## **Executive Politics Semi Presidential Regimes Distribution:**

Executive Politics in Semi-Presidential Regimes Martin Carrier, 2015-12-16 This book analyzes the power variations between political executives in semi presidential regimes It contrasts institutional partisan and extra institutional explanations and identifies patterns of change for the power distribution between presidents and prime ministers It provides an empirical analysis of selected case studies and demonstrates the necessity to understand power variations in a configurative perspective exposing the limits of institutional design explanations This study ultimately aims to contribute to both the literature on semi presidentialism and to the literature on democratic regimes by providing a systematic assessment of these different configurations in both mature and emerging democracies To explore this phenomenon this research tests the key factors of power variation proposed in the semi presidential literature on the power relationship between presidents and prime ministers mainly in France s Fifth Republic and post 1993 Ukraine but also to a lesser extent in Finland post 1993 Russia and post 1990 Poland

*Semi-Presidential Policy-Making in Europe* Tapio Raunio, Thomas Sedelius, 2019-05-17 This book explores how power sharing between the president and the prime minister works in semi presidential regimes In contrast to much of the existing comparative work on semi presidentialism the book emphasizes the role of institutional coordination at the most concrete level of executive policy making and asks how institutional coordination between the president and prime minister influences presidential activism and the balance of power within the executive The authors develop a tentative framework embedded in institutionalism and based on four strands of research semi presidentialism public administration political leadership and foreign policy analysis which is subsequently applied to the cases of Lithuania Romania and Finland Given the political challenges facing many semi presidential countries the study ultimately seeks to identify institutional solutions that facilitate power sharing and successful policy making

*Food Policy and Food Security* Stephen K. Wegren, Alexander Nikulin, Irina Trotsuk, 2018-03-28 This book provides a comprehensive analysis of Russian food policy Food policy is defined as the way government policy influences food production and distribution Russia s food policy is important for several reasons The first and most obvious reason is that a dysfunctional food policy is symptomatic of larger political and societal problems A failing food policy is often the precursor to political instability Russian food policy is also important is due to the agricultural recovery since 2004 that has allowed Russia to become self sufficient in grain production Being food sufficient in grain means that Russia is not drawing upon global grain supply Even more important Russia now produces surpluses and has become a global grain supplier Moreover the agricultural recovery has made the country food secure traditionally defined as having enough food for a healthy life An analysis of food policy reveals that the structure of food production has changed with the emergence of mega farms called agroholdings that are horizontally and vertically integrated Agroholdings represent a concentration of capital and land with a small number of farms producing large percentages of total food output The book explores alternatives to the industrial agricultural model by discussing different

variants of sustainable agriculture A final importance of Russian food policy concerns food trade Russia has become more protectionist since 2012 The food embargo against Western nations 2014 2017 is one example so too is import substitution that is a core component of food policy The book demonstrates the politicalization of external food trade Food trade and denial of access to the Russian market is used as an instrument of foreign policy to punish countries with whom Russia has disagreements Current Russian policymakers have food resources to augment support and extend national interests abroad Russia historically has cycled through periods of integration and isolation from the West This book raises the question whether a new normal has arisen that is characterized by the permanent withdrawal from integration as evidenced by its nationalist and protectionist food policy The book is entirely original rich in detail and broad in scope It is based on field work survey data a wide reading of primary sources and the secondary literature all of which are linked to important policy questions in development studies and food studies It is destined to become a classic book on Russian food policy

