Experimenten In Democratie:

Experimenten in Democratie H. S. Gruijters, 1967 **The American Experiment and the Idea of Democracy in British Culture, 1776-1914** Ruth Livesey, 2016-04-01 In nineteenth century Britain the effects of democracy in America were seen to spread from Congress all the way down to the personal habits of its citizens Bringing together political theorists historians and literary scholars this volume explores the idea of American democracy in nineteenth century Britain The essays span the period from Independence to the First World War and trace an intellectual history of Anglo American relations during that period Leading scholars trace the hopes and fears inspired by the American model of democracy in the works of commentators including Thomas Paine Mary Wollstonecraft Alexis de Tocqueville Charles Dickens John Stuart Mill Richard Cobden Charles Dilke Matthew Arnold Henry James and W T Stead By examining the context of debates about American democracy and notions of culture citizenship and race the collection sheds fresh light on well documented moments of British political history such as the Reform Acts the Abolition of Slavery Act and the Anti Corn Law agitation The volume also explores the ways in which British Liberalism was shaped by the American example and draws attention to the importance of print culture in furthering radical political dialogue between the two nations As the comprehensive introduction makes clear this collection makes an important contribution to transatlantic studies and our growing sense of a nineteenth century modernity shaped by an Atlantic exchange It is an essential reference point for all interested in the history of the idea of democracy its political evolution and its perceived cultural consequences *Turkish Experiment In Democracy* Feroz Ahmad, Royal Institute of International Affairs, 1977 **The Porto Alegre Experiment** Marion Gret, Yves Sintomer, 2005 With its experiment in participative budget making over the past decade Porto Alegre has institutionalized the direct democratic involvement locality by locality of ordinary citizens in deciding spending priorities This book examines how this democratic innovation works in practice and asks the difficult questions Can local participation in public management really strengthen its efficiency Is genuine participation possible without small groups monopolizing power Can local organizations avoid becoming bureaucratized and cut off from their roots Can neighborhood mobilization go beyond parochialism and act in the general interest The book also raises the bigger question about what lessons can be learned from Porto Alegre to renew democratic institutions elsewhere in the world *Philosophie Et Démocratie en Perspective Interculturelle* Heinz Kimmerle, Franz Martin Wimmer, 1997 From the contents Culture nationalism and philosophy Sophie B Oluwole The relationship between African and European philosophers what it ought to be Juergen Hengelbrock Against culture and the aliens of modernization the case of Africa Christian Neugebauer Elements démocratiques dans les sagesses du Senegal Massaer Diallo Democracy in an ethical community Tobias J G Louw Domestic Perspectives on Contemporary Democracy Peter F Nardulli, 2010-10-01 In looking at the remarkable proliferation of democracies since 1974 this volume offers important insight into the challenges and opportunities that democracy faces in the twenty first century Distinguished

