## **Child Poverty Love Justice And Social Responsibility:**

Child Poverty Pamela D Couture, 2007-12-01 *Child Poverty Love Justice and Social Responsibility* serves as a tool for those who wish to become instigators of love and justice in the world Developed from a nine year task force for the United Methodist Bishops Initiative on Children and Poverty *Child Poverty* explores the possibilities for the church to assume a responsibility for children with needs in the local community state nation and around the world Children who are economically poor face many of the same problems as children with more economic means yet poverty concentrates problems in the lives of poor children Problems that should be merely an inconvenience turn out to be life threatening for some children Through analysis of concrete cases and ministries *Child Poverty* demonstrates that the flourishing of poor children and all children is best supported by interdependent conditions of both love and justice Just as children and poverty are interconnected so too should be love and justice Children, Adults, and Shared Responsibilities Marcia J. Bunge, 2012-09-27 Collected essays discussing religious and ethical perspectives on children and obligations to them within the religious traditions of Judaism Christianity and Islam Contributes to intellectual inquiry regarding children in the specific areas of children's rights and childhood studies and provides resources for child advocates and those engaged in interreligious dialogue **Negotiating Childhoods**, 2020-05-18 *Negotiating Childhoods* engages in problematic positioning of the child within society by bringing childhood into the centre of our ontological and epistemological investigations These essays offer a multidisciplinary approach and explore the ways in which such issues impact on our conceptualizing of childhood and the lived realities of children *Children, Youth, and Spirituality in a Troubling World*, 2012-11 Editors Mary Elizabeth Moore and Almeda M Wright address the harsh challenging and delicate realities of children and youth who live as spiritual beings within a beautiful yet destructive world Providing a practical theological analysis of the spiritual yearnings expressions and challenges of children and youth in a world of rapid change dislocation violence and competing loyalties *Children Youth and Spirituality in a Troubling World* provides readers with a purposeful conversation on this important topic This book will serve as more than a collection it will be a genuine conversation which will in turn stir lively conversation among scholars theological students and Christian communities that seek to understand and respond more adequately in ministries to and with children and youth Contributors include Claire Bischoff Susanne Johnson Jennie S Knight Bonnie Miller McLemore Mary Elizabeth Moore Joyce Ann Mercer Veronice Miles Rodger Nishioka Evelyn Parker Luther E Smith Jr Joshua Thomas Katherine Turpin David White Almeda Wright and Karen Marie Yust *Children, Consumerism, and the Common Good* Mary M. Doyle Roche, 2009-09-17 *Children Consumerism and the Common Good* explores the impact of consumer culture on the lives of children in the United States and globally focusing on two phenomena advertising to children and child labor Christian communities have a critical role to play in securing the well being of children and challenging the cultural trends that undermine that well being Themes in the tradition of Catholic social teaching can move us beyond the tensions

between children's rights activists and those who propose a return to family values and can inform practices of resistance participation and transformation Roche argues that children are full interdependent members of the communities of which they are a part They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability The principle of the common good forms the benchmark for analyzing children's participation in the market and the ways in which market logic shapes other institutions of civil society particularly educational institutions The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children's participation in education and the economic life of their families and communities in a spirit of solidarity Virtue and the Moral Life

William Werpehowski, Kathryn Getek Soltis, 2014-07-22 The scope of interest and reflection on virtue and the virtues is as wide and deep as the questions we can ask about what makes a moral agent's life decent or noble or holy rather than cruel or base or sinful or about the conditions of human character and circumstance that make for good relations between family members friends workers fellow citizens and strangers and the sorts of conditions that do not Clearly these questions will inevitably be directed to more finely grained features of everyday life in particular contexts *Virtue and the Moral Life* Theological and Philosophical Perspectives takes up these questions In its ten timely and original chapters it considers the specific importance of virtue ethics its public significance for shaping a society's common good the value of civic integrity warfare and returning soldiers sense of enlarged moral responsibility the care for and agency of children in contemporary secular consumer society and other questions involving moral failure humility and forgiveness *Building the Resilient*

*Community* M. Jan Holton, 2011-01-01 How do some communities around the world that suffer outrageous violence and trauma manage with few outside resources not only to survive but to thrive September 11 the devastation of hurricane Katrina school shootings and other events of community violence and trauma have taught us as a nation and a church about the fundamental importance of building a caring community that fosters resilience and hope *Building the Resilient Community* takes a refreshing turn of perspective by giving priority not only to the formally educated voices of the West but to those among the most marginalized and invisible in the world refugees Based on ethnographic research in Kakuma Refugee Camp and remote villages of southern Sudan Holton presents a communal case study of a group of devoutly Christian refugees known as the Lost Boys of Sudan and asks the question Might they have something to teach us about being a resilient community As Holton investigates their deeply embedded cultural and religious beliefs that nurture a profound sense of responsibility toward others we find a communal relationship that reflects a unique sense of care and obligation This deep frame for communal care breaks through as the root of a remarkable faith narrative that serves to help mitigate symptoms of trauma and to undergird resilience and may do the same for us **The Wiley Blackwell Companion**

Under the Oak Tree Ronald J. Allen, John S. McClure, O. Wesley Allen, 2013-11-06 Two trends in the early twenty first century intersect to give this volume immediate relevance 1 The emerging postmodern ethos in North America is calling into question many things we have taken for granted including the purposes of the church and 2 our time is increasingly fractious as groups with distinct worldviews become polarized and often antagonistic Eleven noted contributors join a growing current that sees conversation as an image to refresh our thinking about the nature and purpose of the church and as a process in which individuals and communities with different perspectives come together for real understanding Under the Oak Tree employs the image of Sarah and Abraham greeting three visitors under the Oaks of Mamre as an image for the church as a community of conversation a community that opens itself to the otherness of the Bible

voices in history and tradition others in the contemporary social and ecological worlds Furthermore the book shows how conversation can lead the church to action The book takes a practical approach by exploring how conversation can shape key parts of the church's life Topics include preaching worship formation evangelism pastoral care mission and ecumenism social witness and the relationship of Christianity to other religions Foundational chapters consider God as conversational the church as community of conversation and the minister as conversation leader

**Christian Theology in Practice** Bonnie J. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life *Christian Theology in Practice* shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears

**Children's**

Voices Annemie Dillen, Didier Pollefeyt, 2010 This book deals with themes concerning religious education and the spirituality of children Throughout the seventeen chapters the book stimulates a scholarly discussion about children and theology The book makes clear that classical Christian theology can benefit from taking seriously children's voices and reflections about children The volume demonstrates how nuanced and interdisciplinary reflections can be relevant for Christian and social practices of adults with children and how these practices can influence theology This volume asks the following questions Why is it important that we hear the voices of children and what does this mean for how we treat children and relate to them What do the voices of children express How do children experience society and in particular religion and what do they have to say about it What do the voices of children mean for theology ethics and religious education In what way can our theology change when we see reality from the perspective of children This book consists of five parts In the first part the reader receives an overview of the current challenges concerning children and spirituality The two chapters of this part offer an introduction to contemporary thinking about children theology and spirituality and the place of children's voices within this scope The second part refers to biblical sources for contemporary theological reflection on children The third part contains pedagogical and ethical reflections on children as well as a view from practical theology about children in the world and the responsibility of churches This third part looks mainly at children in relation to society both in the past and in the present The fourth part focuses on children living in the family which is seen as a domestic church The fifth part takes up the theme of children's spirituality again showing children's own spiritual reflection and ways of theologizing with children in church and family contexts by communication literature and all forms of religious education and or catechesis
