Explaining Asean Regionalism In Southeast Asia

Shaun Narine

Explaining Asean Regionalism In Southeast Asia:

Explaining ASEAN Shaun Narine, 2002 Is ASEAN the foundation of a strong regional community in Southeast Asia Or is it no more than an instrument used by its members to advance their individual interests Addressing these questions Shaun Narine offers a comprehensive political analysis of ASEAN from its creation in 1967 through the events of 2001 Reflecting both the accomplishments and the limitations of the organization Explaining ASEAN explores issues of regional security economic stability and the growing expectations of the international community Narine s trenchant analysis makes it clear that unless ASEAN can resolve the problems of inadequate resources and disagreements among the member states its future as an effective active international regime is doubtful **ASEAN Regionalism** Christopher B. Roberts, 2012-03-15 This book examines the key motivations for and challenges to greater regional integration in Southeast Asia It demonstrates how security and economic concerns domestic regional and international have either contributed to or detracted from an increased level of unity and cooperation in ASEAN It also explores how the patterns of interaction and socialization generated by these issues together with the nature of domestic political systems have affected the emergence of common values norms and interests It covers the full range of issues confronting ASEAN at present and the full range of ASEAN countries and discusses both developments in ASEAN to date and also likely future developments Understanding ASEAN's Role in Asia-Pacific Order Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN s prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN s contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day *International Relations in Southeast Asia* Donald E. Weatherbee, 2009 This balanced comprehensive guide to Southeast Asian politics offers a sensible but nondogmatic realist approach to the region s international relations In this revised second edition Donald E Weatherbee lucidly explains the dynamics of the Southeast Asian subsystem as a struggle for autonomy in pursuit of national interests He explores three important questions the answers to which will shape the future Southeast Asia Will democratic regimes transform international relations in Southeast Asia Will national leaders succeed in reinventing ASEAN as a more effective collaborative mechanism Finally how will the evolving Chinese position balancing and perhaps displacing the United States as Asia s great power affect Southeast Asia s struggle for autonomy **The Routledge Handbook of Asian Security Studies** Sumit Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2017-10-23 The Routledge Handbook of Asian Security Studies provides a detailed exploration of security

dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical links between each of them The Handbook is divided into four geographical parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross regional Issues This fully revised and updated second edition addresses the significant developments which have taken place in Asia since the first edition appeared in 2009 It examines these developments at both regional and national levels including the conflict surrounding the South China Sea the long standing Sino Indian border dispute and Pakistan s investment in tactical nuclear weapons amongst many others This book will be of great interest to students of Asian politics security studies war and conflict studies foreign policy and international relations generally

Human Rights and Participatory Politics in Southeast Asia Catherine Renshaw, 2019-02-18 In Human Rights and Participatory Politics in Southeast Asia Catherine Renshaw recounts an extraordinary period of human rights institution building in Southeast Asia She begins her account in 2007 when the ten members of the Association of Southeast Asian Nations ASEAN signed the ASEAN charter committing members for the first time to principles of human rights democracy and the rule of law In 2009 the ASEAN Intergovernmental Commission on Human Rights was established with a mandate to uphold internationally recognized human rights standards In 2013 the ASEAN Human Rights Declaration was adopted as a framework for human rights cooperation in the region and a mechanism for ASEAN community building Renshaw explains why these developments emerged when they did and assesses the impact of these institutions in the first decade of their existence In her examination of ASEAN Renshaw asks how human rights can be implemented in and between states that are politically diverse Vietnam and Laos are Communist Brunei Darussalam is an Islamic sultanate Myanmar is in transition from a military dictatorship the Philippines and Indonesia are established multiparty democracies while the remaining members are less easily defined Renshaw cautions that ASEAN is limited in its ability to shape the practices of its members because it lacks a preponderance of democratic states However she concludes that in the absence of a global legalized human rights order the most significant practical advancements in the promotion of human rights have emerged from regional institutions such as the ASEAN

