**Chicago's New Negroes** Davarian L. Baldwin, 2009-11-30 As early twentieth century Chicago swelled with an influx of at least 250 000 new black urban migrants the city became a center of consumer capitalism flourishing with professional sports beauty shops film production companies recording studios and other black cultural and communal institutions Davarian Baldwin argues that this mass consumer marketplace generated a vibrant intellectual life and planted seeds of political dissent against the dehumanizing effects of white capitalism Pushing the traditional boundaries of the Harlem Renaissance to new frontiers Baldwin identifies a fresh model of urban culture rich with politics ingenuity and entrepreneurship Baldwin explores an abundant archive of cultural formations where an array of white observers black cultural producers critics activists reformers and black migrant consumers converged in what he terms a marketplace intellectual life Here the thoughts and lives of Madam C J Walker Oscar Micheaux Andrew Rube Foster Elder Lucy Smith Jack Johnson and Thomas Dorsey emerge as individual expressions of a much wider spectrum of black political and intellectual possibilities By placing consumer based amusements alongside the more formal arenas of church and academe Baldwin suggests important new directions for both the historical study and the constructive future of ideas and politics in American life **The Great Black**

Lansbury, 2014-04-01 When high jumper Alice Coachman won the high jump title at the 1941 national championships with a spectacular leap African American women had been participating in competitive sport for close to twenty five years Yet it would be another twenty years before they would experience something akin to the national fame and recognition that African American men had known since the 1930s the days of Joe Louis and Jesse Owens From the 1920s when black women athletes were confined to competing within the black community through the heady days of the late twentieth century when they ruled the world of women s track and field African American women found sport opened the door to a better life

However they also discovered that success meant challenging perceptions that many Americans both black and white held of them Through the stories of six athletes Coachman Ora Washington Althea Gibson Wilma Rudolph Wyomia Tyus and Jackie Joyner Kersee Jennifer H Lansbury deftly follows the emergence of black women athletes from the African American community their confrontations with contemporary attitudes of race class and gender and their encounters with the civil rights movement Uncovering the various strategies the athletes use to beat back stereotypes Lansbury explores the fullness of African American women s relationship with sport in the twentieth century Chicago on the Make Andrew J. Diamond,2020-04-07 Effectively details the long history of racial conflict and abuse that has led to Chicago becoming one of America s most segregated cities A wealth of material New York Times Winner of the 2017 Jon Gjerde Prize Midwestern History Association Winner of the 2017 Award of Superior Achievement Illinois State Historical Society Heralded as America s quintessentially modern city Chicago has attracted the gaze of journalists novelists essayists and scholars as much as any city in the nation And yet few historians have attempted big picture narratives of the city s transformation over the twentieth century Chicago on the Make traces the evolution of the city s politics culture and economy as it grew from an unruly tangle of rail yards slaughterhouses factories tenement houses and fiercely defended ethnic neighborhoods into a truly global urban center Reinterpreting the familiar narrative that Chicago s autocratic machine politics shaped its institutions and public life Andrew J Diamond demonstrates how the grassroots politics of race crippled progressive forces and enabled an alliance of downtown business interests to promote a neoliberal agenda that created stark inequalities Chicago on the Make takes the story into the twenty first century chronicling Chicago s deeply entrenched social and urban problems as the city ascended to the national stage during the Obama years City of Lake and Prairie Kathleen A. **Fashion Before Plus-Size** Lauren Downing Peters, 2023-06-15 Shortlisted for the Association of Dress Historians Book of the Year Award 2024 In 2022 it was reported that plus sizes accounted for nearly twenty percent of all women's apparel sales in the United States and was one of the industry's few growth sectors For many this news seemed to herald a remarkably inclusive turn for an industry that long bartered in exclusivity Yet the recent success of plus size fashion obscures a rather complicated history one that can be traced back over a century and which illuminates the fraught relationship between fashion fat and weight bias in American culture Although many regard fat as a malady of the present in the early twentieth century it was estimated that more than one third of American women classified as overweight While modern weight bias had yet to fully cement itself in the American imaginary the limitations of mass garment manufacturing coupled with the ascendent slender beauty ideal had already relegated larger women to fashion's peripheries By 1915 however fashion forecasters predicted that so called stoutwear was well positioned to become one of the most lucrative subsectors of the burgeoning ready to wear trade In the years that followed stoutwear manufacturers set out to create more space for the fat woman in fashion but in doing so revealed an ancillary motivation that of how to design fat out of existence altogether Fashion Before Plus Size considers what came before plus size fashion while also shedding new light on the ways that the fashion industry not only perpetuates but produces weight bias By situating stoutwear at the confluence of mass manufacturing beauty ideals standardized sizing health discourse and consumer culture this book exposes the flawed foundations upon which the contemporary plus size fashion industry has been built

