, Tomasz Schramm, 2006 **Talking to North Korea** James Glyn Ford, 2018-09-20 Despite recent attempts at negotiation the attitudes of both Kim Jong un s regime and the West seem unchanged North Korea is still shrouded in mystery and there are no clear plans for the future Can we trust either side to bring about peace And if so how This provocative insider s account blasts apart the myths which paint North Korea as a rogue state run by a mad leader Informed by extraordinary access to the country s leadership Glyn Ford investigates the regime from the inside providing game changing insights which Trump and his administration have failed to do Acknowledging that North Korea is a deeply flawed and repressive state he nonetheless shows that sections of the leadership are desperate to modernise and end their isolation With chapters on recent developments including the Trump Kim summit Ford supports a dialogue between East and West whilst also criticising Trump s facile attempts **Talking to North Korea** provides a road map for averting a war in North East Asia that would threaten the lives of millions *The Oxford Handbook of the History of Communism* S. A. Smith, 2014-01-09

The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union **The Oxford Handbook of the History of Communism** is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture

their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding **Death, Mourning, and the Afterlife in Korea** Charlotte Horlyck, Michael J.

Pettid, 2018-02-28 Death and the activities and beliefs surrounding it can teach us much about the ideals and cultures of the living While biologically death is an end to physical life this break is not quite so apparent in its mental and spiritual aspects Indeed the influence of the dead over the living is sometimes much greater than before death This volume takes a multidisciplinary approach in an effort to provide a fuller understanding of both historic and contemporary practices linked with death in Korea Contributors from Korea and the West incorporate the approaches of archaeology history literature religion and anthropology in addressing a number of topics organized around issues of the body disposal of remains ancestor worship and rites and the afterlife The first two chapters explore the ways in which bodies of the dying and the dead were dealt with from the Greater Silla Kingdom 668 935 to the mid twentieth century Grave construction and goods cemeteries and memorial monuments in the Kory 918 1392 and the twentieth century are then discussed followed by a consideration of ancestral rites and worship which have formed an inseparable part of Korean mortuary customs since premodern times Chapters address the need to appease the dead both in shamanic and Confucian contexts The final section of the book examines the treatment of the dead and how the state of death has been perceived Ghost stories provide important insight into how death was interpreted by common people in the Kory and Chos n 1392 1910 while nonconformist narratives of death such as the seventeenth century romantic novel Kuunmong point to a clear conflict between Buddhist thought and practice and official Neo Confucian doctrine Keeping with unendorsed views on death the final chapter explores how death and the afterlife were understood by early Korean Catholics of the eighteenth and nineteenth centuries Death Mourning and the Afterlife in Korea fills a significant gap in studies on Korean society and culture as well as on East Asian mortuary practices By approaching its topic from a variety of disciplines and extending its historical reach to cover both premodern and modern Korea it is an important resource for scholars and students in a variety of fields Moral Authoritarianism

Shinyoung Kwon, 2023-11-30 Moral Authoritarianism offers a new perspective on the three modern Korean states the Japanese colonial state South Korea and North Korea by studying neighborhood associations during the four war decades 1930s 1960s The existing historiography perceives the three states in relation to imperialism and to the Cold War thus emphasizing their differences by political changes By shifting the focus from national policy to local society this book instead reveals their deep similarities Neighborhood associations dated back to the premodern Chos n period 1392 1910 when they were used to assist local governance They faded in significance until the colonial government established patriotic neighborhood associations in 1938 for its war against China Through analysis of government documents from the three

Koreas and additional sources that include diaries leaflets newspapers and even fiction Moral Authoritarianism explores neighborhood associations as a site of negotiation between families local society and the central government exposing the moral authoritarian structure present in all three Koreas Colonial neighborhood associations tasked with the national mobilization of local Koreans advanced programs of mass enlightenment that privileged state interests over individual rights in the process blurring the line between morality and state authority and superimposing patriarchal familial dynamics on societal relations Despite their different ideological orientations the neighborhood associations of two postliberation Koreas shared the same enlightenment mission with their earlier forms and this commonality is critical to understanding the authoritarian direction taken by South and North Korea The neighborhood association entrusted each state with promoting community based morality and spirit of voluntarism as an alternative to amoral laissez faire capitalism and the individual right based West Consequently the state retained its supremacy over the populace at the most basic level of community organization and Koreans were encouraged to respond to state calls culminating into two authoritarianisms of the 1970s Korean style democracy and our own style socialism Times of Security Martin Holbraad,Morten Axel

