Childbirth and Authoritative Knowledge Robbie Davis-Floyd, Carolyn F. Sargent, 1997-08-27 This benchmark collection of cross cultural essays on reproduction and childbirth extends and enriches the work of Brigitte Jordan who helped generate and define the field of the anthropology of birth The authors focus on authoritative knowledge the knowledge that counts on the basis of which decisions are made and actions taken highlights the vast differences between birthing systems that give authority of knowing to women and their communities and those that invest it in experts and machines Childbirth and Authoritative Knowledge offers first hand ethnographic research conducted by anthropologists in sixteen different societies and cultures and includes the interdisciplinary perspectives of a social psychologist a sociologist an epidemiologist a staff member of the World Health Organization and a community midwife Exciting directions for further research as well as pressing needs for policy guidance emerge from these illuminating explorations of authoritative knowledge about birth This book is certain to follow Jordan s Birth in Four Cultures as the definitive volume in a rapidly expanding field

Childbirth Across Cultures Helaine Selin, 2009-12-01 This book will explore the childbirth process through globally diverse perspectives in order to offer a broader context with which to think about birth We will address multiple rituals and management models surrounding the labor and birth process from communities across the globe Labor

and birth are biocultural events that are managed in countless ways We are particularly interested in the notion of power Who controls the pregnancy and the birth Is it the hospital the doctor or the in laws and in which cultures does the mother have the control These decisions regarding place of birth position who receives the baby and even how the mother may or may not behave during the actual delivery are all part of the different ways that birth is conducted One chapter of the book will be devoted to midwives and other birth attendants There will also be chapters on the Evolution of Birth on Women s Birth Narratives and on Child Spacing and Breastfeeding This book will bring together global research conducted by professional anthropologists midwives and doctors who work closely with the individuals from the cultures they are writing about offering a unique perspective direct from the cultural group Birthing Autonomy Nadine Edwards,2013-04-03

Birthing Autonomy brings some balance to the difficult arguments that arise from debates about home births and focuses on women s views and their experiences of planning home births It provides an in depth exploration of how women make decisions about home births and what aspects matter most to them Comparing how differently the pros and cons of home births are constructed and contemplated by mothers and by the medical profession the book looks at how current obstetric thinking and practices can disempower and harm women emotionally and spiritually as well as physically Written in an accessible style this book is enlightening for student and practicing midwives and obstetricians as well as researchers and students of nursing medical sociology health studies gender studies feminist practitioners and theorists It will also be invaluable to expectant mothers who want to be more informed about the choices they are facing and the wider context within which their birth options are considered The Routledge Handbook of Anthropology and Reproduction Sallie Han,Cecília Tomori,2021-11-09

The Routledge Handbook of Anthropology and Reproduction is a comprehensive overview of the topics approaches and trajectories in the anthropological study of human reproduction The book brings together work from across the discipline of anthropology with contributions by established and emerging scholars in archaeological biological linguistic and sociocultural anthropology Across these areas of research consideration is given to the contexts conditions and contingencies that mark and shape the experiences of reproduction as always gendered classed and racialized Over 39 chapters a diverse range of international scholars cover topics including Reproductive governance stratification justice and freedom Fertility and infertility Technologies and imaginations Queering reproduction Pregnancy childbirth and reproductive loss Postpartum and infant care Care kinship and alloparenting This is a valuable reference for scholars and upper level students in anthropology and related disciplines associated with reproduction including sociology gender studies science and technology studies human development and family studies global health public health medicine medical humanities and midwifery and nursing **Birthing Techno-Sapiens** Robbie Davis-Floyd,2021-03-30

