*Children and War* Helga Embacher, 2013 The amount of international research on Children and War carried out by academics governments and non governmental organizations has continually increased in recent years At the same time there has been growing public interest in how children experience military conflicts and how their lives have been affected by war and its aftermath In light of the many brutal post colonialist civil wars or new wars especially in Africa and Asia child soldiers have in particular gained increased attention Simultaneously since the 1990s the history of the Holocaust and World War II has also increasingly been written from the perspective of children those who speak out now and publish their memoirs experienced the Holocaust as children A similar generational change has also taken place in the societies of the perpetrators Germans and Austrians who experienced the war as children took over the role of war witnesses from the soldiers of the German Wehrmacht Moreover intensified focus on children s experiences and their strategies for dealing with what they went through is evident in Eastern Europe as well In *Children and War Past and Present* scholars from different academic disciplines practitioners in the field and representatives of government and non governmental institutions approach this sensitive subject from different angles and in various methodological ways The book shows how children expressed their experiences in letters memoirs and diaries during and after World War I and World War II and how children remembered those wars Many of the authors also deal with various long term psychological effects Using the example of children s literature in World War I and the representation of child survivors in the postwar cinema another focus of the book is on the representation of children in different wars Based on post colonial and contemporary wars in Africa images of girl and boy soldiers created by the media NGOs and governments as well as trends in how they are represented in contemporary research are also discussed The last section of the book concentrates on various institutions such as welfare organizations and NGOs dealing with children in different wars How have institutions supported children And concerning contemporary conflicts how does the international community face the question of international justice and adapt to children s needs

*Children at War* Peter Warren Singer, 2005 An internationally recognized expert on 21st century warfare looks at the use of children as soldiers in more than three quarters of the world s conflicts describing how children are indoctrinated and trained as soldiers and how it can be stopped Illustrations

**Children and War** James Marten, 2002-08-24 Children have always been involved in warfare This text shows that they have contributed to home front war efforts and that war time experiences have always affected the ways children of war perceive themselves and their societies **Shattered** Jennifer Armstrong, 2007-12-18 As bullets ring and bombs are dropped children watch mostly from the sidelines but occasionally in the direct line of fire Unaware of the political issues or power struggles behind the battle all they know are the human emotional consequences of this thing called war This collection examines all of war s implications for young people from those caught in the line of fire to the children of the veterans of wars long past Critically acclaimed author Jennifer

Armstrong brings together 12 powerful voices in young people's literature to explore the realities of war from a child's perspective. The settings vary widely: the Soviet invasion of Afghanistan, an attempted coup in Venezuela, the American Civil War, crisis in the Middle East, but the effects are largely the same. In war, no life is ever left untouched. In war, lives are shattered.

Children at War P. W. Singer, 2006-04-10. From U.S. soldiers having to fight children in Afghanistan and Iraq to juvenile terrorists in Sri Lanka to Palestine, the new younger face of battle is a terrible reality of 21st century warfare. Indeed, the very first American soldier killed by hostile fire in the War on Terrorism was shot by a fourteen-year-old Afghan boy.

Children at War is the first comprehensive examination of a disturbing and escalating phenomenon: the use of children as soldiers around the globe. Interweaving explanatory narrative with the voices of child soldiers themselves, P. W. Singer, an internationally recognized expert in modern warfare, introduces the brutal reality of conflict where children are sent off to fight in war-torn hotspots from Colombia and the Sudan to Kashmir and Sierra Leone. He explores the evolution of this phenomenon, how and why children are recruited, indoctrinated, trained, and converted to soldiers, and then lays out the consequences for global security with a special case study on terrorism. With this established, he lays out the responses that can end this horrible practice. What emerges is not only a compelling and clarifying read on the darker reality of modern warfare, but also a clear and urgent call for action.

**The Impact of War on Children** Graça Machel, 2001. Graça Machel, UNICEF's special rapporteur, also scrutinises sexual crimes in time of war, the fate of orphans, the disproportionate suffering of children, and their special vulnerability to such side effects of conflict as famine, disease, and social fragmentation. The Impact of War on Children is an urgent call to action for the commitment and tenacity needed to protect children from the atrocities of war. Children present a uniquely compelling motivation for mobilisation and an opportunity to confront the problems that cause their suffering. This book is complemented by 16 evocative photographs by Sebastião Salgado, a documentary photographer of world renown covering Afghanistan, Iraq, Palestine, Rwanda, and elsewhere.

Children, War & Propaganda Ross F. Collins, 2023. A troubling development of the brutal century recently passed has been the growing use of children for war. World War I became the first total war of modern times. To engage in war on immense scale, authorities believed everyone must participate. That included children. Relentless campaigns of propaganda in both world wars focused special attention on kids. The immense scope of total war grew to dominate children's lives; their daily existence militarized by a world preoccupied by conflict. But we have often ignored wartime contributions of children. What were they expected to do? How were they persuaded to do it? How did it contribute to the war? In what ways did it affect their lives? What did they think about that? This history attempts to respond by examining activities of home front children in the United States during both world wars. The revised edition considers recent research to extend a discussion of children's experiences in war. It includes an examination of comic books, considers fitness standards, and expands a discussion of Boy Scouts and other groups for children. It also moves the work beyond the United States to consider activities of children in

