Common Core State Standards with the integration of children's literature can transform teaching and learning into a holistic and engaging experience. Tackling nearly every aspect of the English Language Arts Standards and the measures they employ, it offers a thorough plan for engaging elementary school students with literature. It explores the benefits and teaching principles behind CCSS and explains how to apply them to literature. Along with the strengths it has in connection to CCSS, you will learn about the history of children's literature and what both fiction and nonfiction bring to the classroom. You will find plenty of practical applications of the CCSS, including book lists and lesson ideas, along with thorough examples. There is also a wealth of information on the kinds of readers you will encounter and explanations of how to meet their needs. A final section focuses on creating a curriculum connecting the theory throughout the book with concrete lessons, plans, and units that cover the main CCSS skill sets.

Engaging the Brain Marcia L. Tate, 2024-08-21

Create unforgettable learning experiences for your students. What can you do when students would rather socialize than pay attention to your lesson? When students appear to lack motivation, how do teachers ensure that learning sticks? How can you best respond to learning loss caused by the pandemic? In this new edition of Marcia Tate's wildly bestselling *Worksheets Don't Grow Dendrites*, 20 field-tested, brain-compatible instructional strategies designed to maximize memory are supported by new classroom applications and research. In each chapter devoted to an individual strategy, you'll discover the latest research on how the brain benefits when the strategy is used. How the strategy engages all students and addresses common behavior problems. Sample classroom activities for various grade levels that teachers can implement immediately. Action plans for incorporating each strategy to accelerate learning. When students actively engage in learning, they stand a much better chance of retaining what we want them to know. As students face setbacks and learning gaps, it's imperative that we quickly bridge these divides by teaching them in the way their brains learn best.