Advancing East Asian Regionalism Melissa Curley, Nicholas Thomas, 2012-10-12 Developments in East Asia have progressed rapidly in terms of regionalism since the 1997 crisis The end of the Asian miracle called into question not only the capacity of regional states to meet the needs of their attendant peoples but also challenged the viability of regional organizations such as ASEAN to adapt and respond to the changing circumstances Advancing East Asian Regionalism looks at the ways in which ASEAN has expanded since the crisis and evaluates the potential of East Asia to come together in a regional formation one capable of representing the region as a whole akin to the European Community It draws upon the knowledge and perspectives of academics and policy makers actively engaged in the contradictory issues of regionalism Coupling case study material on regionalism institutions and sectoral cooperation with theoretical debates on regionalization this book is an invaluable resource that pushes our

understanding of East Asian regionalism forward

The Oxford Handbook of International Law in Asia and the Pacific Simon Chesterman, Hisashi Owada, Ben Saul, 2019-09-12 The growing economic and political significance of Asia has exposed a tension in the modern international order Despite expanding power and influence Asian states have played a minimal role in creating the norms and institutions of international law today they are the least likely to be parties to international agreements or to be represented in international organizations That is changing There is widespread scholarly and practitioner interest in international law at present in the Asia Pacific region as well as developments in the practice of states The change has been driven by threats as well as opportunities Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia These evolutions join the long standing interest in parts of Asia notably South Asia in post colonial theory and the history of international law The Oxford Handbook of International Law in Asia and the Pacific brings together pre eminent and emerging specialists to analyse the approach to and influence of key states of the region as well as whether truly Asian trends can be identified and what this might mean for international order

Rising China Ron Huiskens, 2009-03-01 Asia looks and feels very different now compared to the days of the Cold War The sense that Asia now works differently can be traced to a single source the re emergence of China China was the dominant power in greater Asia for most of recorded history This historical norm was interrupted from the early 19th century too far into the past to be recognisable and readily accommodated by the actors in today s international arena A powerful China feels new and unfamiliar Arriving peacefully at mutually acceptable relationships of power and influence that are very different from those that have prevailed for the past half century will be a demanding process The world s track record on challenges of this kind is not terrific It will call for statesmanship of a consistently high order from all the major players and building the strongest possible confidence among these players that there are no hidden agendas

Crisis and Institutional Change in Regional Integration Sabine Saurugger, Fabien Terpan, 2016-03-31 Comparative regional integration has met with increasing interest over the last twenty years with the emergence or reinforcing of new regional dynamics in the EU NAFTA MERCOSUR and ASEAN This volume systematically and comparatively analyses the reasons for regional integration and stalemate in European Latin American and Asian regional integration It examines whether regional integration systems change in crisis periods or more precisely in periods of economic crises and why they change in different directions Based on a neo institutionalist research framework and rigorously comparative research design the individual chapters analyse why financial and economic crises lead to more or less integrated systems and which factors lead to these institutional changes Specifically it addresses institutional change in regional integration schemes power relations between member states and the institutions in different policy domains and change in individual or collective citizens attitudes

towards regional integration Adopting an actor centred approach the book highlights which regional integration schemes are influenced by economic and financial crises and how to explain this This text will be of key interest to scholars students and policy specialists in regional integration European Politics International Relations and Latin American and Asian studies

Norms in Conflict Anchalee Rüland, 2022-06-14 The people of Myanmar were struck by three major human rights disasters during the country's period of democratization from 2003 to 2012 the 2007 Saffron Revolution the aftermath of Cyclone Nargis in 2008 and the 2012 Rakhine riots which would evolve into the ongoing Rohingya crisis These events saw Myanmar's government categorically labeled as an offender of human rights and three powerful Southeast Asian member states Indonesia Thailand and Malaysia responded to the violations in very different ways In each case their responses to the crises were explicitly shaped by norm conflict which may be understood as a tension between international and domestic norms Their reactions were compelled by a need to address conflicting domestic and international expectations for norm compliance regarding human rights protection and non interference in internal affairs In *Norms in Conflict* Southeast Asia's Response to Human Rights Violations in Myanmar Anchalee Rüland makes sense of state action that occurs when a governing body is faced with a circumstance that is at once in line with and contrary to its own governing policies She defines five different types of response strategies to situations of norm conflict and examines the enabling factors that lead to each strategy Domestic norms are known to evolve as a country's values change over time yet Rüland argues that the old and new norms may also coexist knowledge of the underlying political context is crucial for those seeking a solid understanding of state behavior *Norms in Conflict* challenges the conventional understanding of the logic of consequences in determining state behavior advancing constructivist theory and establishing a provocative new conversation in international relations discourse

