## **Cities Steering Towards Sustainability A Planet For Life 6:**

Cities Pierre Jacquet,R. K. Pachauri,Laurence Tubiana,2010-01-01 The twenty first century is already an urban one Cities are pivotal to sustainability concerns globalization climate change food security environmental protection and innovation Today s urban actors both citizens and their leaders have a major responsibility as trustees of the future their present actions will influence the shape and structure of cities so that the generation to come may live healthy and contended lives This volume takes the reader straight to the heart of how cities work and identifies contemporary trends mechanism and tools that can influence current strategies and choices The authors show that urbanization is not a problem per se for sustainable development but rather that cities in all their diversity and complexity offer solutions as well as challenges The reader will be inspired by vital analyses of the next decade s windows of opportunity for sustainable urban growth Shrinking Cities

Harry W. Richardson,Chang Woon Nam,2014-03-14 This book examines a rapidly emerging new topic in urban settlement patterns the role of shrinking cities Much coverage is given to declining fertility rates ageing populations and economic restructuring as the factors behind shrinking cities but there is also reference to resource depletion the demise of single company towns and the micro location of environmental hazards The contributions show that shrinkage can occur at any scale from neighbourhood to macro region and they consider whether shrinkage of metropolitan areas as a whole may be a future trend Also addressed in this volume is the question of whether urban shrinkage policies are necessary or effective The book comprises four parts world or regional issues with reference to the European Union and Latin America national case studies the United States India China Korea Taiwan Germany Romania and Estonia city case studies Detroit Buffalo Cleveland Naples Belfast and Halle and broad issues such as the environmental consequences of shrinking cities This book will be of interest to scholars and practitioners working in the fields of urban studies economic geography and public policy

## **OECD Multi-level Governance Studies Aligning Regional and Local Budgets with Green Objectives**

Subnational Green Budgeting Practices and Guidelines OECD,2022-06-22 Green budgeting is emerging at subnational levels as an important tool for regions and cities to use to align their expenditure and revenues with their green objectives and enhance the transparency and accountability of their climate and environmental action It is also a tool that subnational governments can use to prioritise low carbon investments and identify funding gaps as well as to mobilise additional sources of both private and public climate finance Vortex Cities to Sustainable Cities Phil McManus,2005 This book examines how

Australian cities are becoming unsustainable and suggests possibilities for future actions that move us towards sustainability Chapters on population and demography air quality water quality water availability transport and biodiversity include many new ideas to make our cities more sustainable Ecocities Now Jennie Moore,Sahar Attia,Adel Abdel-Kader,Aparajithan Narasimhan,2020-11-30 This book presents a selection of the best papers submitted to the International Ecocity World Summit held in Vancouver October 7 11 2019 The objective is to accelerate knowledge dissemination about the development

of ecocities through attention to what constitutes an ecocity what cities around the world are doing what Vancouver as an emerging ecocity is doing and how education can play a role in preparing the next generation of ecocity practitioners The book uses the Summit's overarching theme and sub themes as an organizing framework and aligns with the International Ecocity Standards that serve as a diagnostic tool to help cities assess their progress on the path to becoming ecocities The Ecocity Standards are also proving useful to communities in developing locally relevant pathways to achieving the UN Sustainable Development Goals The book is presented in four parts that align with the Summit overarching theme of i building a bridge to socially just and ecologically sustainable cities supported by sub themes of ii climate action iii circular economy and iv informal solutions for sustainable development Chapters comprising each part in the book are introduced by a brief precis that orients the reader to the relevant Ecocity Standards that are being addressed and other important contextual considerations that open the potential application of the chapters to an international audience Arguments presented in the selected papers provide an orientation to the importance of engaging people where they live in ecocity transformations as well as emerging opportunities for affordable and accessible technologies that help cities build capacity for implementation of ecocity initiatives
