Hitler and the Nazi Cult of Film and Fame Michael Munn, 2013-05-09 In Nazi Germany the cult of celebrity was the embodiment of Hitler's style of cultural governance Hitler's rise to power owed much to the creation of his own celebrity and the country's greatest stars whether they were actors writers or musicians could be one of only two things If they were compliant they were lauded and awarded status symbols for the regime but if they resisted or were simply Jewish they were traitors to be interned and murdered This fascinating analysis offers a shocking portrait of a Hitler shaped by aspirations to Hollywood style fame of the correlation between art and ambition of films used as weapons and of sexual predilections The Führer believed he was an artist not a politician and in his Germany politics and culture became one His celebrity was cultivated and nurtured by Joseph Goebbels Germany's supreme head of culture Hitler and Goebbels enjoyed the company of beautiful female film stars and Goebbels had his own casting couch In Germany's version of Hollywood there were scandals starlets secret agents premieres and party politics The Third Reich would launch filmmaker and actress Leni Riefenstahl to prominence by making her its own glorifying documentarian most famously in *The Triumph of the Will* the innovative propaganda film starring Hitler and widely considered to be one of the greatest movies ever made It is no coincidence that Eva Braun Hitler's longtime partner and wife

for the two days leading up to their joint suicide was a photographer and in fact shot most of the surviving photographs and film footage of her lover This book reveals previously unpublished information about the Hitler film which Goebbels envisaged as the greatest story ever told although it was ultimately trumped by the dictator's own real life Wagnerian finale

Empires of the Imagination Alec Worley, 2021-01-05 The warlocks and ghosts of fantasy film haunt our popular culture but the genre has too long been ignored by critics This comprehensive critical survey of fantasy cinema demonstrates that the fantasy genre amounts to more than escapism Through a meticulously researched analysis of more than a century of fantasy pictures from the seminal work of Georges Melies to Peter Jackson's recent tours of Middle earth the work identifies narrative strategies and their recurring components and studies patterns of challenge and return setting and character First addressing the difficult task of defining the genre the work examines fantasy as a cultural force in both film and literature and explores its relation to science fiction horror and fairy tales Fantasy's development is traced from the first days of film with emphasis on how the evolving genre reflected such events as economic depression and war Also considered is fantasy's expression of politics as either the subject of satire or fuel for the fires of propaganda Discussion ventures into the subgenres from stories of invented lands inhabited by fantastic creatures to magical adventures set in the familiar world and addresses clashes between fantasy and faith such as the religious opposition to the Harry Potter phenomenon From the money making classics to little known arthouse films this richly illustrated work covers every aspect of fantasy film G.K.