This ground breaking book challenges us to re think ourselves as techno sapiens a new species we are creating as we continually co evolve ourselves with our technologies While some of its chapters are imaginary they are all empirically grounded in ethnography

and richly theorized from diverse disciplines The authors go far beyond a techno optimism vs techno pessimism stance stretching our thinking about birthing techno sapiens to consider not only how our cyborgian reproductive lives are constrained and or enabled by technology but are also about emotions and spirit The world of reproductive health care and particularly that of genetic engineering is developing exponentially and current challenges are vastly different from those of a decade ago The book is provocative intended to generate debate ideas and future research and to influence ethical policy and practice in human techno reproduction It will be of interest across the social sciences and humanities for reproductive scholars bioethicists techno scientists and those involved in the development and delivery of maternity services Sexual and Reproductive Health Paul Van Look,Kristian Heggenhougen,Stella R. Quah,2011-01-10 This volume presents the highlights of current global thinking about sexual and reproductive health Major changes have taken place in the last 15 years in the way decision makers think about the subject and the manner in which programmes deliver comprehensive sexual and reproductive health services The turning point was the International Conference on Population and Development ICPD held in Cairo Egypt in 1994 ICPD was a watershed for several reasons First more than in any of the preceding United Nations population conferences the issue of population was clearly placed as being central to sustainable development Second the narrow focus on population growth the population bomb which had been a neo Malthusian concern and preoccupation ever since the Club of Rome published its 1972 report Limits to Growth was replaced by the comprehensive concept of sexual and reproductive health Third and linked to the definition and introduction of the reproductive health concept was the strong call for a paradigm shift away from a policy environment driven by demographic considerations sometimes to the point of using coercion in family planning services in order to reach demographic targets to an environment that recognized the right of individuals to make their own choices And last but not least ICPD as well as the Fourth World Conference on Women FWCW held the following year in Beijing People s Republic of China strongly emphasized that the rights of women and men to good sexual and reproductive health are firmly grounded in universal human rights Provided by publisher **Reconceiving the Second Sex** Marcia C. Inhorn,Maruska la Cour Mosegaard,Tine Tjørnhøj-Thomsen,Helene Goldberg,2009-08-01 Extensive social science research particularly by anthropologists has explored women s reproductive lives their use of reproductive technologies and their experiences as mothers and nurturers of children Meanwhile few if any volumes have explored men s reproductive concerns or contributions to women s reproductive health Men are clearly viewed as the second sex in reproduction This volume argues that the marginalization of men is an oversight of considerable proportions It sheds new light on male reproduction from a cross cultural global perspective focusing not only upon men in Europe and America but also those in the Middle East Asia and Latin America Both heterosexual and homosexual married and unmarried men are featured in this volume which assesses concerns ranging from masculinity and sexuality to childbirth and fatherhood

Blessed Events Pamela E. Klassen, 2021-06-08 Blessed Events explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families Pamela Klassen introduces a surprisingly diverse group of women in their own words while also setting their birth stories within wider social political and economic contexts In doing so she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions between conservative and feminist women and by taking childbirth seriously as a religious act Most American women who have a choice give birth in a hospital and request pain medication Yet enough women choose and advocate unmedicated home birth and do so for carefully articulated reasons social resistance among them to constitute a movement Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess centered spirituality defy majority opinion the medical establishment and sometimes the law to have their babies at home In considering their interpretations including their critiques of the dominant medical model of childbirth and their views on labor pain she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth Throughout she identifies tensions and

affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women What does home birth a woman centered movement working to return birth to women s control mean in practice for women s gender and religious identities Is this supreme valuing of procreation and motherhood constraining or does it open up new realms of cultural and social power for women By asking these questions while remaining cognizant of religion s significance *Blessed Events* challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is lived in contemporary America

Birth By Design Raymond De Vries,Cecilia Benoit,Edwin van Teijlingen,Sirpa Wrede,2002-05-03 This collection of essays contains leading research in maternity care from Europe the United States and Canada to discuss systems of care for pregnancy and childbirth Birth By Design focuses on the practical side of good social science research This is a ground breaking work that looks not only at maternity but also the act of childbirth

Mainstreaming Midwives Robbie Davis-Floyd,Christine Barbara Johnson,2012-12-06 Providing insights into midwifery a team of reputable contributors describe the development of nurse and direct entry midwifery in the United States including the creation of two new direct entry certifications the Certified Midwife and the Certified Professional Midwife and examine the history purposes complexities and the political strife that has characterized the evolution of midwifery in America Including detailed case studies the book looks at the efforts of direct entry midwives to achieve legalization and licensure in seven states New York Florida Michigan Iowa Virginia Colorado and Massachusetts with varying degrees of success