**Preaching on Wax** Lerone A Martin, 2014-11-14 The overlooked African American religious history of the phonograph industry Winner of the 2015 Frank S and Elizabeth D Brewer Prize for outstanding scholarship in church history by a first time author presented by the American Society of Church History Certificate of Merit 2015 Award for Excellence in Historical Recorded Sound Research presented by the Association for Recorded Sound Collections From 1925 to 1941 approximately one hundred African American clergymen teamed up with leading record labels such as Columbia Paramount Victor RCA to record and sell their sermons on wax While white clerics of the era such as Aimee Semple McPherson and Charles Fuller became religious entrepreneurs and celebrities through their pioneering use of radio black clergy were largely marginalized from radio Instead they relied on other means to get their message out teaming up with corporate titans of the phonograph industry to package and distribute their old time gospel messages across the country Their nationally marketed folk sermons

received an enthusiastic welcome by consumers at times even outselling top billing jazz and blues artists such as Bessie Smith and Ma Rainey These phonograph preachers significantly shaped the development of black religion during the interwar period playing a crucial role in establishing the contemporary religious practices of commodification broadcasting and celebrity Yet the fame and reach of these nationwide media ministries came at a price as phonograph preachers became subject to the principles of corporate America In *Preaching on Wax* Lerone A Martin offers the first full length account of the oft overlooked religious history of the phonograph industry He explains why a critical mass of African American ministers teamed up with the major phonograph labels of the day how and why black consumers eagerly purchased their religious records and how this phonograph religion significantly contributed to the shaping of modern African American Christianity

Instructor's Guide      *Occupied Territory* Simon Balto, 2019-03-05 In July 1919 an explosive race riot forever changed Chicago For years black southerners had been leaving the South as part of the Great Migration Their arrival in Chicago drew the ire and scorn of many local whites including members of the city's political leadership and police department who generally sympathized with white Chicagoans and viewed black migrants as a problem population During Chicago's Red Summer riot patterns of extraordinary brutality negligence and discriminatory policing emerged to shocking effect Those patterns shifted in subsequent decades but the overall realities of a racially discriminatory police system persisted In this history of Chicago from 1919 to the rise and fall of Black Power in the 1960s and 1970s Simon Balto narrates the evolution of racially repressive policing in black neighborhoods as well as how black citizen activists challenged that repression Balto demonstrates that punitive practices by and inadequate protection from the police were central to black Chicagoans' lives long before the late century wars on crime and drugs By exploring the deeper origins of this toxic system Balto reveals how modern mass incarceration built upon racialized police practices emerged as a fully formed machine of profoundly antiblack subjugation

**Do You Remember House?** Micah Salkind, 2018-12-19 Today no matter where you are in the world you can turn on a radio and hear the echoes and influences of Chicago house music *Do You Remember House* tells a comprehensive story of the emergence and contemporary memorialization of house in Chicago tracing the development of Chicago house music culture from its beginnings in the late 70s to the present Based on expansive research in archives and his extensive conversations with the makers of house in Chicago's parks clubs museums and dance studios author Micah Salkind argues that the remediation and adaptation of house music by crossover communities in its first decade shaped the ways that Chicago producers DJs dancers and promoters today remember and mobilize the genre as an archive of collectivity and congregation The book's engagement with musical kinesthetic and visual aspects of house music culture builds from a tradition of queer of color critique As such *Do You*

Remember House considers house music's liberatory potential in terms of its genre-defiant repertoire in motion. Ultimately, the book argues that even as house music culture has been appropriated and exploited, the music's porosity and flexibility have allowed it to remain what pioneering Chicago DJ Craig Cannon calls a musical Stonewall for queers and people of color in the Windy City and around the world.

