**VIOLENCE AND
THE VIOLENT IN
LATIN AMERICA**

"Rosenberg presents vivid portraits of the people 'who made cruelty possible' in Colombia, Argentina, Chile, El Salvador, Nicaragua, and Peru. Through them she succeeds in making the grisly and fleeting headlines from these places understandable."

Children Of Cain Violence And The Violent In Latin America:

Children of Cain Tina Rosenberg, 1991 **Children of Cain** Tina Rosenberg, 1991 An honest judge in Medellin a Maoist guerilla of Peru s Shining Path the fair haired Angel of Death in Argentina s Dirty War the pool party rich of El Salvador the disabused revolutionaries of Nicaragua and the ordinary Chileans who became silent partners in Pinochet s dictatorship these people live in Latin America but their stories illuminate the human face of violence all over the world Tina Rosenberg spent five years trying to understand their world and learning to live with these children of Cain Their stories are disturbing precisely because these people are not monsters the faces in Children of Cain are not those of strangers **A History of Political Murder in Latin America** W. John Green, 2015-04-27 This expansive history depicts Latin America s pan regional culture of political murder Unlike typical studies of the region which often focus on the issues or trends of individual countries this work focuses thematically on the nature of political murder itself comparing and contrasting its uses and practices throughout the region W John Green examines the entire system of political murder the methods and justifications the perpetrators employ the victims and the consequences for Latin American societies Green demonstrates that elite and state actors have been responsible for most political murders assassinating the leaders of popular movements and other messengers of change Latin American elites have also often targeted the potential audience for these messages through the region s various dirty wars In spite of regional differences elites across the region have displayed considerable uniformity in justifying their use of murder imagining themselves in a class war with democratic forces While the United States has often been complicit in such violence Green notes that this has not been universally true with US support waxing and waning A detailed appendix exploring political murder country by country provides an additional resource for readers **Latin America** R. Williamson, 2016-04-30 This is a broad introduction to Latin America ranging from religion and history to literature and education with a focus on cultures and cultural change With lively prose and a variety of informative inserts Williamson draws the reader in to the diverse realities of a continent in flux holding it together by a strong theoretical framework **The Community of the Weak** Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply

embedded in pastoral ministry to tell its postmodern story **Historical Dictionary of the Dirty Wars** David Kohut, Olga Vilella, 2016-11-16 The Historical Dictionary of the Dirty Wars covers the period 1954-1990 in South America when authoritarian regimes waged war on subversion both real and imagined. The term dirty war (*guerra sucia*) though originally associated with the military dictatorship in Argentina from 1976 to 1983 has since been applied to neighboring dictatorships in Paraguay (1954-1989), Brazil (1964-1985), Bolivia (1971-1981), Uruguay (1973-1985), and Chile (1973-1990). Although the concept is by no means peculiar to Latin America, the term has become a byword for state-sponsored repression anywhere in the world these regimes were among its most notorious practitioners. In the mid-1970s they joined forces along with Ecuador and Peru to create Operation Condor, a top secret network of military dictatorships that kidnapped, tortured, and disappeared one another's political opponents. Their death squads operated both nationally and internationally, sometimes beyond the region. This third edition of *Historical Dictionary of the Dirty Wars* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on the countries themselves, guerrilla and political movements that provoked though by no means exonerated governmental reaction, leading guerrilla, human rights, military, and political figures, local, regional, and international human rights organizations, expressions of cultural resistance, art, film, literature, music, and theater, and artistic figures, filmmakers, novelists, and playwrights whose works attempted to represent or resist the period of repression. This book is an excellent access point for students, researchers, and anyone wanting to know more about the dirty wars of South America. **Disappearing Acts** Diana Taylor, 1997 Taylor uses performance theory to explore how public spectacle both builds and dismantles a sense of national and gender identity. Here nation is understood as a product of communal imaginings that are rehearsed, written, and staged, and spectacle is the desiring machine at work in those imaginings. Taylor argues that the founding scenario of Argentineness stages the struggle for national identity as a battle between men fought on over and through the feminine body of the Motherland. She shows how the military's representations of itself as the model of national authenticity established the parameters of the conflict in the 70s and 80s, feminized the enemy, and positioned the public, limiting its ability to respond. **Terrorism in Perspective** Sue Mahan, Pamela L. Griset, 2008 Introduction What is terrorism? History of terrorism International terrorism Terrorist tactics around the globe Homegrown terrorism in the United States Media coverage of terrorism Women terrorists Technology and terrorism Counterterrorism **Justice for Victims** Inge Vanfraechem, Antony Pemberton, Felix Mukwiza Ndahinda, 2014-06-27 Justice for Victims brings together the world's leading scholars in the fields of study surrounding victimization in a pioneering international collection. This book focuses on the current study of victims of crime, combining both legal and social scientific perspectives, articulating both in new directions and questioning whether victims really do have more rights in our modern world. This book offers an interdisciplinary approach covering large-scale political victimization, terrorist victimization, sexual victimization, and routine victimization. Split into three sections, this book provides

in depth coverage of victims rights transitional justice and victims perspectives and trauma resilience and justice Victims rights are conceptualised in the human rights framework and discussed in relation to supranational international and regional policies The transitional justice section covers victims of war from those caught between peace and justice as well as post conflict justice The final section focuses on post traumatic stress connecting psychological and anthropological perceptions in analysing collective violence mass victimization and trauma This book addresses challenging and new issues in the field of victimology and the study of transitional and restorative justice As such it will be of interest to researchers practitioners and students interested in the fields of victimology transitional justice restorative justice and trauma work