contributors detail difficulties that democracies face from within and how they deal with them Among the contemporary threats to democracy emanating from internal sources are tensions arising over technology and its uses ethnic religious and racial distinctions and disparate access to resources education and employment A democratically elected government can behave more or less democratically even when controlling access to information using legal authority to aid or intimidate and applying resources to shape the conditions for the next election With elections recently disputed in the United States Mexico Lebanon and the Ukraine debates about the future of democracy are inescapably debates about what kind of democracy is desired Contributors are W Lance Bennett Bruce Bimber Jon Fraenkel Brian J Gaines Bernard Grofman Wayne V McIntosh Peter F Nardulli Mark Q Sawyer Stephen Simon Paul M Sniderman and Jack Snyder The New Labour Experiment Florence Faucher-King, Patrick Le Galés, 2010-02-12 The book provides a clear assessment of the New Labour governments in Britain when Tony Blair then Gordon Brown were Prime Ministers between 1997 and 2009 This assessment is based upon a review of implemented public policies and their outcomes instead of programmes or discourses **The Citizenship Experiment** René Koekkoek, 2020-01-23 The Citizenship Experiment explores the fate of citizenship ideals in the Age of Revolutions While in the early 1790s citizenship ideals in the Atlantic world converged the twin shocks of the Haitian Revolution and the French Revolutionary Terror led the American French and Dutch publics to abandon the notion of a shared Atlantic revolutionary vision of citizenship Instead they forged conceptions of citizenship that were limited to national contexts restricted categories of voters and advanced stages of civilization Weaving together the convergence and divergence of an Atlantic revolutionary discourse debates on citizenship and the intellectual repercussions of the Terror and the Haitian Revolution Koekkoek offers a fresh perspective on the revolutionary 1790s as a turning point in the history of citizenship *Democracy in Translation* Frederic Charles Schaffer, 2018-08-06 Frederic C Schaffer challenges the assumption often made by American scholars that democracy has been achieved in foreign countries when criteria such as free elections are met Elections he argues often have cultural underpinnings that are invisible to outsiders To examine grassroots understandings of democratic institutions and political concepts Schaffer conducted fieldwork in Senegal a mostly Islamic and agrarian country with a long history of electoral politics Schaffer discovered that ideas of democracy held by Wolof speakers often reflect concerns about collective security Many Senegalese see voting as less a matter of choosing leaders than of reinforcing community ties that may be called upon in times of crisis By looking carefully at language Schaffer demonstrates that institutional arrangements do not necessarily carry the same meaning in different cultural contexts *Democracy in Translation* asks how social scientists should investigate the functioning of democratic institutions in cultures dissimilar from their own and raises larger issues about the nature of democracy the universality of democratic ideals and the practice of cross cultural research Reforming Democracy Camille Bedock, 2017-05-19 When why and how are democratic institutions reformed This is the broad question guiding this research rooted in a context of crises of

representative democracy Core democratic rules can be understood as the formal political rules regulating the direct relationship between elites within the political system parties and citizens They are therefore the cornerstone of the functioning of any political system This book deals with the context the motives and the mechanisms explaining the incidence of institutional engineering in consolidated European democracies between 1990 and 2015 It is centred on the choice of political elites to use or not to use institutional engineering as a response to the challenges they face This study provides both a better empirical understanding of the world of democratic reforms in consolidated democracies thanks to a new data set covering six dimensions of reform in 18 European countries Secondly the book provides evidence about the link between the lack of political support and democratic reforms and the role of electoral shifts in fostering reforms Thirdly this research shows that the final outcome of a given reform depends on the type of reform at stake and on the process used during the phase of discussion of the reform though case studies in Ireland France and Italy Ultimately the book demonstrates that contrary to what has been commonly assumed reforms of the core democratic rules are frequent and constitute in most cases an answer of challenged political elites to the erosion of political support and electoral change Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Democracy and the European Union Andreas Follesdal, Peter Koslowski, 2013-11-11 The European Union is a new subject for theories of legitimacy posing fundamental questions to the established concepts and principles of democratic theory General compliance and popular acceptance and respect for European law is at stake The volume addresses the main challenges of the European Union to democratic theory The legitimacy of such transnational institutions born by political integration has so far received some but scant attention The mere existence of the Union proves that the sovereign state cannot remain the sole focus of normative reflection Indeed the very conception of sovereignty is at stake The present volume combines political science and normative political theory to offer concepts arguments and criteria that further these debates addressing problems of principle

Practicing Democracy E. Luhtakallio, 2012-05-29 This book is about the mundane local every day practices that constitutes democracy Focusing on France and Finland the book defines politicization as the key process in understanding democracy in different cultural contexts and shows a nuanced picture of two opposite models of European politics