The Russian Project of Eurasian Integration Nataliya A. Vasilyeva, Maria L. Lagutina, 2016-09-14 Modern trends in geopolitics have raised serious questions about the future global and regional architecture of the world system In the case of the Eurasian Economic Union these questions bring up important issues for debate What is the Eurasian Economic Union What theoretical concepts could be applied for modern Eurasian integration Why is the Eurasian Economic Union forming Most importantly what prospects does this Union have in the framework of the modern geopolitical situation This book explores the process of Eurasian integration in the modern global world The creation of the Eurasian Economic Union has become a topical issue in modern Russian foreign policy Neo Eurasianist ideas can be viewed as a geopolitical basis and rationale for the Eurasian Economic Union that may constitute an integrational structure consolidating the post Soviet area and neighboring regions This book argues that Eurasia is a region representing an organic integrity due to close mentality common and centuries long history common language of international communication a multitude of economic ties and an identical level of technological development across all countries within the post Soviet area Yet advancement of the Eurasian integration idea into practical implementation should have new objective suppositions as well These are defined by the contemporary economic political and ethno cultural processes in the post Soviet space

**Changing Regional Alliances for China and the West** David Lane, Guichang Zhu, 2017-11-15 Since the end of the World War II nation states have formed regions to give them some protection from the processes of globalization and internationalization Against this background the contributors consider the position of China in the processes of regional competitive interdependency This book offers analysis at three levels internal regional and global Chapters consider China's position in regional post socialist associations such as the BRICS the Shanghai Cooperation Organization SCO the Eurasian Economic Union EEU the Silk Road Economic Belt and the One Belt One Road OBOR Contributors discuss how membership in these regional bodies is likely to enhance China's economic power strategic position and political importance A major theme addressed is whether these new powers

will become complementary to the American led economic core countries or evolve as countervailing powers Contributors suggest that linkages favored by China s regional associations are more network based and informal in character They are more in keeping with regionalization rather than regional blocs such as the European Union which have locked in members to market driven institutions Thus these new developments move away from a neo liberal market perspective and satisfy the needs of members to retain their economic and political sovereignty This book considers whether these new regional blocs led by China will perform a transformative process for the international order or become an alternative supplementary to but not replacing the existing institutions of the North An important topic is the relationship of Russia and China to the Central Asian countries of the former USSR and the interaction between the Russia led Eurasian Economic Union and the Chinese initiative of the Silk Road Economic Belt There is potential for the evolution of an alliance between China and Russia against the neo liberal order led by the USA Concurrently they bring out possible the tensions between Russia s and China s conflicting interests over influence in Central Asia Reactions to China s rise include the Trump administration s movement from a multilateral to a bi lateral trade policy and the threat of discriminatory tariffs for China The contributors seek to promote a better appreciation of China s role in regional associations and the implications of contemporary developments in economic geo political and international political affairs in the 21st century

*Electoral Strategies under Authoritarianism* Megan Hauser, 2019-01-30 This book explores the types of electoral strategies used in non democratic countries It focuses on manipulation by the government as well as efforts to push back against the regime by opposition forces Relying on data and case studies from the former Soviet Union it finds that these actors view elections as tools to achieve various goals either in the short term or the long term More specifically parties and candidates will sometimes engage in self defeating or unnecessary behavior in the short term if they think it will serve a long term purpose This book examines different ways that governments seek to sway the election to their favor as well as under what conditions opposition actors may unite or boycott the election altogether The conclusions of this book reveal that elections even in authoritarian settings matter for political decision making but that they may not be serving democratic functions

**Post-Soviet Legacies and Conflicting Values in Europe** Lena Surzhko-Harned, Ekaterina Turkina, 2017-11-22 Generational conflicts occur in any society and prove to be both a puzzle and a rite of passage for every generation Older generations often find it difficult to relate to the younger generations Yet as every generation comes of age it leaves an impact on societal structures as a whole Between baby boomers and millennials societal norms and values transform in new and unexpected ways While globalization has greatly contributed to the generational gaps world over the post communist transition which occurred in the wake of the collapse of the USSR left lasting and profound effects on these transitioning societies This book investigates the generational conflict in the post Soviet societies and argues that the generational divide runs deep The post Soviet generation Generation WhY has not dealt with the experience of old Soviet structures and they do not share the same values and norms as their parents and

grandparents Individualism lack of trust in state institutions independence and entrepreneurial spirit run high among the members of the perestroika generation Yet we still find differences between societies While the Russian Ukrainian conflict has its roots in a number of deeply seeded issues this analysis shows that the generational gap is a part of the problem This book also offers conclusive evidence to suggest that the members of the post Soviet generation can be part of the solution