Pedersen,2013-06-07 In the current world disorder security is on everyone's lips But what is security from a cross cultural perspective How is it imagined and experienced by people on the ground Crucially what visions of the future are at stake in people's potentially divergent concerns with security what and when is the time of security Exploring diverse notions and experiences of time involved in security practices across the globe this volume brings together a selection of international scholars who conduct ethnographic research in a broad ambit of securitized contexts from the experience of Palestinian detainees in Israel or forms of popular violence in Bolivia to efforts to normalize social relations in post conflict Yugoslavia and ways of imagining threat in left radical protest movements in Northern Europe Interrogating recent debates about the role of securitization in contemporary politics the book paves the way for novel forms of security analysis at the crossroads between anthropology and political science focusing on the comparative study of the temporalities of securitization in a multi polar world Offering a pioneering synthesis the book will be of interest not only to anthropologists but also to students and scholars in political science and the growing field of Security Studies in International Relations *North Korea: The Politics of Regime Survival* Young Whan Kihl,Hong Nack Kim,2014-12-18 Featuring contributions by some of the leading experts in Korean studies this book examines the political content of Kim Jong Il's regime maintenance including both the domestic strategy for regime survival and North Korea's foreign relations with South Korea Russia China Japan and the United States It considers how and why the Democratic People's Republic of Korea DPRK became a hermit kingdom in the name of Juche self reliance ideology and the potential for the barriers of isolationism to endure This up to date analysis of the DPRK's domestic and external policy linkages also includes a discussion of the ongoing North Korean nuclear standoff in the region

**East Asia's Other Miracle** Alex J. Bellamy,2017-10-06 East Asia until recently the scene of widespread blood letting has

achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world s mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia s other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass atrocities in East Asia is likely to be sustained into the foreseeable future

Origins of the North Korean Garrison State Youngjun Kim, 2017-08-09 This book investigates the origins of the North Korean garrison state by examining the development of the Korean People s Army and the legacies of the Korean War Despite its significance there are very few books on the Korean People s Army with North Korean primary sources being difficult to access This book however draws on North Korean documents and North Korean veterans testimonies and demonstrates how the Korean People s Army and the Korean War shaped North Korea into a closed militarized and xenophobic garrison state and made North Korea seek Juche Self Reliance ideology and weapons of mass destruction This book maintains that the youth and lower classes in North Korea considered the Korean People s Army as a positive opportunity for upward social mobility As a result the North Korean regime secured its legitimacy by establishing a new class of social elites wherein they offered career advancements for persons who had little standing and few opportunities under the preceding Japanese dominated regime These new elites from poor working and peasant families became the core supporters of the North Korean regime today In addition this book argues that in the aftermath of the Korean War a culture of victimization was established among North Koreans which allowed Kim Il Sung to use this culture of fear to build and maintain the garrison state Thus this work illustrates how the North Korean regime has garnered popular support for the continuation of a militarized state despite the great hardships the people are suffering This book will be of much interest to students of North Korea the Korean War Asian politics Cold War Studies military and strategic studies and international history

**Kim Jong-il's Leadership of North Korea** Jae-Cheon Lim, 2008-11-24 Kim Jong Il came to power after the death of his father Kim Il Sung in 1994 Contrary to expectations he has succeeded in maintaining enough political stability to remain in power Kim Jong Il s Leadership of North Korea is an examination of how political power has been developed transmitted from father to son and now operates in North Korea Using a variety of original North Korean sources as well as South Korean materials Jae Cheon Lim pieces together the ostensibly contradictory and inconsistent facts into a conceptual coherent framework This book considers Kim and his

leadership through an analytical framework composed of four main elements i Kim as a leader of a totalitarian society ii as a politician iii as a Korean and iv as an individual person This illuminating account of what constitutes power and how it is used makes an important contribution to the understanding of an opaque and difficult regime It will be of interest for upper level undergraduate postgraduates and academics interested in North Korean politics and also those in Political theory      **North Korea in Quotation** ,2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world s diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea s government or its intentions leaving us to examine the words of the country s leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the breadth of issues facing the Northeast Asian country For each quote the speaker and his or her title are identified along with the original source of the quotation and its context Indexed by speaker subject and keywords      Bulletin ,2007      *Bulletin: Inside China's Cold War* ,