Schools of Democracy Julien Talpin, 2024-10-31 Schools of Democracy offers a vivid analysis of the long term impact of engagement in participatory budgeting institutions in Europe While democratic innovations flourish around the world there have been great hopes for

their potential to revitalize representative government and solve the increasing apathy of the public Based on a rich ethnographic study in France Italy and Spain this book shows how participatory institutions can encourage personal involvement by creating the procedural and social conditions conducive to the formation of a competent and involved citizenry Rather than deliberation itself it seems that informal discussions and interactions between a diverse public allow mutual learning and the beginning of a political trajectory for people at the margins of the public sphere However this book also shows that citizens can become disappointed by the little decision making power they are granted as they leave the process often more cynical than before Contains A unique study on the long term individual impact of engagement in participatory institutions While most research deal with short term impact Schools of democracy addresses impact of participation after two years of engagement Unique access to the black box of participatory institutions While research on democratic innovations generally opt for an externalist perspective Schools of democracy details the routine of deliberative interactions showing how ordinary citizens speak up in public assemblies From this perspective the book offers incredibly rich empirical material coming from ethnographic research on how participatory democracy works An original theoretical framework to the study of the individual impacts of participatory engagement While most research are based on an implicit rational choice perspective the pragmatist perspective adopted here sheds a different light on the studied phenomenon stressing the co construction of actors and their environment *Anti-democracy in England, 1570-1642* Cesare Cuttica, 2022 *Anti democracy in England 1570 1642* is a detailed study of anti democratic ideas in early modern England By examining the rich variety of debates about democracy that took place between 1570 and 1642 it shows the key importance anti democratic language held in the late Tudor and early Stuart periods In particular it argues that anti democratic critiques were addressed at popular government as a regime that empowered directly and fully the irrational uneducated dangerous commonalty it explains why and how criticism of democracy was articulated in the contexts here under scrutiny and it demonstrates that the early modern era is far more relevant to the development of democratic concepts and practices than has hitherto been acknowledged The study of anti democracy is carried out through a close textual analysis of sources often neglected in the history of political thought and by way of a contextual approach to Elizabethan Jacobean and Caroline history Most importantly the study re evaluates the role of religion and cultural factors in the history of democracy and of political ideas more generally The point of departure is at a time when the establishment and Presbyterians were at loggerheads on pivotal politico ecclesiastical and theoretical matters the end coincides with the eruption of the Civil Wars Cesare Cuttica not only places the unexplored issue of anti democracy at the centre of historiographical work on early modern England but also offers a novel analysis of a precious portion of Western political reflection and an ideal platform to discuss the legacy of principles that are still fundamental today **Democracy in Modern Europe** Jussi Kurunmäki, Jeppe Nevers, Henk te Velde, 2018-06-19 As one of the most influential ideas in modern European history democracy has fundamentally reshaped

not only the landscape of governance but also social and political thought throughout the world Democracy in Modern Europe surveys the conceptual history of democracy in modern Europe from the Industrial Revolutions of the nineteenth century through both world wars and the rise of welfare states to the present era of the European Union Exploring individual countries as well as regional dynamics this volume comprises a tightly organized comprehensive and thoroughly up to date exploration of a foundational issue in European political and intellectual history **Culture, Secularization, and**

Democracy Sophie van Bijsterveld, Hans-Martien ten Napel, 2024-06-25 Following the approach developed by Alexis de Tocqueville this volume views democracy as a cultural phenomenon It starts from the assumption that if we are to adequately address concerns about the current state and future of modern Western democracies we need first to tackle the cultural preconditions necessary for the functioning of a democracy Since Tocqueville's time the book takes the most crucial change in the West to be double secularisation Here this concerns first the diminished influence of organised Christianity Even though secularity was partly a product of Christianity secularisation is highly significant in terms of the cultural underpinnings of Western democracy Second it involves a decreased interest in and knowledge of classical philosophy Chapters on secularity family life civic life and public spirit focus on central elements of the changed cultural foundation of democracy exploring issues such as identity politics the public space and the role of human rights and natural law in a pluralistic and resilient democracy The volume concludes with a closer look at the implications of current presentism that is the view that only the present counts for the legitimacy and effectiveness of democratic systems Finally it asks if double secularisation can also offer fresh opportunities for promoting the conditions of a viable democracy The book will be of interest to academics and researchers working in the areas of law and religion constitutional law political science history and philosophy **Re-imagining Democracy in the Age of Revolutions** Joanna Innes, Mark Philp, 2013-06-27 Re-imagining