Solving Tough Problems Adam Kahane,2008-12-03 Tough problems usually don t get solved peacefully They either don t get solved at all they get stuck or they get solved by force These frustrating and frightening outcomes occur all the time Families replay the same argument over and over or a parent lays down the law Organizations keep returning to a familiar crisis or a boss decrees a new strategy Communities split over a controversial issue or a politician dictates the answer Countries negotiate to a stalemate or they go to war Either the people involved in a problem can t agree on what the solution is or the people with power authority money guns impose their solution on everyone else The way we talk and listen expresses our relationship with the world When we fall into the trap of telling and of not listening we close ourselves off from being changed by the world and we limit ourselves to being able to change the world only by force But when we talk and listen with an open mind and an open heart and an open spirit we bring forth our better selves and a better world From the Introduction **Academic Freedom at the Dawn of a New Century** Evan Gerstmann,Matthew Justin Streb,2006 This is a provocative examination of the current state of academic freedom in the United States and around the world

Enemies of Humanity I. Land,2008-05-26 This collection of essays offers a fresh perspective on the definition and origins of terrorism broadening the field to include slave revolts and urban tensions and considering how the war on terrorism had already matured by 1870 as a way to justify often bloody campaigns against labor unions nationalist freedom fighters and reformers

Solving Tough Problems (EasyRead Edition) Adam Kahane,2011 **Solving Tough Problems (EasyRead Super Large 20pt Edition)** Adam Kahane,2007 Adam Kahane spent years working in the world s hotspots and came away with a new understanding of how to resolve conflict in a way that seems reasonable and doable to all parties The result is *Solving Tough Problems* Written in a relaxed persuasive style this is not a how to book with glib answers but rather a very personal story of the author s progress from a young expert convinced of the need to provide cold correct answers to an effective facilitator of positive change by learning how to create environments that enable new ideas and creative **Introduction to Criminology** Frank E. Rieber, 2013-06-29 Toward the Psychology of Malefaction This is a book about human wickedness I would like to identify two obstacles in the path that this book seeks to traverse One obstacle is an inappropriate scientism the other is an inappropriate moralism There is a kind of scientism that prevents us from seeing that human beings are responsible for what happens on the planet It is a view that in the name of science downplays the role of human beings as agents in what takes place This view is often expressed in a paradigm that regards human conduct as the dependent variable while anything that impinges on the human being is considered the independent variable The paradigm further takes the relationship between the dependent and independent variable to be the result of natural law It characteristically ignores the possibility that individual or collective decision or policy generated by human beings and not by natural law is and can be regulatory of conduct

Rethinking the Economics of War Cynthia J. Arnson, I. William Zartman, 2005-10-12 This collection of essays questions the adequacy of explaining today's internal armed conflicts purely in terms of economic factors and re-establishes the importance

of identity and grievances in creating and sustaining such wars Countries studied include Lebanon Angola Colombia and Afghanistan *Taking Back the Streets* Temma Kaplan, 2004-02-16 Toward the end of the twentieth century in places ranging from Latin America and the Caribbean to Europe the United States South Africa Nigeria Iran Japan China and South Asia women and young people took to the streets to fight injustices they believed they could not confront in any other way In the hope of changing the way politics is done they called officials to account for atrocities they had committed and unjust laws they had upheld They attempted to drive authoritarian governments from power by publicizing the activities these officials tried to hide This powerful book takes us into the midst of these movements to give us a close up look at how a new generation bore witness to human rights violations resisted the efforts of regimes to shame and silence young idealists and created a vibrant public life that remains a vital part of ongoing struggles for democracy and justice today Through personal interviews newspaper accounts family letters and research in the archives of human rights groups this book portrays women and young people from Argentina Chile and Spain as emblematic of others around the world in their public appeals for direct democracy An activist herself author Temma Kaplan gives readers a deep and immediate sense of the sacrifices and accomplishments the suffering and the power of these uncommon common people By showing that mobilizations sometimes accompanied by shaming rituals were more than episodic more than ways for societies to protect themselves against government abuses and even state terrorism her book envisions a creative political sphere a fifth estate in which ordinary citizens can reorient the political practices of democracy in our time
