the Power of Diversity represents a range of interests and approaches to the challenges faced by group workers throughout the world. It illustrates the complexity, creativity, and excitement of the diversity concept and it explores how practitioners manage and adjust to diversity and use its power constructively. The contributing authors discuss macro approaches to inequality in social, political, and economic spheres and address concerns about the fit of group work into the social work curriculum and practitioners' techniques. In this guidebook, readers can discover how to emphasize social group work to enhance the education of social work students and to help professionals deal more effectively with cultural diversity. Capturing the Power of Diversity covers practice, theory, building, teaching, research, and various age and ethnic groups. Chapters explore topics related to the value and importance of using social group work practice at the macro level, educational and practice dimensions of diversity, the necessity of dealing with inequality, the macro system and its economic and political consequences, teaching and practice issues emerging from the effects of race and class on practice. An enlightening reference and guide, Capturing the Power of Diversity is a much needed source of information for social work practitioners and students who are interested in how diversity impacts social group work and are curious as to how to make group work more effective.

Alcoholism and Other Drug Problems James E. Royce, 1996 Co-Dependence: Healing the Human Condition Charles Whitfield, 2010-01-01

Of all the books on the often misunderstood concept of co-dependence, this is probably the clearest, most complete, and informative. Charles Whitfield is a frontline clinician who has been assisting co-dependents in their healing for over twenty years. He has researched the literature on co-dependence, which he summarizes in this widely read book. He sees co-dependence as a way to more accurately describe the painful and confusing part of the human condition. In careful detail, he describes just what co-dependence is and what it is not, how it comes about, and how to heal its painful aftereffects.

Removing the Roadblocks Marsha Vannicelli, 1992-02-14

Based on the author's 18 years of experience supervising group therapists, this quintessentially practical book is designed to help practitioners think through and formulate appropriate strategies in their clinical work. Utilizing many clinical examples and providing explanations throughout for her interventions, Vannicelli pays special attention to the therapeutic stance where the clinician positions him or herself in relation to the patient and why and how various strategies and techniques maximize the patient's opportunity for therapeutic growth. A hallmark of Dr. Vannicelli's approach, richly illustrated in this work, is her sensitivity to countertransference and the ways it can be used productively in clinical practice. Alone among books in the substance abuse field, REMOVING THE ROADBLOCKS analyzes the group therapy issues that arise in the three populations most commonly seen in substance abuse clinics: substance abusers themselves, adult children of alcoholics, and other family members. The author describes characteristics unique to each population and addresses overlap among them in terms of basic procedures, formats, and hurdles that group leaders face. The book also differs from most psychotherapy texts by giving the reader an opportunity to hear the voice of an experienced therapist as she provides examples of various kinds of interventions and

demonstrates how they might actually be communicated and implemented Rather than reading about psychotherapy or about various kinds of problems one has the sense of experiencing a thorough consultation with a truly seasoned supervisor A particularly useful feature is the appendix at the end of the volume which provides examples of assessment and intake questionnaires history questionnaires ground rules for treatment contracts and other practical materials Designed for all mental health professionals who work with substance abusers the book's focus on practical clinical issues also makes it ideal for paraprofessionals It is an excellent text for courses on substance abuse in social work psychology nursing and other disciplines as well as for courses in group psychotherapy

Curriculum and the Life Erratic Leslie B. Nissen, 2013-10-30
Curriculum and the Life Erratic The Geographic Cure lays bare the untold damage done to children who are forced to endure the toxic combination of fermented parenting as author Leslie Nissen has termed it and frequent family moves at the hands of alcoholic parents who perpetually seek the elusive Geographic Cure While such parents deceive themselves that in the next new place sobriety will prevail their children know better Alcoholics who chronically uproot their families for a fresh start usually carry along every reason to drink For the school age children of such cure seeking alcoholics the torment of life with a volatile unpredictable and chronically intoxicated parent is intensified by the anguish of being the new kid who changes schools at the whim of the parent Highly mobile children bearing an alarmingly long list of prior schools may be part of a group which Nissen calls Geographic Cure Children whose chances of finding help are nearly non-existent despite their acute need for care The dilemma of this unique subset of Children of Alcoholics is examined via autobiographical psychoanalytic and fictional lenses Nissen also recounts her own urge to hit the road when diagnosed with cancer and explores the Geographic Cure writ large observing how the current testing frenzy and clamor for cures for low test scores dominate educational policy Could teachers panic about accountability cause them to resent new students who appear at their classroom doors mid year Is education encumbered because at the hands of policy makers educators are working the Life Erratic