Researching Higher Education in Asia Jisun Jung, Hugo Horta, Akiyoshi Yonezawa, 2017-09-05 This book discusses higher education research as a field of study in Asia It traces the evolution of research in the field of higher education in several Asian countries and shares ideas about the evolving higher education research communities in Asia It also identifies common and dissimilar challenges across national communities providing researchers and policymakers essential new insights into the relevance of a greater regional articulation of national higher education research communities and their further integration into and contribution to the international higher education research community as a whole Group Politics in UN Multilateralism, 2020-03-31 Winner of the 2020 Friends of ACUNS Biennial Book Award *Group Politics in UN Multilateralism* provides a new perspective on diplomacy and negotiations at the United Nations Very few states act individually at the UN instead they often work within groups such as the Africa Group the European Union or the Arab League States use groups to put forward principled positions in an attempt to influence a wider audience and thus legitimize desired outcomes Yet the volume also shows that groups are not static new groups emerge in multilateral negotiations on issues such as climate security and human rights At any given moment UN multilateralism is shaped by long standing group

dynamics as well as shifting ad hoc groupings These intergroup dynamics are key to understanding diplomatic practice at the UN

Encyclopedia of the Cold War Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short to a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day

Brunei and the Future Transformation of Southeast Asia Gabriel Yit Vui Yong, A.K.M. Ahsan Ullah, 2025-08-13 This book adopts an interdisciplinary approach drawing on contributions from experts in various fields such as geography environmental and developmental studies to provide a comprehensive analysis of Brunei's role within Southeast Asia's future trajectory Brunei has often been overlooked or given only cursory coverage in regional analyses and so this book affords significant attention to the Bruneian perspective on regional development By integrating Brunei's unique historical geographical and socio economic context into the broader discussion the book offers insights into how Brunei's aspirations and challenges contribute to shaping the region's future By emphasizing local regional transformation and resilience the book provides practical insights into how Brunei and other Southeast Asian nations can navigate uncertainties adapting to global challenges such as climate change economic shifts and geopolitical dynamics and seize opportunities in the coming decades It is relevant to social scientists across disciplines focused on Southeast Asia and in the Muslim world's role in development

The United Nations and the Regions Philippe Lombaerde, Francis Baert, Tânia Felício, 2012-02-09 This unique book investigates the implications of the rising importance of supra national regional organizations for global governance in general and for the United Nations in particular It touches upon issues such as regional representation at the UN high level dialogues with regional organisations as well as the coordination of UN member states voting behaviour in the UN General Assembly and the UN Security Council The book further explores the regional dimension and coordination of UN operations in areas such as peace and security human rights and sustainable development The contributions to the book are both in depth chapters and shorter viewpoints written by a combination of academics policy makers at regional organizations and experts from international think tanks The book is essential reading for anyone interested in the future of global governance

Theorizing Southeast Asian Relations Amitav Acharya, Richard Stubbs, 2013-10-31 The recent proliferation of theories of international relations has transformed analyses of Southeast Asia's

international affairs A new generation of scholars has promoted a lively and illuminating debate which has seen the traditional realist neorealist approach which continues to hold centre stage challenged by constructivist analyses In turn constructivists have found themselves under fire from an array of competing approaches This collection engages this emerging debate It underscores the point that Southeast Asia is now an important site for applying new theories of international relations It also demonstrates that theoretical frameworks originally developed in North America and Europe have to be adapted to the specific circumstances found in places like Southeast Asia and that this process can enrich theory building The chapters in this book focus on the realist neorealist constructivist English School and critical approaches The resulting debate helps to shed light on ways of analysing Southeast Asian relations as well as on the evolution of these key theoretical frameworks This book was published as a special issue of The Pacific Review

Rivalry And Cooperation In The Asia-Pacific: The Dynamics Of A Region In Transition (In 2 Volumes) Mark Beeson,2019-09-23 Rivalry and Cooperation in the Asia Pacific provides a comprehensive and accessible introduction to the most important strategic and economic region in the world Asia Pacific is a region that is undergoing a major transformation largely as a consequence of the rise of China and its growing rivalry with the United States Whatever happens in the Asia Pacific will profoundly influence global events not just regional ones Looking ahead the region s future direction and even its name is contested and uncertain This two volume reference work by one of the world s leading analysts of regional affairs places these events in historical context and considers what they may mean for future political economic and strategic relations By focusing on the United States China and the region s most significant middle powers the book explains why and how the Asia Pacific has become the fulcrum of international events

Promoting Compliance Robert Beckman,2016-05-19 The first comprehensive and systematic analysis of ASEAN s dispute settlement and monitoring mechanisms as a means to better compliance

Indonesia's Ascent C. Roberts,A. Habir,L. Sebastian,2015-03-10 This volume explores the domestic and transnational considerations associated with Indonesia s ascent referring to its rise in terms of hard and soft power and its likely trajectory in the future The range of contributors analyse economic resources religious harmony security regional relations leadership and foreign policy
