Expanding Work Programs for Poor Men Lawrence M. Mead, 2011-05-16 Welfare reform which required that poor mothers work in return for assistance was a watershed in the struggle against poverty in America. As work levels rose dramatically among low income women, the welfare rolls were cut in half and many families escaped poverty. But men's employment is also crucial to uplifting families. Programs designed to promote work among poor men are currently underdeveloped and little understood by policymakers. *Expanding Work Programs for Poor Men* sets out a strategy for raising work levels among poor men. It makes the case that poor fathers like welfare mothers need both help and hassle. That is, they need better benefits but they must also be expected and required to help themselves. Caught Marie Gottschalk, 2016-02-16 A major reappraisal of crime and punishment in America. The huge prison buildup of the past four decades has few defenders yet reforms to reduce the numbers of those incarcerated have been remarkably modest. Meanwhile, an ever widening carceral state has sprouted in the shadows, extending its reach far beyond the prison gate. It sunders families and communities and reworks conceptions of democracy, rights and citizenship, posing a formidable political and social challenge. In *Caught*, Marie Gottschalk examines why the carceral state remains so tenacious in the United States. She analyzes the shortcomings of the two dominant penal reform strategies: one focused on addressing racial disparities, the other on seeking bipartisan, race neutral solutions centered on reentry, justice reinvestment and reducing recidivism. With a new preface evaluating the effectiveness of recent proposals to reform mass incarceration, *Caught* offers a bracing appraisal of the politics of penal reform. Burdens of Freedom Lawrence M. Mead, 2019-04-23 *Burdens of Freedom* presents a new and radical interpretation of America and its challenges. The United States is an individualist society where most people seek to realize personal goals and values out in the world. This unusual, inner-driven culture was the chief reason why first Europe, then Britain, and finally America came to lead the world. But today, our deepest problems derive from groups and nations that reflect the more passive, deferential temperament of the non-West. The long-term poor and many immigrants have difficulties assimilating in America, mainly because they are less inner-driven than the norm. Abroad, the United States faces challenges from Asia, which is collective-minded, and also from many poorly governed countries in the developing world. The chief threat to American leadership is no longer foreign rivals like China, but the decay of individualism within our own society. The great divide is between the individualist West, for which life is a project, and the rest of the world, in which most people seek to survive rather than achieve. This difference, although clear in research on world cultures, has been ignored in virtually all previous scholarship on American power and public policy, both at home and abroad. *Burdens of Freedom* is the first book to recognize that difference. It casts new light on America's greatest struggles. It re-evaluates the entire Western tradition, which took individualism for granted. How to respond to cultural difference is the greatest test of our times. Expanding Work Programs for Poor Men Lawrence M. Mead,2011-05-16 Expanding Work Programs for Poor Men makes the case that poor fathers like poor mothers need both help and hassle That is poor men need more help from the government but they must also be expected and required to help themselves Drawing on welfare reform as a successful precedent Lawrence M Mead explores the psychology of male nonwork and evaluates the successes and failures of existing government programs for poor men including child support and conditions of parole These programs have succeeded in increasing work levels among poor men by requiring that they provide income to support their families or maintain a job to avoid returning to prison Although both programs rely on legal enforcement they are most effective when enforcement is coupled with incentives Mead suggests that child support and parole conditions offer a useful model for future men's work programs which should be mandatory and enforced but combined with rewards for steady work such as higher wage subsidies for low income workers *Homelessness in New York City* Thomas J. Main,2017-09-12 Introduction The beginnings of homelessness policy under Koch The development of homelessness policy under Koch Homelessness policy under Dinkins Homelessness policy under Giuliani Homelessness policy under Bloomberg Homelessness policy under De Blasio Conclusion
