Bibliographic Guide to Music Gale Group,2001-07 *So, You're the New Musical Director!* James H. Laster,2002-07-16 *So You re the New Musical Director* is aimed at the person who has music training but little or no experience with musical theatre the high school choral director with a degree in music education or the actor participating in community theatre productions It details the duties involved in directing a Broadway musical including overseeing singer and orchestra rehearsals and conducting the musical itself The chapters follow the actual progression of a musical from a discussion of the production team s responsibilities to the final bow Filled with photos illustrations and examples *So You re the New Musical Director* is a comprehensive guide that no one involved in musical theatre should be without *Show Tunes, 1905-1991* Steven Suskin,1992 Includes over 30 major composers and their work *Golden Age* ,1926 **The Grizzly Bear** ,1929 *Out of Eden: The Peopling of the World* Stephen Oppenheimer,2012-03-01 In a brilliant synthesis of genetic archaeological linguistic and climatic data Oppenheimer challenges current thinking with his claim that there was only one successful migration out of Africa In 1988 Newsweek headlined the startling discovery that everyone alive on the earth today can trace their maternal DNA back to one woman who lived in Africa 150 000 years ago It was thought that modern humans populated the world through a series of migratory waves from their African homeland Now an even more radical view has emerged that the members of just one group are the ancestors of all non Africans now alive and that this group crossed the mouth of the Red Sea a mere 85 000 years ago It means that not only is every person on the planet descended from one African Eve but every non African is related to a more recent Eve from that original migratory group This is a revolutionary new theory about our origins that is both scholarly and entertaining a remarkable account of the kinship of all humans Further details of the findings in this book are presented at www.bradshawfoundation.com/stephenoppenheimer **Show Music** ,1998 *The Musical Record* ,1882 **Natural Selection** Gary Giddins,2006 Long recognized as America s most brilliant jazz writer the winner of many major awards including the prestigious National Book Critics Circle Award and author of a highly popular biography of Bing Crosby Gary Giddins has also produced a wide range of stimulating and original cultural criticism in other fields With *Natural Selection* he brings together the best of these previously uncollected essays including a few written expressly for this volume The range of topics is spellbinding Writing with insight humor and a famously deft touch he offers sharp edged perspectives on such diverse subjects as Federico Fellini and Jean Renoir Norman Mailer and Ralph Ellison Marlon Brando and Groucho Marx Duke Ellington and Bob Dylan horror and noir the cartoon version of *Animal Farm* and the comic book series *Classics Illustrated* Giddins brings to criticism an uncommon ability long demonstrated in his music writing to address in very few words an entire career so that we get an in depth portrait of the artist beyond the film book or recording under review For instance Giddins offers a stunning reappraisal of Doris Day who he terms the coolest and sexiest female singer of slow ballads in film history He argues eloquently for a

reconsideration of the forgotten German language novelist Soma Morgenstern In a section on comedy he offers fresh perspectives on the three great silent film stars Chaplin Keaton and Lloyd while resurrecting the legendary Jack Benny and reevaluating the controversial Jerry Lewis There s also a memorable look at Bing Crosby s film career he calls Crosby s blockbuster *Going My Way* a neglected masterpiece and a close examination of Marcel Carne s beloved *Children of Paradise* Of course Giddins also supplies excellent commentary on jazz major and underrated figures and especially the uses of jazz in film A wonderful gathering of little known treasures *Natural Selection* will broaden the perception of Gary Giddins as one of our most important cultural critics
