Shee, 2019-05-23 First published in 1998 this volume responds to child prostitution being recognised as a major social problem in modern capitalist Taiwan It is defined both legally and socially as a problem of sexual transactions involving children and juveniles thus the issue of child maltreatment is submerged under other concerns However the main concern of this book is the protection of children from maltreatment so related socio legal measures will be examined by this parameter During the social campaigns against child prostitution structural problems such as police corruption male sexual perversion socio economic inequality and the maladjustment of aboriginal people in the modern Taiwanese society are subjugated to increasing criticism Nevertheless efforts to encounter any of them have had very limited accomplishment This book intends to show that the functions of law in the prevention and treatment of the social problem of child prostitution cannot work as intended if those structural problems are not properly tackled Suggestions are also made to address the need to reconceptualise the problem in the analytical framework of child maltreatment and to recommend the direction for reformation of policy and practice **Children**, 1957 **Marriage Markets** June Carbone, Naomi Cahn, 2014-04-01 There was a time when the phrase American family conjured up a single specific image a breadwinner dad a homemaker mom and their 2 5 kids living comfortable lives in a middle class suburb Today that image has been shattered due in part to skyrocketing divorce rates single parenthood and increased out of wedlock births But whether it is conservatives bemoaning the wages of moral decline and women s liberation or progressives celebrating the result of

women's greater freedom and changing sexual mores most Americans fail to identify the root factor driving the changes economic inequality that is remaking the American family along class lines In *Marriage Markets* June Carbone and Naomi Cahn examine how macroeconomic forces are transforming our most intimate and important spheres and how working class and lower income families have paid the highest price Just like health education and seemingly every other advantage in life a stable two parent home has become a luxury that only the well off can afford The best educated and most prosperous have the most stable families while working class families have seen the greatest increase in relationship instability Why is this so The book provides the answer greater economic inequality has profoundly changed marriage markets the way men and women match up when they search for a life partner It has produced a larger group of high income men than women written off the men at the bottom because of chronic unemployment incarceration and substance abuse and left a larger group of women with a smaller group of comparable men in the middle The failure to see marriage as a market affected by supply and demand has obscured any meaningful analysis of the way that societal changes influence culture Only policies that redress the balance between men and women through greater access to education stable employment and opportunities for social mobility can produce a culture that encourages commitment and investment in family life A rigorous and enlightening account of why American families have changed so much in recent decades *Marriage Markets* cuts through the ideological and moralistic rhetoric that drives our current debate It offers critically needed solutions for a problem that will haunt America for generations to come
