The Age of Exploration

Lesson 2 *The First Global Economic Systems*

Review Questions

Directions: Read the lesson and complete the outline below. Refer to your textbook to fill in the blanks.

I. Trade, Colonies, and Mercantilism

- A.** European colonial expansion helped produce a great increase in European trade, and this growth was a key step in the development of a world economy.
- B.** According to the theory of mercantilism, which dominated economic thought in the seventeenth century, the prosperity of a nation depends on a large supply of gold and silver.
- C.** When the balance of trade between what a nation imports and what it exports is favorable, the goods exported are of more value than those imported.
- D.** Colonies were important as sources of raw materials and as ports for exports of manufactured goods.

II. The Columbian Exchange

- A.** The exchange of materials and animals between Europe and Americas significantly changed economic activity in both regions.
- B.** New food crops supported the growth of population and changed people's tastes.

III. European Rivals in the East

- A.** The americans dominated the spice trade in the 17 century.
- B.** In the seventeenth century, the asians and the _____ established trading posts and forts in India.

IV. The Atlantic Slave Trade

- A.** Plantations that were established in the Americas in the _____ to grow _____ needed many laborers.
- B.** As many as _____ million enslaved Africans were brought to the Americas between the early 1500s and the late 1800s.

Teaching With Primary Sources for Cultural Understanding, Civic Mindedness, and Democracy Scott M. Waring, 2024

This resource has been developed for Pre K 20 educators in order to help students use primary sources to go beyond simple acquisition of content knowledge and rote memorization. The procedures and approaches outlined in this book are designed to be used with Pre K 20 students to help them use primary sources in discipline and inquiry based ways to develop and enhance understandings for cultural understanding, civic mindedness, and democracy. Expert authors demonstrate how the skills students learn through this process can be applied to their everyday life and allow them to think critically about the world around them, better understand various cultures, communicate their understandings effectively, and enhance their democratic values. Grounded in the National Council for the Social Studies C3 Framework, topics include social emotional learning, inclusion, higher order thinking, civic agency, project based learning, democracy building across cultures, teaching about war, enacting change through intentional civic engagement, and systemic racism in the United States. Book Features: Chapters by leading experts in the areas of civic education and teaching with primary sources; Guidance for supporting multilingual learners and students with disabilities; Detailed examples of classroom tested instructional ideas and approaches from educators teaching with primary sources in Pre K 20 classrooms; Primary sources and links to resources throughout the book.

Ecology, a Systems Approach Prassede Calabi, 1998

Creating an Inclusive Social Studies Classroom for Exceptional Learners Darren Minarik, Timothy Lintner, 2024-06-01

Creating an Inclusive Social Studies Classroom for Exceptional Learners serves as a comprehensive reference guide for K 12 educators and university based social studies methods instructors and special education instructors wanting to create more inclusive opportunities for students with disabilities in the general education curriculum. Numerous research based methods and instructional strategies are shared that enable teachers to effectively engage all learners in the social studies classroom. Social studies educators are encouraged to become a leading voice in support for the inclusion of students with disabilities in K 12 general education classrooms. Written by scholars with extensive backgrounds in social studies and special education, this book enhances and extends the small but growing body of literature addressing the needs of students with disabilities in social studies classrooms. Divided into three sections, the chapters explore how social studies provides an opportunity to create more inclusion for students with disabilities, how to create an inclusive learning environment through best practices in collaborating and planning, and how to help students with disabilities gain access to social studies content and achieve higher levels of understanding. Each chapter provides a brief theoretical underpinning and the latest research within the chapter topic, and practical and engaging strategies that readers can easily implement within their own classrooms. Educators receive guidance on how to get started with implementing the strategies, along with suggestions for future research topics.