**The Black Chicago Renaissance** Darlene Clark Hine, John McCluskey, 2012-06-25

The New Negro consciousness with its roots in the generation born in the last and opening decades of the 19th and 20th centuries replenished and nurtured by migration resulted in the Harlem Renaissance in the 1920s, then reemerged transformed in the 1930s as the Black Chicago Renaissance. The authors in this volume argue that beginning in the 1930s and lasting into the 1950s, Black Chicago experienced a cultural renaissance that rivaled the cultural outpouring in Harlem. The Black Chicago Renaissance, however, has not received its full due. This book addresses that neglect. Like Harlem, Chicago had become a major destination for Black southern migrants. Unlike Harlem, it was also an urban industrial center that gave a unique working-class and internationalist perspective to the cultural work that took place here. The contributors to Black Chicago Renaissance analyze a prolific period of African American creativity in music, performance art, social science, scholarship, and visual and literary artistic expression. Each author discusses forces that distinguished and link the Black Chicago Renaissance to the Harlem Renaissance, as well as placing the development of Black culture in a national and international context by probing the histories of multiple sequential and overlapping Philadelphia, Cleveland, Detroit, Los Angeles, Memphis Black Renaissances. Among the topics discussed in this volume are Chicago writers Gwendolyn Brooks and Richard Wright, the Chicago Defender and Tivoli Theater, African American music and visual arts, as well as the American Negro Exposition of 1940.

An Unseen Light Aram Goudsouzian, Charles W. McKinney, 2018-04-13

Scholars examine the activist efforts of Black Americans in Memphis in a series of essays ranging from the Reconstruction era to the twenty-first century. In An Unseen Light: Black Struggles for Freedom in Memphis, Tennessee, eminent and rising scholars present a multidisciplinary examination of African American activism in Memphis from the dawn of emancipation to the twenty-first century. Together, they investigate episodes such as the 1940 Reign of Terror when Black Memphians experienced a prolonged campaign of harassment, mass arrests, and violence at the hands of police. They also examine topics including the relationship between the labor and civil rights movements, the fight for economic advancement in Black communities, and the impact of music on the city's culture. Covering subjects as diverse as politics, sports, music, activism, and religion, An Unseen Light illuminates Memphis's place in the long history of the struggle for African American freedom and human dignity. Praise for An Unseen Light: From the aftermath of the post-Civil War race massacre to continuous violence, murder, and bitter confrontations into the twenty-first century, contributors illuminate An Unseen Light on those Black Memphians forging lives nonetheless through negotiation, protest, music, accommodation, prayer, faith, and sometimes sheer stubbornness. Scholars intellectually and personally invested in the city as a site of family and community and career bring an unequivocal depth of

understanding and richness about place and belonging that textures the pages with life from the church pews the music studios or the myriad of social or political organizations to the land itself adding more layers to underscore how black lives have mattered in the historical grassroots building of the nation This is thoughtful and beautiful work Fran oise Hamlin author of *Crossroads at Clarksdale The Black Freedom Struggle After World War II* This rich collection covers a broad range of topics pertaining to the African American freedom struggle in Memphis Tennessee One of its greatest strengths is the breadth of the essays which span a long period from the end of the Civil War to the twenty first century *An Unseen Light* is a valuable addition to civil rights scholarship Cynthia Griggs Fleming author of *Yes We Did From King s Dream to Obama s Promise* The collection did an excellent job in explaining the inner workings of Memphis The works highlighted the past actions organizing and insurgency which created the dynamics of racism classism social and political power seen in modern Memphis I recommend this collection to those interested in the shaping of a large southern city I also recommend to new and lifelong Memphians to provide a blueprint of the historical legacy of Memphis and how this legacy continues to impact the lives of African Americans Tennessee Libraries

*The War on Alcohol* Lisa McGirr,2015-11-19 This fine history of Prohibition could have a major impact on how we read American political history James A Morone New York Times Book Review Prohibition has long been portrayed as a noble experiment that failed a newsreel story of glamorous gangsters flappers and speakeasies Now at last Lisa McGirr dismantles this cherished myth to reveal a much more significant history Prohibition was the seedbed for a pivotal expansion of the federal government the genesis of our contemporary penal state Her deeply researched eye opening account uncovers patterns of enforcement still familiar today the war on alcohol was waged disproportionately in African American immigrant and poor white communities Alongside Jim Crow and other discriminatory laws Prohibition brought coercion into everyday life and even into private homes Its targets coalesced into an electoral base of urban working class voters that propelled FDR to the White House This outstanding history also reveals a new genome for the activist American state one that shows the DNA of the right as well as the left It was Herbert Hoover who built the extensive penal apparatus used by the federal government to combat the crime spawned by Prohibition The subsequent federal wars on crime on drugs and on terror all display the inheritances of the war on alcohol McGirr shows the powerful American state to be a bipartisan creation a legacy not only of the New Deal and the Great Society but also of Prohibition and its progeny *The War on Alcohol* is history at its best original authoritative and illuminating of our past and its continuing presence today