Democracy in the Age of Revolutions charts a transformation in the way people thought about democracy in the North Atlantic region in the years between the American Revolution and the revolutions of 1848 In the mid eighteenth century democracy was a word known only to the literate It was associated primarily with the ancient world and had negative connotations democracies were conceived to be unstable warlike and prone to mutate into despotisms By the mid nineteenth century however the word had passed into general use although it was still not necessarily an approving term In fact there was much debate about whether democracy could achieve robust institutional form in advanced societies In this volume a cast of internationally renowned contributors shows how common trends developed throughout the United States France Britain and Ireland particularly focussing on the era of the American French and subsequent European revolutions Re-imagining Democracy in the Age of Revolutions argues that modern democracy was not invented in one place and then diffused elsewhere but instead was the subject of parallel re-imaginings as ancient ideas and examples were selectively invoked and reworked for modern use The contributions significantly enhance our understanding of the diversity and

complexity of our democratic inheritance **China, Democracy, and Law** ,2021-12-06 This landmark volume deals with such essential questions as What points of departure or resources can be identified in Chinese history and culture for what we call democracy What are and have been their potential for development in a modern China confronted with powerful Western influences Are there any connections between imperial China s strong legal tradition and the PRC s current endeavour to restore the rule of law in a context of legal globalization in which China itself is an important participant How serious or superficial should the political opening which started in the 1980s be regarded and the discourse on human rights currently heard in official circles And finally how relevant is Taiwan s experiment with democratic institutions In this rich and inspiring volume foremost French scholars carefully clarify the process of political and legal change convincingly showing that these questions cannot be answered without a proper understanding of centuries of Chinese juridical philosophical religious and political thought Ouvrage publi avec le soutien du Centre national du livre Published with financial support by the Centre national du livre **Can Democracy Be Saved?** Donatella della Porta,2013-07-11 Financial crisis economic globalization and the strengthening of neoliberal policies present stark challenges to traditional conceptions of representative democracy Yet at the same time new opportunities are emerging that propose alternative visions for the future of democracy In this highly articulate book Donatella della Porta analyses diverse conceptions and practices of participatory and deliberative democracy building upon recent reflections in normative theory as well as original empirical research As well as drawing on key historical examples the book pays close attention to the current revitalization of social movements the Arab Spring uprisings in processes of democratic transition the potential of new technologies to develop so called e democracy in the Indignados and Occupy Wall Street protests and proposals for cosmopolitan democracy found in recent campaigns for democratization of the European Union and United Nations Alongside such social movements the book also assesses institutional reactions from the policing of protest to efforts at reform This contribution to a critical contemporary debate by a leading political sociologist and scholar of social movements will be of great value to students and scholars of political sociology political science and social movement studies as well as anyone interested in the shape and development of democracy **The State and Democracy in Africa** African Association of Political Science,1998 A study of the issues of democracy and democratisation in Africa with emphasis on the roles of civil society and the state in the democratic transition Includes case studies on women s struggle for equality in Botswana state civil society in Uganda and the role played by the state in blocking undermining or promoting the democratic transition in South Africa Nigeria and Ghana

Experimenten In Democratie Introduction

In today's digital age, the availability of Experimenten In Democratie books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Experimenten In Democratie books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Experimenten In Democratie books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Experimenten In Democratie versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Experimenten In Democratie books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Experimenten In Democratie books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Experimenten In Democratie books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational

institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Experimenten In Democratie books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Experimenten In Democratie books and manuals for download and embark on your journey of knowledge?

FAQs About Experimenten In Democratie Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Experimenten In Democratie is one of the best book in our library for free trial. We provide copy of Experimenten In Democratie in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Experimenten In Democratie. Where to download Experimenten In Democratie online for free? Are you looking for Experimenten In Democratie PDF? This is definitely going to save you time and cash in something you should think about.
