Crisis In De Wereld Van Islam:

Religious Ideas in Liberal Democratic States Russell Blackford, 2021-07-29 This edited volume is focused on the issue of freedom of religion from various perspectives inquiring whether freedom of religion may be realized non neutrally and whether a secular state in particular may accomplish this goal

Defaming the Freedom of Religion or Belief BM van Schaik, 2025-05-29 This book explores the intricate terrain of international religious freedom discourse It examines the evolution and controversies surrounding the formulation and interpretation of the freedom of religion or belief as a universal right within the United Nations From legal and philosophical standpoints to the political dimensions of the subject the book navigates through the complex terrain shedding light on challenges to the universality and non discriminatory implementation of this fundamental freedom Beyond theoretical and legal debates the study reveals how actors within the United Nations have defamed the freedom of religion or belief reshaping its interpretation away from its original 1948 objectives The book explores the dynamic interplay of postmodern views legal intricacies and political perspectives contributing to a potential diminishment of the normative force of related legal provisions It addresses critical topics including religious tolerance blasphemy defamation of religion and apostasy offering a comprehensive understanding of the evolving landscape of international human rights discourse This is an indispensable resource for scholars policymakers and anyone seeking a profound insight into the challenges and transformations shaping the global pursuit of religious freedom

Freedom of the Border Paul Scheffer, 2021-01-14 There are few issues more contentious today than the nature and purpose of borders Migration flows and the refugee crisis have propelled the issue of borders into the centre of political debate and revealed our moral unease more clearly than ever Who are we to deny others access to our territory Is not freedom of movement a basic human right one that should be defended above all others In this book Paul Scheffer takes a different view Rather than thinking of borders as obstacles to freedom he argues that borders make freedom possible Democracy and redistributive justice are only possible with the regulation of access to territories and rights When liberals ignore an open society s need for borders people with authoritarian inclinations will begin to erect them In the context of Europe the project of removing internal borders can therefore only be successful if Europe accepts responsibility for its external border This timely and important book challenges conventional ways of thinking and will be of interest to everyone concerned with the great social and political issues of our time

Human Dignity, Religion and the Law Mark Hill KC, María-José Valero-Estarellas, 2024-09-09 The concept of human dignity is already embedded in the constitutional architecture of the European Union and throughout the world but it remains a slippery and elusive concept In this volume leading commentators from across the globe address the shift from the monolithic influence of major world religions in the past towards religious pluralism coupled with the increased secularism of civil society The contributors drawn from different backgrounds and traditions explore how the deployment of a nuanced

understanding of human dignity can provide a way to maximise religious liberty for all within liberal democracies Specific consideration is given to the reasonable accommodation of religious practices through exemptions to generally applicable laws conscientious objection on the grounds of religious beliefs the interplay between religious pluralism and legal pluralism balancing religious sensibilities with same sex marriage exercising the right to change one's religion both generally and with a particular focus on data protection protecting the right to asylum in the light of recent changes in migratory flows and exploring its impact on those enjoying non theistic beliefs as well as the complex relationship between the Ukrainian and Russian Orthodox Churches in these febrile times Through the prism of informed investigation of these matters of specificity the volume offers readers fresh insights and analysis which collectively contribute to an overall picture of governments in liberal democracies being encouraged and enabled to foster laws and practices whereby pluralism can be encouraged and human dignity can flourish The book will be of interest to academics researchers and policy makers working in the areas of Law and Religion Human Rights Law Constitutional Law and International Relations

Cultuur & Lichaam Paul Voestermans, Theo Verheggen, 2007-05-21 I was deeply impressed by this book It is a fresh and original analysis of cultural psychology there is nothing like this on the market the argument is so clear and the material so well constructed that one can't help but argue with the authors at the same time as one is urging them on In one fell swoop they take on the trend to evolutionary psychology the worst of social psychology integrate little known facts with the better known make a plea for the centrality of the body and a practice orientation to psychology explain religious tolerance and intolerance add aging to the mix and come out with a coherent picture of the relation between culture and psychology Brilliant really Professor Henderikus Stam University of Calgary The book is in one word a gem Compared to the many books in the cultural studies field this book reaches far deeper and higher Tom ter Bogt professor Music and Youth Culture Utrecht University The book is written in a lively stimulating provocative style It draws on a wide variety of disciplines apart from psychology sociology anthropology history religious studies philosophy etc as indeed any good book about culture should Indeed this multidisciplinary perspective is perhaps the book's main strength David Ingleby Professor of Intercultural Psychology Utrecht University This book presents both an innovative theoretical account of the persistence of behavioural patterns and an intriguing and detailed analysis of five central areas of cultural problem solving Both theory and empirical analysis are coherent and consistent and complicated issues usually are clarified by many well chosen examples that can easily be related to current cultural themes and debates Moreover the book is written in a fluent style Ruud Abma Professor of Social Science Utrecht University

Islam in Education in European Countries. Pedagogical Concepts and Empirical Findings Aurora Alvarez

