they are inadvertently caught up in the school to prison pipeline Their experiences in the connected programs between El Valle Juvenile Detention Center and Legacy Community School reveal the accelerated fusion of California schools and institutions of confinement The girls participate in well intentioned wraparound services designed to provide them with support at home at school and in the detention center But these services may more closely resemble the phenomenon of wraparound incarceration in which students despite leaving the actual detention center cannot escape the surveillance of formal detention and are thereby slowly pushed away from traditional schooling and a productive life course

Going All City Stefano Bloch, 2019-11-14 A graffiti writer's memoir A brave portrait of a highly criticized subculture and a look inside the reality of growing up in low income Los Angeles LA Weekly We could have been called a lot of things brazen vandals scared kids threats to social order self obsessed egomaniacs marginalized youth outsider artists trend setters and thrill seekers But to me we were just regular kids growing up hard in America and making the city our own Being writers gave us something to live for and going all city gave us something to strive for and for some of my friends it was something to die for In the age of commissioned wall murals and trendy street art it's easy to forget graffiti's complicated and often violent past in the United States Though graffiti has become one of the most influential art forms of the twenty first century cities nationwide waged a war against it from the late 1970s to the early 2000s complete with brutal police task forces Who were the vilified taggers they targeted Teenagers usually from low income neighborhoods with little to their names except a few spray cans and a desperate need to be seen to mark their presence on city walls and buildings even as their cities turned a blind eye to them Going All City is the mesmerizing and painful story of these young graffiti writers told by one of their own Prolific LA writer Stefano Bloch came of age in the late 1990s amid constant violence poverty and vulnerability He recounts vicious interactions with police debating whether to take friends with gunshot wounds to the hospital coping with his mother's heroin addiction instability and homelessness and his dread that his stepfather would get out of jail and tip his unstable life into full blown chaos But he also recalls moments of peace and exhilaration marking a fresh tag the thrill of running with his crew at night exploring the secret landscape of LA the dream and success of going all city Bloch holds nothing back in this fierce poignant memoir an unflinching portrait of a deeply maligned subculture and an unforgettable account of what writing on city walls means to the most vulnerable people living within them

Sisters Outside Jodie Michelle Lawston, 2010-07-02 How can radical women activists for women prisoners be a voice and a presence for people so different from themselves The radical activists who envision a postprison society are predominantly white middle class and well educated the prisoners they advocate for are predominantly disenfranchised women of color While the activists lead lives of relative comfort conditions in women's prisons may include sexual and emotional abuse and medical neglect Jodie Michelle Lawston examines the dilemmas that arise as activists attempt to challenge injustices and oppression in these prisons Activists question their place in leading organizations speaking for incarcerated women of color and they question whether they will be accepted by these

women as legitimate representatives Knowing that their radical goals are generally not well received by the mainstream public activists realize they must cast their efforts as a credible social movement when dealing with that public Lawston maps the discourses that activists from a radical group in California generate in order to overcome these tensions and provides comments from the activists themselves

Right to Be Hostile Erica R. Meiners, 2010-11 Offers examples and insights into the school to prison pipeline phenomenon showing how disciplinary regulations pedagogy pop culture and more not only implicitly advance but actually normalize an expectation of incarceration for urban youth *Identity Complex* Michael Roy Hames-Garcia, Rethinking ideas about identity politics and critical thought *Beyond El Barrio* Gina M. Pérez, Frank Guridy, Adrian Burgos, 2010-10-24 Freightened with meaning el barrio is both place and metaphor for Latino populations in the United States Though it has symbolized both marginalization and robust and empowered communities the construct of el barrio has often reproduced static understandings of Latino life they fail to account for recent demographic shifts in urban centers such as New York Chicago Miami and Los Angeles and in areas outside of these historic communities Beyond El Barrio features new scholarship that critically interrogates how Latinos are portrayed in media public policy and popular culture as well as the material conditions in which different Latino groups build meaningful communities both within and across national affiliations Drawing from history media studies cultural studies and anthropology the contributors illustrate how despite the hypervisibility of Latinos and Latin American immigrants in recent political debates and popular culture the daily lives of America's new majority minority remain largely invisible and mischaracterized Taken together these essays provide analyses that not only defy stubborn stereotypes but also present novel narratives of Latino communities that do not fit within recognizable categories In this way this book helps us to move beyond el barrio beyond stereotype and stigmatizing tropes as well as nostalgic and uncritical portraits of complex and heterogeneous range of Latino lives **In Her Hands** Dr. Emma Day, 2023-08-01 In Her Hands examines the various strategies women have utilized to fight for recognition as individuals vulnerable to and living with HIV AIDS across multiple settings since the 1980s Taking a new chronological and thematic approach to the study of the US epidemic it explores five arenas of women's AIDS activism transmission and recognition reproductive justice safer sex campaigns for queer women the carceral state and HIV prevention and treatment In so doing it moves the historical understanding of women's experiences of AIDS beyond their exclusion from the initial medical response and the role women played as the supporters of gay men Asking how and on what terms women succeeded in securing state

support In Her Hands argues that women protesting the neglect of their health care needs always risked encountering punitive intervention on behalf of the symbolic needs of fetuses and children as well as wider society deemed to need protecting from them