**Eurasia on the Edge** Richard Sakwa, 2018-10-15 Eurasia wherever one draws the boundaries is very much at the centre of discussions about today's world Security across Eurasia is a global concern and has been subject to a range of discussions and debate However the current tensions over security and world order with the growing challenges from Eurasia and Asia require more intense scrutiny The goals of the book are to explore the challenges facing the region and to assess how to achieve economic social and political stability in the Eurasian core The book's chapters are written by prominent experts in the field and together contribute to the continuing debate by providing policy advice for managing crises in the region Conflicts inevitably arise in the Eurasian space as global powers regional powers and individual states jockey for positions and influence These conflicts need not reach a crisis state provided the foundations of conflict and the surrounding frameworks can be better understood To do this it is necessary to examine the issue of security in Eurasia from a multi dimensional perspective that challenges any and all assumptions about Eurasia and global order This volume has two overarching goals The first is to come to a better understanding of key security threats in the Eurasian region from a multi dimensional social political economic and institutional perspective The second is to discuss policies directed to increase mutual security in and around the Eurasian core Although the crisis of security affects the whole continent the area covered by the former Soviet Union and its neighborhood is at the epicenter of the current crisis On the one side the Atlantic community is consolidating and extending On the other various greater Asia ideas are in the making All of Eurasia is in danger of becoming an extended shatter zone a vast new shaky borderland trapped between two great systems of power and world order Cultural Imperialism and the Decline of the Liberal Order G. Doug Davis, Michael O.

Slobodchikoff, 2018-12-14 The end of the Cold War heralded in a new era for liberalism Eastern European states adopted democracy and capitalism to gain acceptance by the West Yet a mere two decades later liberalism was in crisis The rise of illiberal democracies and nationalist movements in the second decade of the twenty first century have left scholars baffled How could this happen Dr's Davis and Slobodchikoff show that the decline of the liberal order lies within its own ideology as it champions freedom liberalism requires its adherents to give up their cultural traditions and adopt the global ethos to be legitimate Through a systematic analysis of Western and Russian soft power in Poland and Serbia the authors explain the decline of liberalism and the battle over the balance of power in Eastern Europe Through Times of Trouble Anna Matveeva, 2017-12-20 This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia As such it provides a unique

insight into their thinking and motivations which need to be understood if the conflict is to be resolved Those making and remaking the conflict are placed in the centre of the story which uses the words of the combatants themselves It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine Russia and different parts of the world stood at the rebellion's heart The book focuses on the participants' own voices and personalities drawing extensively on first hand research and interviews Rather than rendering Ukraine a chess piece on the geopolitical board the rebellion shows that ordinary people rather than elites can act as a decisive force Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high It stands as an important text on the study of modern insurgencies revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle The insurgency has produced a conflict sub-culture rich with symbolism narrative and communications made possible by the digital age and a social media savvy population These beliefs and ideas have had the power to pull people from different parts of the world This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas It analyses the logic of armed struggle and the tactics deployed by warring parties It also sheds light on the developments in Moscow discusses the phenomenon of the Russian Spring movement and concludes with the prospects for a peaceful solution

*Russia and the World* Natalia Tsvetkova, 2017-02-20 Understanding International Relations Russia and the World examines world politics through the lens of Russia and its effects on the international system Contributors to this volume examine Russian politics economics global and regional policies and history in order to better understand Russia's place in world politics This book explores the impact Russia has on international politics in three parts how current theories in international relations studies treat Russia the primary disputes in modern world politics relating to Russia and Russian policies and their effects around the world This collection offers a comprehensive view of Russia's place in the global political system by exploring Russian foreign policy the economy and statecraft the Arctic global organizations arms control national security the environment soft power and Russian relations with the United States Europe and Eurasia

