Exotic Preferences Behavioral Economics And Human Motivation:

Exotic Preferences George Loewenstein, 2007-08-02 George Loewenstein analyses how individual preferences are formed whether they can be predicted and the extent to which they are influenced by emotion rather than reason These writings include the author's most influential papers on this intriguing topic *Loewenstein, George: Exotic Preferences: Behavioural Economics and Human Motivation* Sandy Ross, 2008 [Exotic Preferences](#) George Loewenstein, 2007-08-02 George Loewenstein is one of the pioneers of the rapidly growing field of behavioral economics For over twenty years he has been working at the intersection of economics and psychology and is one of the few people of whom it can be said that their work is equally respected and well known within both disciplines This book brings together a selection of his papers focusing on what he calls exotic preferences the disparate motives that drive human behavior In addition to covering the history and methodology of behavioral economics they also touch on a wide range of fascinating topics such as the motives that drive extreme athletes our propensity to want to get unpleasant experiences out of the way so we can focus on the more pleasant and the psychology of curiosity There are also papers on social preferences discussing the importance of perceptions of fairness in interpersonal interactions intertemporal choice the tradeoffs between costs and benefits occurring at different points in time and the impact of emotion on economic decision making An original introduction outlines Loewenstein's general approach to research and there are short introductions to each paper outlining briefly when how and why they came to be written providing a fascinating and vivid insight into the process of intellectual creativity *The Foundations of Behavioral Economic Analysis* Sanjit S. Dhami, 2016 It considers the evidence against the exponential discounted utility model and describes several behavioral models such as hyperbolic discounting attribute based models and the reference time theory Part IV describes the evidence on classical game theory and considers several models of behavioral game theory including level k and cognitive hierarchy models quantal response equilibrium and psychological game theory Part V considers behavioral models of learning that include evolutionary game theory classical models of learning experience weighted attraction model learning direction theory and stochastic social dynamics Part VI studies the role of emotions among other topics it considers projection bias temptation preferences happiness economics and interaction between emotions and cognition Part VII considers bounded rationality The three main topics considered are judgment heuristics and biases mental accounting and behavioral finance **Decisions, Preferences, and Heuristics** Pere Mir-Artigues, 2023-08-14 This enlightening book comprehensively maps the current state of economic psychology and behavioural economics Exploring key concepts topics and models in the field it is also a launching pad for future research and provides useful insights on how good personal and professional decisions can be made advancing microeconomic discourse [The Motivation-Cognition Interface](#) Catalina E. Kopetz, Ayelet Fishbach, 2017-09-11 This volume honors the work of Arie W Kruglanski It represents a collection of chapters written by Arie's former students friends and collaborators

The chapters are rather diverse and cover a variety of topics from politics including international terrorism to health related issues such as addiction and self control to basic psychological principles such as motivation and self regulation the formation of attitudes social influence and interpersonal relationships What these chapters have in common is that they have all been inspired by Arie s revolutionary work on human motivation and represent the authors attempt to apply the basic principles of motivation to the understanding of diverse phenomena **Advances in Experimental Social Psychology**

Hausman,2011-12-12 This book is about preferences principally as they figure in economics It also explores their uses in everyday language and action how they are understood in psychology and how they figure in philosophical reflection on action and morality The book clarifies and for the most part defends the way in which economists invoke preferences to explain predict and assess behavior and outcomes Hausman argues however that the predictions and

explanations economists offer rely on theories of preference formation that are in need of further development and he criticizes attempts to define welfare in terms of preferences and to define preferences in terms of choices or self interest The analysis clarifies the relations between rational choice theory and philosophical accounts of human action The book also assembles the materials out of which models of preference formation and modification can be constructed and it comments on how reason and emotion shape preferences

How College Students Succeed Nicholas A. Bowman, 2023-07-03 Receiving a college education has perhaps never been more important than it is today While its personal societal and overall economic benefits are well documented too many college students fail to complete their postsecondary education As colleges and universities are investing substantial resources into efforts to counter these attrition rates and increase retention they are mostly unaware of the robust literature on student success that is often bounded in disciplinary silos The purpose of this book is to bring together in a single volume the extensive knowledge on college student success It includes seven chapters from authors who each synthesize the literature from their own field of study or perspective Each describes the theories models and concepts they use summarizes the key findings from their research and provides implications for practice policy and or research The disciplinary chapters offer perspectives from higher education public policy behavioral economics social psychology STEM sociology and critical and post structural theory
