Children Of Fire A History Of African Americans:

Children of Fire Thomas C. Holt, 2011-09-27 Simply brilliant The first survey of African American history to rival John Hope Franklin and Evelyn Brooks Higginbotham's *From Slavery to Freedom* Henry Louis Gates Jr Ordinary people don't experience history as it is taught by historians The same people who lived through the Civil War and the eradication of slavery also dealt with the hardships of Reconstruction so why do we almost always treat them separately In *Children of Fire* renowned historian Thomas C Holt challenges this form to tell the story of generations of African Americans through the lived experience of the subjects themselves with all of the nuances ironies contradictions and complexities one might expect Holt captures the entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619 Each chapter focuses on a generation of individuals who shaped the course of American history hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society Many familiar faces grace these pages Frederick Douglass W E B DuBois Martin Luther King and Barack Obama but also some overlooked ones Figures like Anthony Johnson a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation only to have it stolen away from his children by an increasingly racist court system Or Frank Moore a WWI veteran and sharecropper who sued his landlord for unfair practices but found himself charged with murder after fighting off an angry white posse Taken together their stories tell how African Americans fashioned a culture and identity amid the turmoil of four centuries of American history Provocative readable passionate Publishers Weekly

First Martyr of Liberty Mitch Kachun, 2017-06-20 *First Martyr of Liberty* explores how Crispus Attucks's death in the 1770 Boston Massacre led to his achieving mythic significance in African Americans' struggle to incorporate their experiences and heroes into the mainstream of the American historical narrative While the other victims of the Massacre have been largely ignored Attucks is widely celebrated as the first to die in the cause of freedom during the era of the American Revolution He became a symbolic embodiment of black patriotism and citizenship This book traces Attucks's career through both history and myth to understand how his public memory has been constructed through commemorations and monuments institutions and organizations bearing his name juvenile biographies works of poetry drama and visual arts popular and academic histories and school textbooks There will likely never be a definitive biography of Crispus Attucks since so little evidence exists about the man's actual life While what can and cannot be known about Attucks is addressed here the focus is on how he has been remembered variously as either a hero or a villain and why at times he has been forgotten by different groups and individuals from the eighteenth century to the present day

African Americans and the Bible Vincent L. Wimbush, 2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and

tropes as African Americans From literature and the arts to popular culture and everyday life the Bible courses through black society and culture like blood through veins Despite the enormous recent interest in African American religion relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies as well as art music film dance drama and literature The focus is on the interaction between the people known as African Americans and that complex of visions rhetorics and ideologies known as the Bible As such the book is less about the meanings of the Bible than about the Bible and meanings less about the worlds of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed

Library of Congress Subject Headings Library of Congress,2009 Preaching with Sacred Fire: An Anthology of African American Sermons, 1750 to the Present Martha Simmons, Frank A. Thomas,2010-08-16 One hundred sermons that display the victorious although sometimes painful historical and spiritual pilgrimage of black people in America A groundbreaking

anthology *Preaching with Sacred Fire* is a unique and powerful work. It captures the stunning diversity of the cultural and historical legacy of African American preaching more than three hundred years in the making. Each sermon as editors Martha Simmons and Frank A. Thomas reveal is a work of art and a lesson in unmatched rhetoric. The journey through this anthology which includes selections from Jarena Lee, Frederick Douglass, Malcolm X, Martin Luther King Jr., Gardner C. Taylor, Vashti McKenzie and many others offers a rare view of the unheralded role of the African American preacher in American history. The collection provides new insights into the underpinnings of the black fight for emancipation and the rise and growth of the Civil Rights and Black Power movements. Sermons from the first decade of the twenty first century point toward the future of African American preaching. Biographies of the preachers put their work in the cultural and homiletic context of their periods. The preachers of these sermons are men and women from a range of faiths, ancestries and educational backgrounds. They draw on a vast and luminous landscape of poetic language using metaphor, rhythm and imagery to communicate with their congregations. What they all have in common is hope, resilience and sacred fire. Even during the most difficult and oppressive times, Simmons and Thomas write in the preface, the delivery, creativity, charisma, expressivity, fervor, forcefulness, passion, persuasiveness, poise, power, rhetoric, spirit, style and vision of black preaching gave and gives hope to a community under siege. This magnificent work beautifully renders the complexity, spiritual richness and strength of African American life.

