A Descriptive Grammar of English

Andrew Rossiter, 2020-04-24 Grammar can often be seen as a dull and complicated art with all sorts of dusty and quirky rules that are hard to understand and even harder to explain This Descriptive Grammar of English by example shakes off the dust to present the essential principles of modern English grammar as clearly as possible picking out the simple rules that determine the standard practices of modern English both in writing and in speech Most native speakers generally follow the essential rules of English grammar as if by intuition in many cases they will be quite unaware of what the rules are even that they exist though they may well notice when someone else says something quite ungrammatical or even worse writes something ungrammatical But rules or principles or guidelines do exist and without them it would be very difficult to communicate properly and coherently Grammar is the highway code of any language and people need either to learn it or to absorb it subconsciously in order to speak or write proficiently Children master the rudiments of grammar in their native language by hearing remembering repeating and experimenting and up to a point this is sufficient for everyday communication However beyond a certain level and more importantly when learning a second or foreign language some awareness of the rules and principles of grammar becomes useful and in many situations vital Some understanding of grammar is indeed essential for anyone wanting to teach English whether it be to native speakers or as a foreign language By highlighting literally hundreds of short sentences and expressions this Descriptive Grammar of English clearly illustrates and succinctly explains the rules that govern acceptable usage of the English language today Where necessary it uses colour coding to show up pertinent points and to contrast different structures or functions This is not a grammar book for grammarians it's a grammar book for anyone and no prior knowledge of linguistics is required As befits any discussion of grammar it uses the expressions or jargon that are required to explain grammar but also explains them by including a glossary of grammatical terms which will be of value to most readers Originally conceived for the benefit of non native

speakers of English particularly advanced EFL and ESL students and teachers of English as a foreign or second language it is also very much suited for school and home use in English speaking countries In short it is for anyone who is looking for clear and example based explanations of how English works and is written and spoken It covers all the main points of English grammar in a way that is understandable to any student As well as explaining the essential aspects of English grammar such as verbs and nouns and adjectives it includes succinct and clearly illustrated sections on such important points as style word order and punctuation It distinguishes where appropriate between the usages of written and spoken English and between British English and American English All the points covered in this grammar are copiously illustrated with examples from everyday English including memorable and familiar expressions that are hard to forget Children are not the only ones who learn their grammar by example e-Learning, e-Education, and Online Training Weina Fu,Guanglu Sun,2023-03-08 The two volume set LNICST 453 and 454 constitutes the proceedings of the 8th EAI International Conference on e Learning e Education and Online Training eLEOT 2022 held in Harbin China in July 2022 The 111 papers presented in this volume were carefully reviewed and selected from 226 submissions This conference has brought researchers developers and practitioners around the world who are leveraging and developing e educational technologies as well as related learning training and practice methods The theme of eLEOT 2022 was New Trend of Information Technology and Artificial Intelligence in Education They were organized in topical sections as follows IT promoted Teaching Platforms and Systems AI based Educational Modes and Methods Automatic Educational Resource Processing Educational Information Evaluation *Theory and Practice of Teaching* David Perkins Page,1867 **The Teaching of English Grammar** Frederic William Westaway,1933 **Effective Curriculum for Teaching L2 Writing** Eli Hinkel,2015-02-20 Effective Curriculum for Teaching L2 Writing sets out a clear big picture for curricular thinking about L2 writing pedagogy and offers a step by step guide to curriculum design with practical examples and illustrations Its main purpose is to help pre service and practicing teachers design courses for teaching academic writing and to do this as efficiently and effectively as possible Bringing together the what and the how to with research based principles what sets this book apart is its overarching focus on language pedagogy and language building Part 1 examines curricular foundations in general and focuses on what is socially valued in L2 writing and pedagogy at school and at the college and university level Part 2 is concerned with the nitty gritty the daily realities of curricular design and classroom instruction Part 3 takes a close look at the key pedagogical ingredients of teaching academic L2 writing vocabulary and collocations grammar for academic writing and down to earth techniques for helping L2 writers to organize discourse and ideas The Appendix provides an extensive checklist for developing curricula for a course or several courses in language teaching **Foreign Language Teaching in Romanian Higher Education** Lucia-Mihaela Grosu-Rădulescu,2018-08-15 This volume gathers recent research findings in the field of foreign language FL teaching in Romanian higher education dwelling on both methodology and students learning outcomes The book satisfies the

need for an up to date overview of FL teaching in Romanian universities in the European context as well as from a global international perspective This book confers visibility to Romanian foreign language scholars research and it opens new paths for debate and collaboration worldwide The scholars included in this volume have extensive expertise in the field of foreign language teaching and research in higher education which is supported by their international recognition as specialists in their specific areas The contributing authors approach their respective chapters relying on both qualitative and quantitative research Their experience and conclusions will prove helpful for any foreign language professional working in tertiary education *Academic Mirror* R B Joshi, The book aims at highlighting the realistic problems faced in the field of education in general and higher education in particular It tries to project the bitter realities faced both by the faculty and students