**Eurasia 2.0** Mark Bassin, Mikhail Suslov, 2016-03-17 This book discusses the return of geopolitical ideas and doctrines to the post-Soviet space with special focus on the new phenomenon of digital geopolitics which is an overarching term for different political practices including dissemination of geopolitical ideas online using the internet by political figures and diplomats for legitimization and outreach activity and viral spread of geopolitical memes Different chapters explore the new possibilities and threats associated with this digitalization of geopolitical knowledge and practice Our authors consider new spatial sensibilities and new identities of global as well as local Selves the emergence of which is facilitated by the internet They explore recent reconfigurations of the

traditional imperial conundrum of center versus periphery Developing Manuel Castells argument that social activism in the digital era is organized around cultural values the essays discuss new geopolitical ideologies which aim to reinforce Russia's spiritual sovereignty as a unique civilization while at the same time seeking to rebrand Russia as a greater soft power by utilizing the Russian speaking diaspora or employing traditionalist rhetoric Great Power imagery enemy making and visual mappings of Russia's future territorial expansion are traditional means for the manipulation of imperial pleasures and geopolitical fears In the age of new media however this is being done with greater subtlety by mobilizing the grassroots contracting private information channels and de politicizing geopolitics Given the political events of recent years it is logical that the Ukrainian crisis should provide the thematic backdrop for most of the authors

### **The Regional World Order**

Boglárka Koller,Alexei D. Voskressenski,2019-04-15 In the evolving post Westphalian world regional entities become key political and economic players as the authors argue in this volume As a result of regionalization the international politics and economics is witnessing great transformations too This volume explores some ideas of how these transformations may develop It is written by three generations of researchers and scholars at European Russian and Asian higher education institutions Their different perspectives are integrated in a coherent multi dimensional view to answer challenges facing what is called increasingly Greater Eurasia The volume employs a rigorous conceptual framework over a wide geographic range and applies different approaches to ask and answer challenging questions The arguments presented in this book are built around the concepts of regionalism and transregionalism The volume is focusing on three different geographical entities Europe Eurasia and East Asia and examines ASEM EAEU BRI EU ASEAN CIS as well as TTIP TTP OBOR

### **The Oxford**

**Handbook of Comparative Administrative Law** Peter Cane,Herwig Hofmann,Eric C. Ip,Eric Chi Yeung Ip,Peter L. Lindseth,2021 In this Handbook distinguished experts in the field of administrative law discuss a wide range of issues from a comparative perspective The book covers the historical beginnings of comparative administrative law scholarship and discusses important methodological issues and basic concepts such as administrative power and accountability

*Semi-Presidentialism Outside Europe* Robert Elgie,Sophia Moestrup,2007-06-11 This is the first academic study of the impact of semi presidentialism in emerging democracies outside of Europe Semi presidentialism is where there is both a directly elected fixed term president and a prime minister who is responsible to the legislature For the most part semi presidentialism is seen as being a risky choice for new democracies because it can create potentially destabilizing competition between the president and prime minister And yet there are now more than fifty semi presidential countries in the world Moreover many of these countries are in Africa the former Soviet Union and Asia often in places where democracy has yet to establish a firm foundation This study begins with a chapter that discusses the advantages and disadvantages of semi presidentialism and provides the theoretical framework for a wide ranging series of country chapters presented in the second part of the book Written by country area specialists the case studies highlight the political processes at work in young