Into the Fire Robin D. G. Kelley, 1996-04-25 When something goes from bad to worse we say it fell out of the frying pan and into the fire. This timeless phrase succinctly captures what has happened to the majority of African Americans since the 1970s. The civil rights movement of the 1960s brought about remarkable gains for most black people and by 1970 African Americans were beginning to be key figures in national politics and in corporate board rooms. The black middle class was decidedly growing and thus a handful of African Americans escaped the frying pan altogether. But after 1970 heavy industry began to disappear as American companies looked to foreign lands for cheaper manufacturing. Millions of jobs were lost. The number of black poor began to grow dramatically, city services declined, federal spending on cities dried up, affirmative action programs were dismantled, blatant acts of racism began to rise again and the United States entered a deep economic recession. But this decline is only part of the story. Since 1970 the black community has resisted oppression, struggled for power, dealt with internal tensions and conflicts and profoundly shaped American culture. This book explores a range of issues that the African American community faces in the late 20th century: the rebirth of black nationalism, the emergence of a new black conservative movement, the challenge of black feminism, the impact of Caribbean immigration, the rise of rap music and hip hop culture. It looks at the impact on African American life of such diverse personalities as Roy Innis, Toni Morrison, Anita Hill, Jimi Hendrix, Louis Farrakhan, Angela Davis, Spike Lee, Barbara Jordan, Shirley Chisholm and Jesse Jackson among others. *Into the Fire* will challenge and be challenged by readers of all ages and calls on our young people to exercise their power to determine the outcome of chapters yet to be written in the history of African Americans. *Children's Biographies of African*

American Women Sara C. VanderHaagen, 2018-11-15 A study of how rhetoric has shaped the life stories of African American role models in children's literature In *Children's Biographies of African American Women Rhetoric Public Memory and Agency* Sara C VanderHaagen examines how these biographies encourage young readers to think about themselves as agents in a public world Specifically VanderHaagen illustrates how these works use traditional means to serve progressive ends and thereby examines the rhetorical power of biography in shaping identity and promoting public action Drawing on scholarship in rhetoric memory studies and children's literature VanderHaagen presents rhetorical analyses of biographies of three African American women poet Phillis Wheatley activist Sojourner Truth and educator turned politician Shirley Chisholm published in the United States during the twentieth and twenty first centuries VanderHaagen begins by analyzing how biographical sketches in books for black children published during the 1920s represent Wheatley and Truth The study then shifts to books published between 1949 and 2015 VanderHaagen uses a concept adapted from philosopher Paul Ricoeur the idea of the agential spiral to chart the ways that biographies have used rhetoric to shape the life stories of Wheatley Truth and Chisholm By bringing a critical rhetorical perspective to the study of biographies for children this book advances the understanding of how lives of the past are used persuasively to shape identity and encourage action in the contemporary public world VanderHaagen contributes to the study of rhetoric and African American children's literature and refocuses the field of memory studies on children's biographies a significant but often overlooked genre through which public memories first take shape

Child of the Fire Kirsten Buick, 2010-02-17 *Child of the Fire* is the first book-length examination of the career of the nineteenth-century artist Mary Edmonia Lewis, best known for her sculptures inspired by historical and biblical themes. Throughout this richly illustrated study, Kirsten Pai Buick investigates how Lewis and her work were perceived and their meanings manipulated by others and the sculptor herself. She argues against the racist art discourse that has long cast Lewis's sculptures as reflections of her identity as an African American and Native American woman who lived most of her life abroad. Instead, by seeking to reveal Lewis's intentions through analyses of her career and artwork, Buick illuminates Lewis's fraught but active participation in the creation of a distinct American national art, one dominated by themes of indigeneity, sentimentality, gender, and race. In so doing, she shows that the sculptor variously complicated and facilitated the dominant ideologies of the vanishing American, the notion that Native Americans were a dying race, sentimentality, and true womanhood. Buick considers the institutions and people that supported Lewis's career, including Oberlin College abolitionists in Boston and American expatriates in Italy, and she explores how their agendas affected the way they perceived and described the artist. Analyzing four of Lewis's most popular sculptures, each created between 1866 and 1876, Buick discusses interpretations of *Hiawatha* in terms of the cultural impact of Henry Wadsworth Longfellow's epic poem *The Song of Hiawatha*, *Forever Free*, and *Hagar in the Wilderness* in light of art historians' assumptions that artworks created by African American artists necessarily reflect African American themes, and *The Death of Cleopatra* in relation to broader problems of reading art as a reflection of identity.
