Handbook of Moral and Character Education Larry Nucci,Darcia Narvaez,2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more

Encyclopaedia of Religion and Ethics James Hastings,John Alexander Selbie,Louis Herbert Gray,1911

The End of Morality Richard Garner,Richard Joyce,2018-12-18 According to the moral error theorist all moral judgments are mistaken The world just doesn t contain the properties and relations necessary for these judgments to be true But what should we actually do if we decided that we are in this radical and unsettling predicament that morality is just a widespread and heartfelt illusion One suggestion is to eliminate all talk and thought of morality abolitionism Another is to carry on believing it anyway

conservationism And yet another is to treat morality as a kind of convenient fiction fictionalism We tend to think of moral thinking as valuable and useful e g for motivating cooperative behavior but we can also recognize that it can be harmful e g hindering compromise and even disastrous e g inspiring support for militaristic propaganda Would we be better off or worse off if we stopped basing decisions on moral considerations This is a collection of twelve brand new chapters focused on a critical examination of the options available to the moral error theorist After a general introduction outlining the topic explaining key terminology and offering suggestions for further reading the chapters address questions like Is it true that the more that people are motivated by moral concerns the more likely it is that society will be elitist authoritarian and dishonest Is an appeal to moral values a useful tool for helping resolve conflicts or does it actually exacerbate conflicts Would it even be possible to abolish morality from our thinking If we were to accept a moral error theory would it be feasible to carry on believing in morality in everyday contexts Might moral discourse be usefully modeled on familiar metaphorical language where we can convey useful and important truths by uttering falsehoods Does moral thinking support or undermine a commitment to feminist goals What role do moral judgments play in addressing important decisions affecting climate change The End of Morality Taking Moral Abolitionism Seriously is the first book to thoroughly address these and other questions systematically investigating the harms and benefits of moral thought and considering what the world might be like without morality

Primary School Child, The Namita Ranganathan, 2000 Based on many years of teaching experience and drawing on her research among rural and urban children this book is addressed to students of education and psychology and can be used as a core text Dr Ranganathan discusses the theories of education and the philosophical orientation of important thinkers She studies the physical emotional social cognitive and moral development of children as also their needs and interests She also deals with the situation of exceptional children The author has taken care to ensure the book is sensitive to issues of gender class and caste Each chapter ends with a summary of the main ideas dealt with therein The book also contains a select reading list

Educational Review ,1926 **Educational Review** Nicholas Murray Butler, Frank Pierrepont Graves, William McAndrew, 1926 Vols 19 34 include Bibliography of education for 1899 1906 compiled by James I Wyer and others

The Child in Society Hazel R Wright, 2014-11-17 The child has a very special place in society and society defines and shapes childhood Understanding childhood is essential to early years students and this book offers a great introduction Taking a thematic approach chapters cover Historical and Cultural Perspectives Policy and Economic Perspectives Psychological and Biological Perspectives Contemporary Views Each chapter prompts you to reflect on core issues and interrogate your practice and attitudes towards children in your care This fantastic foundation will help you to begin to understand the relationship between the child and society

Memory and Spatiality in Post-Millennial Spanish Narrative Lorraine Ryan, 2016-04-22 Focusing on literary texts produced from 2000 to 2009 Lorraine Ryan examines the imbrication between the preservation of Republican memory and the transformations of Spanish public space

during the period from 1931 to 2005 Accordingly Ryan analyzes the spatial empowerment and disempowerment of Republican memory and identity in Dulce Chac n s Cielos de barro ngeles L pez s Martina la rosa n mero trece Alberto M ndez s Los girasoles ciegos Carlos Ruiz Zaf n s La sombra del viento Emili Teixidor s Pan negro Bernardo Atxaga s El hijo del acordeonista and Jos Mar a Merino s La sima The interrelationship between Republican subalternity and space is redefined by these writers as tense and constantly in flux undermined by its inexorable relationality which leads to subjects endeavoring to instill into space their own values Subjects erode the hegemonic power of the public space by articulating in an often surreptitious form their sense of belonging to a prohibited Republican memory culture In the democratic period they seek a categorical reinstatement of same on the public terrain Ryan also considers the motivation underlying this coterie of authors commitment to the issue of historical memory an analysis which serves to amplify the ambits of existing scholarship that tends to ascribe it solely to postmemory

[Making a Moral Society](#) Richard M Reitan,2009-11-03 This innovative study of ethics in Meiji Japan 1868 1912 explores the intense struggle to define a common morality for the emerging nation state In the Social Darwinist atmosphere of the time the Japanese state sought to quell uprisings and overcome social disruptions so as to produce national unity and defend its sovereignty against Western encroachment Morality became a crucial means to attain these aims Moral prescriptions for re ordering the population came from all segments of society including Buddhist Christian and Confucian apologists literary figures and artists advocates of natural rights anarchists and women defending nontraditional gender roles Each envisioned a unity grounded in its own moral perspective It was in this tumultuous atmosphere that the academic discipline of ethics rinrigaku emerged not as a value neutral objective form of inquiry as its practitioners claimed but a state sponsored program with its own agenda After examining the broad moral space of civilization Richard Reitan turns to the dominant moral theories of early Meiji and the underlying epistemology that shaped and authorized them He considers the fluidity of moral subjectivity the constantly shifting nature of norms to which we are subject and how we apprehend resist or practice them by juxtaposing rinrigaku texts with moral writings by religious apologists By the beginning of the 1890s moral philosophers in Japan were moving away from the empiricism and utilitarianism of the prior decade and beginning to place spirit at the center of ethical inquiry This shift is explored through the works of two thinkers Inoue Tetsujiro 1856 1944 and Nakashima Rikizo 1858 1918 the first chair of ethics at Tokyo Imperial University Finally Reitan takes a detailed look at the national morality movement kokumin dotoku and its close association with the state before concluding with an outline of some conceptual linkages between the Meiji and later periods With its highly original thesis clear and sound methodology and fluid prose Making a Moral Society will be welcomed by scholars and students of both Japanese intellectual history and ethics in general

[Mouse Morality](#) Annalee R. Ward,2010-01-01 2004 Clifford G Christians Ethics Research Award The Carl Couch Center for Social and Internet Research Kids around the world love Disney animated films and many of their parents trust the Disney corporation to provide

wholesome moral entertainment for their children Yet frequent protests and even boycotts of Disney products and practices reveal a widespread unease with the sometimes mixed and inconsistent moral values espoused in Disney films as the company attempts to appeal to the largest possible audience In this book Annalee R Ward uses a variety of analytical tools based in rhetorical criticism to examine the moral messages taught in five recent Disney animated films The Lion King Pocahontas The Hunchback of Notre Dame Hercules and Mulan Taking the films on their own terms she uncovers the many mixed messages they purvey for example females can be leaders but male leadership ought to be the norm stereotyping is wrong but black means evil historical truth is valued but only tell what one can sell etc Adding these messages together Ward raises important questions about the moral ambiguity of Disney s overall worldview and demonstrates the need for parents to be discerning in letting their children learn moral values and life lessons from Disney films