Veinguier, Gunther Dietz, Dan-Paul Jozsa, Thorsten Knauth, 2009 Relations between Muslims and the public education systems of Europe are often characterised by tensions There is often still a perceived incompatibility between the claims of individual Muslims or Muslim communities on the one hand and the aims of public education in Europe on the other The relatively recent presence of Islam in much of Europe the internal diversity of Muslim communities the lack of a centralized hierarchical church like structure different arguments are used to justify such a discriminatory treatment of one of the largest faith communities in Europe Nevertheless as this book aims to illustrate there are already rich and diverse experiences throughout Europe of how to integrate Islam into the national and regional school systems particularly in primary but also in secondary education Accordingly this book provides some analyses of the ways in which Islam is integrated in education in certain regions of Spain the Netherlands France and England These analyses are paralleled by empirical findings concerning the role of religion in the life of young Muslims their views concerning religion in school and the impact of religion in education and society in Spain the Netherlands Norway Germany France and England De wereld na de pandemie Fareed Zakaria, 2021-03-03 Hoe is onze wereld veranderd door de pandemie Van thuiswerken tot de relatie tussen China en Amerika in dit boek analyseert Zakaria de staat van de economie en de politiek in 2021 De wereld na de pandemie is Fareed Zakaria's nieuwste boek Lenin zei ooit Er zijn decennia waarin er niets gebeurt en weken waarin zich decennia lijken te voltrekken We beleven nu zo'n versnelling Zowel de positie van de VS als een fenomeen als thuiswerken is op slag veranderd Zakaria helpt lezers de aard van een postpandemische wereld te begrijpen met name de politieke sociale en technologische gevolgen die zich in de komende jaren gaan voordoen In tien hoofdstukken over mondiale thema's variërend van biologische risico's tot de definitieve doorbraak van digitaal leven tot een opkomende bipolaire wereldorde helpt Zakaria lezers na te denken over de mondiale effecten van de coronacrisis De wereld na de pandemie is een urgent en actueel werk en nodigt uit tot reflecties op het leven in de eenentwintigste eeuw **Canonical Texts: Bearers of Absolute**

Authority - Bible, Koran, Veda, Tipiaka Rein Fernhout, 2023-12-28 This book introduces a new approach to the comparative study of sacred texts here the Christian Bible the Islamic Koran the Hindu Veda and the Buddhist Tipiaka The

author demonstrates that in spite of their great differences these works show a fundamental analogy. Considered as canonical within their own religious context, each text possesses absolute authority in comparison with other authoritative texts from their respective religious traditions. This fundamental analogy allows one to describe the growth and history of these canons step by step as a process that takes place in analogous phases that are clearly distinguishable. The author follows a strictly phenomenological method; he tries to understand the development of these canons in terms of a potential that lies within the phenomena themselves, i.e. the texts, while refraining in any way from assessing their claim to absolute authority. In part I the author describes the development from the revelation of the texts to a climax with respect to reflection on the canons. This climax has been reached in all four cases. Part II investigates the crisis that these canons are currently undergoing as a consequence of the modern intellectual climate. Can we expect that this crisis will be overcome by the canons? And if so, will they be in a position of mutual exclusion or will they form a sort of unity such as for example the Old and New Testament in the Christian Bible? Finally, the author traces what the religions themselves have postulated about the future of their respective canons. The result is surprising: the current crisis is only a faint reflection of what, according to age-old predictions, awaits the canons in the future.

Hegels godsdienstfilosofie en de monotheïstische religies Bart Labuschagne, Timo Slootweg, Rico Sneller, 2014-07-14. Dit boek biedt een kritische inleiding in de godsdienstfilosofie aan de hand van een confrontatie tussen enerzijds G.W.F. Hegels filosofie van de monotheïstische religies en anderzijds godsdienstwetenschappelijke inzichten in en vanuit de godsdiensten zelf. Het doel is te komen tot een wijsgerige verheldering van wat deze religies kenmerkt. Wat kan een filosofische benadering van de verschillende godsdiensten zoals die van Hegel bijdragen aan een beter begrip ervan? Hoe zou de godsdienstfilosofie een rol kunnen spelen in het actuele debat over religie en de verhouding daarvan tot de grondslagen van recht en politiek? De manier waarop we over God denken en dus hoe we geloven beïnvloedt onze moraal en ons recht de wetten die we maken en de wijze waarop we die toepassen. Hegel had veel op met het christendom. In zijn ogen vormde het christelijk geloof ten opzichte van andere eerdere godsdiensten een vervolmaking en een voltooiing van de religie. Filosofisch gezien is het christendom de religie van vrijheid en van verzoening van God en de mens met elkaar. Alle godsdiensten die voorafgingen aan het christendom beschouwt hij als beperkter en eenzijdiger; de ware geest is daarin nog onvoldoende ontwikkeld. Deze hoogst controversiële claim wordt in dit boek aan een nader kritisch onderzoek onderworpen.
