Child Welfare Revisited Child Welfare Revisited:

Child Welfare Revisited Joyce Everett, Sandra Stukes Chipungu, Bogart R. Leashore, 2004 Why are there proportionally more African American children in foster care than white children Why are white children often readily adoptable while African American children are difficult to place Are these imbalances an indication of institutional racism or merely a coincidence In this revised and expanded edition of the classic volume *Child Welfare* twenty one educators call attention to racial disparities in the child welfare system by demonstrating how practices that are successful for white children are often not similarly successful for African American children Moreover contributors insist that policymakers and care providers look at African American family life and child development from a culturally based Africentric perspective Such a perspective the book argues can serve as a catalyst for creativity and innovation in the formulation of policies and practices aimed at improving the welfare of African American children *Child Welfare Revisited* offers new chapters on the role of institutional racism and economics on child welfare the effects of substance abuse homelessness HIV AIDS and domestic violence and the internal strengths and challenges that are typical of African American families Bringing together timely new developments and information this book will continue to be essential reading for all child welfare policymakers and practitioners

Child Welfare Research Duncan Lindsey, Aron Shlonsky, 2008-04-25 During the last decade there have been major advances in research in child welfare the largest specialty within social work The focus of this research has been on improving current child welfare practices and programs that protect children from abuse and neglect The major policy and program changes in the child welfare system have been guided by these research studies spurred by federal and state emphasis on monitoring child welfare outcomes and identifying best practices This landmark collection gathers those research developments and how they have been translated into policies programs and practice in a single volume for the first time Duncan Lindsey one of the nation's foremost child welfare scholars and Aron Shlonsky have assembled a case of the giants in the field who analyze developments in adoption foster care risk assessment CPS work welfare reform poverty decision making and epidemiological studies The final section of the book details new approaches to programs designed to combat child maltreatment and child poverty This volume with its unparalleled breadth depth and up to date content will define the state of the field and serve as an invaluable reference for child welfare scholars and practitioners alike

From Child Welfare to Child Well-Being Sheila Kamerman, Shelley Phipps, Asher Ben-Arieh, 2009-10-23 This chapter provides a brief overview of the book highlighting the modest progress from child welfare to child well being reflected in these chapters and the parallel movement in Kahn's career and research as his scholarship developed over the years It then moves to explore the relationship between two overarching themes child and family policy stressing a universal approach to children and social protection stressing a more targeted approach to disadvantaged and vulnerable individuals including children and the complementarity of these strategies

Introduction To a large extent Alfred J Kahn was at the forefront of the developments in the field of child welfare services

protective services foster care adoption and family preservation and support

Overtime his scholarship moved to a focus on the broader policy domain of child and family policy and the outcomes for child wellbeing His work as is true for this volume progressed from a focus on poor disadvantaged and vulnerable children to a focus on all children He was convinced that children by definition are a vulnerable population group and that targeting all children employing a universal policy as a strategy would do more for poor children than a narrowly focused policy targeted on poor children alone As we first argued more than three decades ago Not for the Poor Alone Universalism and Income Testing in Family Policy one could target the most disadvantaged within a universal framework and this would lead to more successful results than targeting only the poor *African American Children and Families in Child Welfare* Ramona

Denby, Carla M. Curtis, 2013-10-22 This text proposes corrective action to improve the institutional care of African American children and their families calling attention to the specific needs of this population and the historical social and political factors that have shaped its experience within the child welfare system The authors critique policy and research and suggest culturally targeted program and policy responses for more positive outcomes **Racial Disproportionality in Child**

Welfare Marian S Harris, 2014-04-15 The number of children of color entering the child welfare system in the United States is disproportionately high Not only are children of color removed from parental custody and placed in care more often than their white counterparts but they also remain in care longer receive fewer services and have less contact with the caseworkers assigned to them This book identifies the practice and policy changes required to successfully address the unequal treatment of children of color in the child welfare system and their implications for social work education caseworker training and institutional change It critiques many of the existing social welfare acts and policies in terms of their treatment of children of color and it provides best practices for each decision point in the child welfare process and for cultural competency measures and training The text offers extensive measurement instruments that agencies can use to assess and correct institutional racism To improve social work education the book includes several model syllabi for the curriculum and to deepen the discipline's engagement with the issue of institutional racism the text concludes with a discussion of future directions for research and policy *Child Welfare Practice with Immigrant Children and Families* Alan