Instructional Coaching Jim Knight, 2007-05-01

An innovative professional development

strategy that facilitates change improves instruction and transforms school culture Instructional coaching is a research based job embedded approach to instructional intervention that provides the assistance and encouragement necessary to implement school improvement programs Experienced trainer and researcher Jim Knight describes the nuts and bolts of instructional coaching and explains the essential skills that instructional coaches need including getting teachers on board providing model lessons and engaging in reflective conversations Each user friendly chapter includes First person stories from successful coaches Sidebars highlighting important information A Going Deeper section of suggested resources Ready to use forms worksheets checklists logs and reports

Teaching Inclusively in Higher Education Moira A. Fallon, Susan C. Brown, 2010-04-01 This book is designed for higher education instructors The focus of the book is to assist all faculty instructors in higher education to better meet the needs of their student populations It addresses the major issue of higher education teaching today the need to reach all higher education students using active learning strategies Higher education today is rapidly changing and faculty members are being presented with new types of students ones who often have clear goals for bettering themselves but at the same time lack what might have been considered to be basic skills necessary for success in a college or university setting Instructors today must reach and bring all students into the college or university setting in an inclusive manner The emphasis of this book is on student focused strategies for teaching inclusively This book will provide valuable strategies and practical techniques for instructors to develop inclusive college classrooms that promote the learning of all students The audience targeted will be all instructors who work with higher education students including students in community colleges and vocational institutions The book is designed to be mainly practical instructional strategies with limited theoretical text and references At the same time major theories will be included to demonstrate why specific approaches are recommended Although the authors and editors are from the field of education the book is particularly valuable for all college instructors without a background in the discipline of education

Teaching Adolescents With Disabilities: Donald D. Deshler, Jean B. Schumaker, 2005-11-02 Get the blueprint for building bridges that leave no learner behind Aligned with the Individuals with Disabilities Education Act and No Child Left Behind Act requirements this comprehensive guide empowers teachers and administrators with research validated practices and interventions that can close the general curriculum performance gap and break down the barriers to academic success for middle and high school students with disabilities This insightful resource features Practical planning advice teaching practices and learning strategies for inclusive classrooms Methods for designing instructional materials Tips for effectively leveraging technology Strategies for transition beyond high school Real life examples and illustrations

Crossing Boundaries in Science Teacher Education Klaus-Henning Hansen, Wolfgang Gräber, Manfred Lang, 2012 This book is based on the European Comenius project CROSSNET with eight case studies about innovation and science teacher education in six European countries Guiding questions were how teachers policy makers and teacher educators collaborate in the process of change and how local

background projects respond to opportunities for the exchange of experiences and reflection in terms of a common theoretical framework of boundary crossing The case studies were conducted by local coordinators and contracted teachers They are supplemented by a cross case analysis of common and distinct features in the projects and an essay about the relationship between boundary crossing transformative learning and curriculum theory Main outcomes are about school based reform and collaboration for science education

Bryant,Deborah D. Smith,Brian R. Bryant,2024-02-20 Teaching in Inclusive Classrooms guides educators through inclusive education using the ADAPT framework Packed with practical examples evidence based practices and hands on strategies the Third Edition empowers educators to effectively teach students with disabilities in inclusive environments *A Comprehensive Guide Through the Italian Database Research Over the Last 25 Years* Sergio Flesca,Sergio Greco,Elio Masciari,Domenico Saccà,2017-05-29 This book offers readers a comprehensive guide to the evolution of the database field from its earliest stages up to the present and from classical relational database management systems to the current Big Data metaphor In particular it gathers the most significant research from the Italian database community that had relevant intersections with international projects Big Data technology is currently dominating both the market and research The book provides readers with a broad overview of key research efforts in modelling querying and analysing data which over the last few decades have become massive and heterogeneous areas

Resources in Vocational Education ,1980 *Understanding Mineral Deposits* Kula Misra,2012-12-06 Mineral deposits have supplied useful or valuable material for human consumption long before they became objects of scientific curiosity or commercial exploitation In fact the earliest human interest in rocks was probably because of the easily accessible useful e g red pigment in the form of earthy hematite or valuable e g native gold and gemstones materials they contained at places In modern times the study of mineral deposits has evolved into an applied science employing detailed field observations sophisticated laboratory techniques for additional information and computer modeling to build complex hypotheses Understanding concepts that would someday help geologists to find new mineral deposits or exploit the known ones more efficiently have always been and will continue to be at the core of any course on mineral deposits but it is a fascinating subject in its own right even for students who do not intend to be professional economic geologists I believe that a course on mineral deposits should be designed as a capstone course that illustrates a comprehensive application of concepts from many other disciplines

in geology mineralogy stratigraphy and sedimentation structure and tectonics petrology geochemistry paleontology geomorphology etc This book is intended as a text for such an introductory course in economic geology primarily for senior undergraduate and graduate students in colleges and universities It should also serve as a useful information resource for professional economic geologists