semi presidential democracies Semi Presidentialism Outside Europe will appeal to those researching and studying in the fields of comparative politics development and democracy Political and Civic Leadership Richard A. Couto,2010-09-14 This work within The SAGE Reference Series on Leadership provides undergraduate students with an authoritative reference resource on political and civic leadership This 2 volume set focuses on the 100 most important topics issues question and debates specific to politics and civic society Entries provide students with more detailed information and depth of discussion than typically found in an encyclopedia entry while avoiding much of the jargon detail and density one might find in a journal article or a research handbook chapter Key Features Includes entries written by a global panel of renowned experts Offers broad coverage of important of the moment topics related to political and civic leadership including explorations of the personalities and environments of political leaders leadership roles in governance and allegiance citizen activists and civic engagement political campaigning urban politics and leadership public management ethics in politics policy development and implementation executive management of public opinion political speechmaking and the bully pulpit congressional leadership crisis management and more Considers the history of political and civic leadership with examples from the lives of pivotal figures as well as the institutional settings and processes that lead to both opportunities and constraints unique to the political realm Provides students with more depth than usual encyclopedic entries while avoiding the jargon detail and density of more advanced works Features an approachable and clear writing style with appeal to undergraduate researchers and offers a list of further readings after each entry as well as a detailed index and an online version of the work to maximize accessibility for today s students

**The Power of Opposition** Simone Wegmann,2022-07-01 Proposing a novel way to look at the consolidation of democratic regimes this book presents important theoretical and empirical contributions to the study of democratic consolidation legislative organization and public opinion Theoretically Simone Wegmann brings legislatures into focus as the main body representing both winners and losers of democratic elections Empirically Wegmann shows that the degree of policy making power of opposition players varies considerably between countries Using survey data from the CSES the ESS and the LAPOP and systematically analyzing more than 50 legislatures across the world and the specific rights they grant to opposition players during the policy making process Wegmann demonstrates that neglecting the curial role of the legislature in a democratic setting can only lead to an incomplete assessment of the importance of institutions for democratic consolidation The Power of Opposition will be of great interest to scholars of comparative politics especially those working on questions related to legislative organization democratic consolidation and or public opinion

**Promoting Party Politics in Emerging Democracies** Peter Burnell,Andre W. M. Gerrits,2013-09-13 This book offers a critical and comparative examination of international support to political parties and party systems in emerging and prospective new democracies in several world regions It combines the insights of a strong international grouping of leading academics and pioneering doctoral studies and draws on extensive new field work inquiries The wide ranging coverage pools evidence from

countries in Europe and Eurasia Africa East Asia and Central America The book shows how far international support still has to go if it is to achieve its aims of helping party politics make a constructive contribution to furthering democracy It advances our understanding both of the role the political parties are playing in the different polities and the sometimes negative impact of democracy promotion actors from outside By contributing original theoretical perspectives and empirical findings the book points the way forward to agendas for future research and new courses of action It will be of interest to academics and the policy making and practitioner communities alike This book was published as a special issue of Democratizations

*The Oxford Handbook of Political Executives* Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research Pacific Ways Stephen Levine, 2016-06-01 Examining the politics of each Pacific Island state and territory this well researched volume discusses historical background and colonial experience constitutional framework political institutions political parties elections and electoral systems and problems and prospects Pacific Island countries and territories included are the original seven member states New Zealand Australia Fiji Samoa Tonga Nauru and the Cook Islands along with all the new member states and organizations A wide ranging political survey this comprehensive and completely up to date reference will appeal to Pacific peoples and anyone with an interest in politics

## Executive Politics Semi Presidential Regimes Distribution Introduction

In the digital age, access to information has become easier than ever before. The ability to download Executive Politics Semi Presidential Regimes Distribution has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Executive Politics Semi Presidential Regimes Distribution has opened up a world of possibilities.

Downloading Executive Politics Semi Presidential Regimes Distribution provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Executive Politics Semi Presidential Regimes Distribution has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Executive Politics Semi Presidential Regimes Distribution. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Executive Politics Semi Presidential Regimes Distribution. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Executive Politics Semi Presidential Regimes Distribution, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Executive Politics Semi Presidential Regimes Distribution has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous

learning and intellectual growth.

## **FAQs About Executive Politics Semi Presidential Regimes Distribution Books**

1. Where can I buy Executive Politics Semi Presidential Regimes Distribution books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