twenty first century wars as observers and tragically as participants The fully referenced text should be of interest to students of war and childhood But it is also written for a general audience interested in how children respond to war Many Americans experienced war as children and many others have parents who did This book is also for them **Ernst Papanek and Jewish Refugee Children** Frank Jacob,2021-11-08 Ernst Papanek was an Austrian pedagogue who worked with Jewish refugee children in France in 1939 40 before he was forced to leave to the United States There he nevertheless continued his work to point out the impact of war genocide and displacement on children who were often forgotten in major discussions about the war and the losses it had created This volume provides a short biographical outline of Papanek and a theoretical discussion about the impact of war and genocide on children who are forced out of their lives and who were not only physically displaced as a consequence The second part of the book assembles some of Papanek s important texts about the children he had worked with and for to make his thoughts and important considerations accessible for a broader academic and non academic public alike *A Child's War* Kati David,1989 Personal wartime remembrances by fifteen European children sons and daughters of Jews Nazis collaborators and resistance fighters **The Routledge History of Childhood in the Western World** Paula S. Fass,2013 The Routledge History of Childhood in the Western World provides an important overview of the main themes surrounding the history of childhood in the West from antiquity to the present day By broadly incorporating the research in the field of Childhood Studies the book explores the major advances that have taken place in the past few decades in this crucial field This important collection from a leading international group of scholars presents a comprehensive survey of the current state of the field It will be essential reading for all those interested in the history of childhood Children of War Susan Goodman,2005 Capturing the amazing experiences of a special generation Susan Goodman brings together the dramatic amusing poignant and everyday stories from those who grew up during the Second World War One Day the Soldiers Came Charles London,2009-10-13 Today in violence torn regions across the globe 20 million children have been uprooted orphaned or injured by war famine and poverty This is their story and ours In this powerful and unforgettable book by turns painful funny terrifying and triumphant Charles London takes us into the world of refugee children celebrating their unique skills for survival and reflection Their remarkable stories and drawings chill the blood and touch the heart offering an indelible first hand portrait of the war that rages beyond the headlines **Of Love and War** Angela Wanhalla,2023 Between 1942 and 1945 more than two million servicemen occupied the southern Pacific theater the majority of whom were Americans in service with the U S Army Navy Air Force and Marines During the occupation American servicemen married approximately 1 800 women from New Zealand and the island Pacific creating legal bonds through marriage and through children Additionally American servicemen fathered an estimated four thousand nonmarital children with Indigenous women in the South Pacific Command Area In *Of Love and War* Angela Wanhalla details the intimate relationships forged during wartime between women and U S servicemen stationed in the South Pacific traces

the fate of wartime marriages and addresses consequences for the women and children left behind Paying particular attention to the experiences of women in New Zealand and in the island Pacific including Tonga Fiji Samoa and the Cook Islands *Of Love and War* aims to illuminate the impact of global war on these women their families and Pacific societies Wanhalla argues that Pacific war brides are an important though largely neglected cohort whose experiences of U S military occupation expand our understanding of global war By examining the effects of American law on the marital opportunities of couples their ability to reunite in the immediate postwar years and the citizenship status of any children born of wartime relationships Wanhalla makes a significant contribution to a flourishing scholarship concerned with the intersections between race gender sexuality and militarization in the World War II era

*The Children's Table* Anna Mae Duane, 2013-06-01 Like the occupants of the children's table at a family dinner scholars working in childhood studies can seem sidelined from the adult labor of humanities scholarship *The Children's Table* brings together scholars from architecture philosophy law and literary and cultural criticism to provide an overview of the innovative work being done in childhood studies a transcript of what is being said at the children's table Together these scholars argue for rethinking the academic seating arrangement in a way that acknowledges the centrality of childhood to the work of the humanities The figure we now recognize as a child was created in tandem with forms of modernity that the Enlightenment generated and that the humanities are now working to rethink Thus the growth of childhood studies allows for new approaches to some of the most important and provocative issues in humanities scholarship the viability of the social contract the definition of agency the performance of identity and the construction of gender sexuality and race Because defining childhood is a means of defining and distributing power and obligation studying childhood requires a radically altered approach to what constitutes knowledge about the human subject The diverse essays in *The Children's Table* share a unifying premise to include the child in any field of study realigns the shape of that field changing the terms of inquiry and forcing a different set of questions Taken as a whole the essays argue that at this key moment in the state of the humanities rethinking the child is both necessary and revolutionary Contributors Annette Ruth Appell Sophie Bell Robin Bernstein Sarah Chinn Lesley Ginsberg Lucia Hodgson Susan Honeyman Roy Kozlovsky James Marten Karen Sanchez-Eppler Carol Singley Lynne Vallone John Wall

**Applied Ethnomusicology** Svanibor Pettan, Jeff Todd Titon, 2015-07-01 Applied studies scholarship has triggered a not so quiet revolution in the discipline of ethnomusicology. The current generation of applied ethnomusicologists has moved toward participatory action research involving themselves in musical communities and working directly on their behalf. The essays in *The Oxford Handbook of Applied Ethnomusicology*, edited by Svanibor Pettan and Jeff Todd Titon, theorize applied ethnomusicology, offer histories and detail practical examples with the goal of stimulating further development in the field. The essays in the book, all newly commissioned for the volume, reflect scholarship and data gleaned from eleven countries by over twenty contributors. Themes and locations of the research discussed encompass all world continents. The authors present case studies encompassing multiple places other than that discuss circumstances within a geopolitical unit, either near or far. Many of the authors consider marginalized peoples and communities; others argue for participatory action research. All are united in their interest in overarching themes such as conflict, education, archives, and the status of indigenous peoples and immigrants. A volume that at once defines its field, advances it, and even acts as a large-scale applied ethnomusicology project in the way it connects ideas and methodology, *The Oxford Handbook of Applied Ethnomusicology* is a seminal contribution to the study of ethnomusicology, theoretical and applied.