Unhealthy Health Policy Arachu Castro,Merrill Singer,2004-09-17 This new collection turns a critical anthropological eye on the nature of health policy internationally The authors reveal that in light of prevailing social inequalities health policies may intend to protect public health but in fact they often represent significant structural threats to the health and well being of the poor ethnic minorities women and other subordinate groups The volume focuses on the anthropology of policy which is concerned with the process of decision making the influences on decision makers and the impact of policy on human lives This collaboration will be a critical resource for researchers and practitioners in medical anthropology applied anthropology medical sociology minority issues public policy and health care issues

Contemporary Socio-Cultural and Political Perspectives in Thailand Pranee Liamputtong,2014-01-13 This volume examines contemporary Thailand It captures aspects of Thai society that have changed dramatically over the past years and that have turned Thailand into a society that is different from what most people outside the country know and expect The social transition of Thailand has been marked by economic growth population restructuring social and cultural development political movements and many reforms including the national health care system The book covers the social cultural and economic changes as well as political situations It discusses both historical contexts and emerging issues It includes chapters on social and public health concerns and on ethnicity gender sexuality and social class Most chapters use information from empirical based and historical research They describe real life experiences of the contributors and Thai people who participated in the research

Birth as an American

Rite of Passage Robbie Davis-Floyd, 2022-05-05 This classic book first published in 1992 and again in 2003 has inspired three generations of childbearing people birth activists and researchers and birth practitioners midwives doulas nurses and obstetricians to take a fresh look at the standard procedures that are routinely used to manage American childbirth It was the first book to identify these non evidence based obstetric interventions as rituals that enact and transmit the core values of the American technocracy thereby answering the pressing question of why these interventions continue to be performed despite all evidence to the contrary This third edition brings together Davis Floyd s insights into the intense ritualization of labor and birth and the technocratic humanistic and holistic models of birth with new data collected in recent years

Women and Cannabis Ethan Russo, Melanie Creagan Dreher, Mary Lynn Mathre, 2002 *Changing Birth in the Andes* Lucia Guerra-Reyes, 2019-07-15 In 1997 when Lucia Guerra Reyes began research in Peru she observed a profound disconnect between the birth care desires of health personnel and those of indigenous women Midwives and doctors would plead with her as the anthropologist to educate women about the dangerous inadequacy of their traditions They failed to see how their aim of achieving low rates of maternal mortality clashed with the experiences of local women who often feared public health centers where they could experience discrimination and verbal or physical abuse Mainly the women and their families sought a good birth which was normally a home birth that corresponded with Andean perceptions of health as a balance of bodily humors Peru s Intercultural Birthing Policy of 2005 was intended to solve these longstanding issues by recognizing indigenous cultural values and making biomedical care more accessible and desirable for indigenous women Yet many difficulties remain Guerra Reyes also gives ethnographic attention to health care workers She explains the class and educational backgrounds of traditional birth attendants and midwives interviews doctors and health care administrators and describes their interactions with local families Interviews with national policy makers put the program in context

Reproductive Agency, Medicine and the State Maya Unnithan-Kumar, 2005-11-01 Recent years have seen many changes in human reproduction resulting from state and medical interventions in childbearing processes Based on empirical work in a variety of societies and countries this volume considers the relationship between reproductive processes of fertility pregnancy childbirth and the postpartum period on the one hand and attitudes medical technologies and state health policies in diverse cultural contexts on the other **Ways of Knowing about Birth** Robbie Davis-Floyd, 2017-10-11 There is no other living scholar with Davis Floyd s solid roots activism and scholarly achievements on the combined subjects of childbirth midwifery obstetrics and medicine *Ways of Knowing about Birth* brings together an astounding array of her most popular and essential works all updated for this volume spanning over three decades of research and writing from the perspectives of cultural medical and symbolic anthropology The 16 essays capture Robbie Davis Floyd s unique voice which brims with wisdom compassion and deep understanding Intentionally cast as stand alone pieces the chapters offer the ultimate in classroom flexibility and include discussion questions and recommended films
