Two chapters on special education offer an introduction to screening instruments and help practitioners determine a child's potential need for special education programs and services. A chapter on cultural competence helps readers improve the accuracy and responsiveness of forensic evaluations and minimize the chance of an unjust outcome resulting from misguided expert opinion. The section on youth violence features three new chapters: Taxonomy and Neurobiology of Aggression, Prevention of School Violence, and Juvenile Stalkers, plus a newly written chapter on assessment of violence risk offering guidance on how to confront problems such as bullying and initiate effective family interventions. A chapter on psychiatric malpractice and professional liability addresses these legal concerns with an eye toward cases involving minors. A chapter on psychological autopsy covers evaluation of the circumstances surrounding pediatric suicides, describing various types of equivocal deaths and discussing legal issues such as admissibility of the autopsy in court. A newly written chapter on the Internet expands the previous book's focus on child pornography to help practitioners deal with issues ranging from online threats to emotional and legal consequences of interactions in cyberspace.
