Existentialism And Human Emotions:

Existentialism and Human Emotions Jean-Paul Sartre, 1985 Proposes that individuals must create their own values take responsibility for their actions and find a sense of meaning while living in a universe without purpose **Existentialism & Human Emotions ; Sartre PhiloSOPHicAl Library** Kelly Puig, 2013 **For Love of Wisdom** Josef Pieper, 2010-06-17 In these elegant and engaging essays the internationally acclaimed Thomist Josef Pieper defines and defends philosophy as the search for and love of wisdom True philosophy is not the work of joyless academics pondering over esoteric writings that have no relation to real life Rather the philosophical act in which all reasonable men can participate begins in wonder at what is and gratitude for what is given and ends in love In his encyclical letter *Fides et Ratio* On the Relationship between Faith and Reason Pope John Paul II called for a revitalization of true philosophy for man can find fulfillment only in choosing to enter the truth to make a home under the shade of Wisdom and dwell there Pieper s essays make the same ardent and convincing plea Josef Pieper is renowned for having popularized the philosophy of St Thomas Aquinas a brilliant student of St Thomas who in his own voluminous works has made the deep thought of the Angelic Doctor more accessible and understandable to the modern reader [The Emotions](#) Jean-Paul Sartre, 2000-12-01 In this book the eminent French philosopher seeks to develop a new theory method of psychologic interpretation Delving into the mystery of the emotional process he analyzes the roles that fear lust melancholy and anguish play in the life of man [Existentialism and Sociology](#) Gila Hayim, 2017-07-28 Existentialism and Sociology originally published under the title *The Existential Sociology of Jean Paul Sartre* is the first work to systematically and critically analyze the existential ideas of Jean Paul Sartre and to demonstrate their importance and connection to central sociological categories found in the theories of Weber Durkheim Freud Mead and others Drawing also on sociological and Hegelian social thought Hayim analyzes key existential concepts of negation temporality choice anguish and bad faith and carefully situates them in the different relations of self to the other relations of indifference and destruction as well as relations of engagement and pledge She joins the two orders of being ontology and sociology and establishes intellectual and ethical continuity between the phenomenology of Being and Nothingness Sartre s momentous early work and neglected sociological categories in his later works *Critique of Dialectical Reason* and *Notebooks for an Ethics* Hayim makes accessible to the social scientist a rich repertoire of existential motifs and perspectives on community and group interactions and their inextricable bond to the life practice of the individual Distinguishing among social groups as different orders of social consciousness and organization Hayim addresses issues of transcendence and inertia leadership and authority freedom and bondage bureaucracy and control and identifies Sartre s concept of the practico inert as the radical center of our intersubjectivity today and its threat to human intelligibility The author contends that the massive language of a sociology of things instills in the human actor a feeling of helplessness and gross inferiority vis a vis the social world She offers in contrast the existential emphasis on the importance of substituting

live human experience for mechanistic processes of explanation and of establishing The Bonds of Freedom Kristana Arp,2001 Simone de Beauvoir published a number of philosophical essays and novels before writing *The Second Sex* The most important of these was *The Ethics of Ambiguity* in which she argues that one's freedom is always intertwined with that of others *The Bonds of Freedom* examines de Beauvoir's ideas on ethics demonstrating her importance in contemporary philosophy *Literature & Existentialism* Jean-Paul Sartre,1962 **Existentialism and Its Relevance to the Contemporary System of Education in India: Existentialism and Present Educational Scenario** Rukhsana Akhter,2014-06 Existentialism represents a protest against the rationalism of traditional philosophy against misleading notions of the bourgeois culture and the dehumanizing values of industrial civilization Since alienation loneliness and self estrangement constitute threats to human personality in the modern world existential thought has viewed as its cardinal concerns a quest for subjective truth a reaction against the negation of Being and a perennial search for freedom From the ancient Greek philosopher Socrates to the twentieth century French philosopher Jean Paul Sartre and other thinkers have dealt with this tragic sense of ontological reality the human situation within a comic context The book put forward is the beginning of an attempt to revive existentialism by addressing these issues The idea is eventually to present a conception of personhood that is recognizably existentialist or similar to that presented by writers like Kierkegaard Heidegger Jaspers and Sartre in certain fundamental ways but that takes into account the last twenty years of developments in the many different areas of philosophy that directly affect our understanding of what it is to be a person The result will hopefully be a more sophisticated existentialist theory of personhood that can be presented in contemporary terms as a serious challenge to current dogmas in metaphysics and moral theory and be defended against the ascendant naturalistic rationalistic or pragmatist alternatives *The Science of Religion, Spirituality, and Existentialism* Kenneth E. Vail III,Clay Routledge,2020-04-04 *The Science of Religion Spirituality and Existentialism* presents in depth analysis of the core issues in existential psychology their connections to religion and spirituality e.g religious concepts beliefs identities and practices and their diverse outcomes e.g psychological social cultural and health Leading scholars from around the world cover research exploring how fundamental existential issues are both cause and consequence of religion and spirituality informed by research data spanning multiple levels of analysis such as evolution cognition and neuroscience emotion and motivation personality and individual differences social and cultural forces physical and mental health among many others *The Science of Religion Spirituality and Existentialism* explores known contours and emerging frontiers addressing the big question of why religious belief remains such a central feature of the human experience Discusses both abstract concepts of mortality and concrete near death experiences Covers the struggles and triumphs associated with freedom self regulation and authenticity Examines the roles of social exclusion experiential isolation attachment and the construction of social identity Considers the problems of uncertainty the effort to discern truth and reality and the challenge to find meaning in life

