

Chicago Manual of Style Step-By-Step

The biggest difference between Chicago Manual of Style and the other style guides is the way one creates in-text citations. Instead of including an author and page number, the writer gives each reference an Arabic numeral in superscript format. From there, the writer creates a coordinating Notes page for each numbered reference, followed by a Bibliography. See the examples attached.

Paper Layout

Use 1" margins all around. The first page of your text will be page 2 because the Title Page counts as Page 1. Use the automatic header feature to put your last name and the page number in the top right corner. Use Arabic numbering: 1, 2, 3, etc. Double space your paper. Use New Times Roman font size 12 or as the instructor directs.

Title Page or Cover Sheet

- Center the following information, starting at least 1/3 of the way down the page.
- Include the full title of your paper, your name, the course title, the instructor's name, and the date.
- Do not number this page as page 1, although it will count in your page count.
- For an example of title page, see *A Writer's Reference* page 571.¹

Documenting Sources: Endnotes versus Footnotes

PURPOSE

- Depending on which ending note style the professor wants created, you will use the Arabic numerals (1, 2, 3) in superscript right after the quotation marks for every in-text reference.
- Then you will create either a coordinating endnote or footnote. These notes tell the reader what source the referenced superscript addresses.

FORMAT

- Footnotes will appear at the bottom of each page.
- Endnotes will appear on a separate page after the body's text.
- Use regular font Arabic numbers (1, 2, 3) to list each ^{superscript} number you are referencing.

Endnotes

- Center the title, "Notes," on a new page.
- These will be single spaced.
- Use the Arabic numbers (1, 2, 3) in order to list each reference used.
- Indent the first line and not following lines.
- Authors' names will be listed first name first then last name.
- Double space between citations.
- Terms such as editor/edited by, translator/translated by volume, and edition are abbreviated.
- Parentheses are used around the publishing information.