Detlaff, Rowena Fong, 2014-06-11 Children in immigrant families represent nearly one fourth of all children living in the United States As this population of children has increased so has their representation among children involved in child welfare and related systems Once immigrant families come to the attention of these systems they often have multiple and complex needs that must be addressed to ensure children's safety and wellbeing Culturally competent practice with Latino Asian and African immigrants requires that professionals understand the impact of immigration and acculturation on immigrant families to conduct adequate assessments and provide interventions that respond appropriately to their needs Professionals also need to be familiar with federal and state policies that affect immigrant families and how those policies

may affect service delivery At the system level child welfare agencies need to educate and train a culturally competent workforce that responds appropriately to children and families from diverse cultures This book addresses these critical issues and provides recommendations for the development of culturally competent assessment intervention and prevention activities in child welfare agencies This information can be used as a resource by child welfare administrators practitioners and students to improve the child welfare system s response to immigrant children and families and promote culturally competent practice This book was published as a special issue of the Journal of Public Child Welfare Child Welfare Supervision Cathryn C. Human Behavior in the Social Environment from an African-American Perspective Letha A

See, 2013-02-01 Human Behavior in the Social Environment from an African American Perspective Second Edition is an updating of the classic text that presents leading black scholars discussing complex human behavior problems faced by African Americans in today's society. This new edition provides fresh theories and the latest practical interventions not in the first edition that show for example how to enhance a client's coping strategies and resilience by focusing on their strengths rather than their weaknesses. This edition includes a new foreword by former Surgeon General Dr. Joycelyn Elders. Human Behavior in the Social Environment from an African American Perspective Second Edition acquaints practitioners with the Black experience and provides the latest innovative methods of working with this diverse population. This edition also offers new insights on evaluating practice initiatives. Experts and scholars explore and interpret individual and group behaviors, the strength and resilience of the black family, the stresses and problems affecting children, the significant problem of the affects of colorism, the self-esteem and identity issues of biracial children, violence in the criminal justice system, the HIV/AIDS pandemic, the stress and behaviors resulting from belonging to the armed services, and other behavior stemming from progression through the life cycle. Chapters include charts and tables of data, extensive references, and study questions for deeper study for students. Topics in Human Behavior in the Social Environment from an African American Perspective Second Edition include the importance of the consideration of the black experience in analyzing black behavior, behavior as a response to a hostile social system, the black church's role in leading African Americans, resiliency perspective as a positive force, the use of strength behaviors for socialization and survival strategies to strengthen roles of fathers in African American families, military culture as a microcosm of the wider society, the psychological effects of skin color on self-esteem, the No Child Left Behind Act of 2001 and its effects, refreshing social work practice to better meet the needs of African American girls, examination of a study on the help-seeking behaviors of young African American males, empirically based creative intervention strategies to alleviate black on black crime, analysis of street gang behaviors with a program to address it, influences of hip hop culture, strategies to lessen substance abuse in children, practices that help assist administrators and social workers to lessen school violence. Human Behavior in the Social Environment from an African American Perspective Second Edition is a supplementary text that is valuable for undergraduate and graduate students, human service practitioners, mental health and medical counselors, policymakers, school officials, and criminal justice personnel.

"For the Good of the Children" Racism, Red Tape and the Myth of Family Reunification Dianne Dietrich Lyday, 2015. The book is a narrative of one family's entanglement with the child welfare system. As the title suggests, it was a nightmare of bureaucratic red tape, personal grudges, abuse of power, and most importantly, a powerful example of interpersonal and institutional racism. The manuscript chronicles the day-to-day mind-boggling decisions of child welfare authorities and agents, the rules that only make sense on a legislator's legal pad, and the contradictions and misrepresentations that drove a relatively privileged family to despair.