Discusses how the mind developed to handle existential topics how the brain and mind implement the relevant processes and the many variations and individual differences that alter those processes Delves into the psychological functions of religion and science the influence on pro and antisocial behavior politics and public policy and looks at the role of spiritual concerns in understanding the human body and maintaining physical health

Recently there has been a growing interest not only in existentialism but also in existential questions as well as key figures in existential thinking Yet despite this renewed interest a systematic reconsideration of Kierkegaard s existential approach is missing This anthology is the first in a series of three that will attempt to fill this lacuna The 13 chapters of the first anthology deal with various aspects of Kierkegaard s existential approach Its reception will be examined in the works of influential philosophers such as Heidegger Gadamer and Habermas as well as in lesser known philosophers from the interwar period such as Jean Wahl Lev Shestov and Benjamin Fondane Other chapters reconsider central notions such as anxiety existence imagination and despair Finally some chapters deal with Kierkegaard s relevance for central issues in contemporary philosophy including naturalism self constitution and bioethics This book is of relevance not only to researchers working in Kierkegaard Studies but to anyone with an interest in existentialism and existential thinking

A History of Existential Psychology Zoltán Kőváry,2024-12-30 The first in a two part set this book takes a deep dive into the history and theory of existential psychology Beginning with a discussion of the existentialism and psychology problem the book presents the philosophical and historical roots of existential psychology It introduces the most important philosophical schools in the development of existentialism and their creators such as Kierkegaard Nietzsche Heidegger and Sartre as well as the literary roots of existentialism in the writings of Dostoevsky and Kafka and the important contribution of psychoanalysis and phenomenological psychiatry The book then goes on to look at the existential psychology schools including daseinsanalysis logotherapy and existential analysis the existential humanistic school and the existential phenomenological school Going beyond the questions of therapy and counseling that typically make up the study of existential psychology the book offers the ultimate introduction for students and scholars of this fascinating and deeply rooted discipline It may also interest professionals working in related fields

A Philosophy of Hope Bernard N. Schumacher,2003 Schumacher looks at hope as a virtue one opposed by vices such as despair and presumption particularly

as they are treated in existentialism and Marxism He also explores Pieper's treatment of hope in relation to the ideas of death and immortality and in the philosophy of history Using the idea of hope to examine such themes as dignity ethics the good and the just Schumacher provides a valuable wide ranging introduction to a shaper of contemporary Christian thought against a richly drawn intellectual background BOOK JACKET **Love and Death** Ross Channing Reed PhD,2009-02-10 Philosopher Ross Reed Ph D refers to an eclectic array of thinkers in *Love and Death an Existential Theory of Addiction* in particular existential philosophers Soren Kierkegaard 1813 1855 and Jean Paul Sartre 1905 1980 According to Dr Reed addiction is usually the result of existential or life conditions rather than underlying physiological problems Therefore it may involve not only drugs or alcohol but also relationships belief systems activities and even emotional states Anything that can serve to deflect ones consciousness from reflectively apprehending the task of becoming oneself can serve as an object of addiction If the object is another person one might ask whether in fact addiction can masquerade as love Is it possible to believe that you are in love with someone when in fact you are merely addicted to him or her In this creative and provocative work Reed argues that Sartres theory of love is in fact a theory of addiction Dialogue Of Civilizations Jill Carroll,2008-04-01 Fethullah Glen is a Turkish intellectual scholar and activist whose influence over a new Islamic intellectual social and spiritual revival is revealed in this insightful book Readers will gain a fuller understanding of where Glen stands on issues of inherent human value and dignity freedom of thought education and taking responsibility for creating society and the world In addition readers will also see how different perspectives across time geography and worldview can still find points on which to engage in dialogue and find a deep resonance Black Nihilism and Antiracism Devon R.