[Black Public History in Chicago](#) Ian Rocksborough-Smith,2018-04-11 In civil rights era Chicago a dedicated group of black activists educators and organizations employed black public history as more than cultural activism Their work and vision energized a

movement that promoted political progress in the crucial time between World War II and the onset of the Cold War Ian Rocksborough Smith's meticulous research and adept storytelling provide the first in depth look at how these committed individuals leveraged Chicago's black public history Their goal to engage with the struggle for racial equality Rocksborough Smith shows teachers working to advance curriculum reform in public schools while well known activists Margaret and Charles Burroughs pushed for greater recognition of black history by founding the DuSable Museum of African American History Organizations like the Afro American Heritage Association meanwhile used black public history work to connect radical politics and nationalism Together these people and their projects advanced important ideas about race citizenship education and intellectual labor that paralleled the shifting terrain of mid twentieth century civil rights [Death Blow to Jim Crow](#) Erik S. Gellman, 2012-02-01 During the Great Depression black intellectuals labor organizers and artists formed the National Negro Congress NNC to demand a second emancipation in America Over the next decade the NNC and its offshoot the Southern Negro Youth Congress sought to coordinate and catalyze local antiracist activism into a national movement to undermine the Jim Crow system of racial and economic exploitation In this pioneering study Erik S Gellman shows how the NNC agitated for the first class citizenship of African Americans and all members of the working class establishing civil rights as necessary for reinvigorating American democracy Much more than just a precursor to the 1960s civil rights movement this activism created the most militant interracial freedom movement since Reconstruction one that sought to empower the American labor movement to make demands on industrialists white supremacists and the state as never before By focusing on the complex alliances between unions civic groups and the Communist Party in five geographic regions Gellman explains how the NNC and its allies developed and implemented creative grassroots strategies to weaken Jim Crow if not deal it the death blow they sought **The Conservative Heartland** Jon K. Lauck, Catherine McNicol Stock, 2020-04-17 In the wake of the 2016 presidential election there was widespread shock that the Midwest the Democrats so called blue wall had been so effectively breached by Donald Trump But the blue wall as The Conservative Heartland makes clear was never quite as secure as so many observers assumed A deep look at the Midwest's history of conservative politics this timely volume reveals how conservative victories in state houses legislatures and national elections in the early twenty first century far from coming out of nowhere in fact had extensive roots across decades of political organization in the region Focusing on nine states from Iowa and the Dakotas to Indiana and Ohio the essays in this collection detail the rise of midwestern conservatism after World War II a trend that coincided with the transformation of the prewar Republican Party into the New Right This transformation the authors contend involved the Midwest and the Sunbelt states Through the lenses of race class gender and sexuality their essays explore the development of midwestern conservative politics in light of deindustrialization environmentalism second wave feminism mass incarceration privatization and debates over same sex marriage and abortion among other issues Together these essays map the region's complex patchwork of viable rural and

urban areas variously subject to a wide array of conflicting interests and concerns the perspective they provide at once broad and in depth offers unique historical insight into the Midwest's political complexity and its status as the last real competitive battleground in presidential elections     [This Is My Jail](#) Melanie Newport, 2022-11-15 While state and federal prisons like Attica and Alcatraz occupy a central place in the national consciousness most incarceration in the United States occurs within the walls of local jails In [This Is My Jail](#) Melanie D Newport situates the late twentieth century escalation of mass incarceration in a longer history of racialized politically repressive jailing Centering the political actions of people until now overlooked jailed people wardens corrections officers sheriffs and the countless community members who battled over the functions and impact of jails Newport shows how local grassroots contestation shaped the rise of the carceral state As ground zero for struggles over criminal justice reform particularly in the latter half of the twentieth century jails in Chicago and Cook County were models for jailers and advocates across the nation who aimed to redefine jails as institutions of benevolent transformation From a slave sale on the jail steps to new jail buildings to electronic monitoring from therapy to job training these efforts further criminalized jailed people and diminished their capacity to organize for their civil rights With prisoners as famous as Al Capone Dick Gregory and Harold Washington and a place in culture ranging from Upton Sinclair's *The Jungle* to B B King's *Live in Cook County Jail* [This Is My Jail](#) places jails at the heart of twentieth century urban life and politics As a sweeping history of urban incarceration [This Is My Jail](#) shows that jails are critical sites of urban inequality that sustain the racist actions of the police and judges and exacerbate the harms wrought by housing discrimination segregated schools and inaccessible health care Structured by liberal anti Blackness and legacies of violence today's jails reflect longstanding local commitments to the unfreedom of poor people of color     **Crossing Parish Boundaries** Timothy B.
