Renner, 1989 **A History of Classical Scholarship** John Edwin Sandys, 1906 This volume explores all aspects

of classical scholarship history archaeology philosophy literature religion politics as well as providing accounts of the principal figures who helped determine the course of classical scholarship through the Middle Ages     Studies in Latin Language and Literature Thomas Cole, David Ross, 1973-07-19 This book covers a wide range of subjects from Latin literature and language to textual history and criticism E D Francis gives a history of the words prae and pro as adverb preposition and prefix H D Jocelyn surveys the distribution and differing uses of quotations from Greek poetry in Cicero's prose writings and D F S Thomson takes a fresh look at the manuscript tradition of Catullus The remaining six articles deal with later authors and are divided equally between the poets and the historians a reading of Horace's Roman Odes and their relation to the other odes in which he addressed the Roman people a demonstration of the internal coherence of a Tibullan elegy and two Juvenal satires a review of disputed readings in the OCT of Livy IX an analysis of the structure of the prologues to the Annals Histories and Agricola to cast light on Tacitus intentions and a critical review of Tacitus portrait of Germanicus generally viewed in a sympathetic light but debated by D O Ross     **Fallibility and Fallibilism in Ancient Philosophy and Literature** Therese Fuhrer, Janja Soldo, 2023-12-18 Mankind's constant struggle with physical as well as mental weaknesses is omnipresent in ancient literature misconduct wrongdoing failure and experiences of contingency are anthropological phenomena Ancient ethics epistemology and natural philosophy have developed different theoretical approaches and guidelines on how to act and how to overcome all kinds of problems Christian theology on the other hand has explained moral failure as a symptom of original sin comparing decline and destruction to a burden from which mankind is relieved only at the end The contributions explore how ancient philosophical texts both pagan and Christian explain conceptualize and integrate the myriad manifestations of human fallibility into the different philosophical schools The focus is on anthropological ontological and theological concepts that analyse and reflect human fallibility as well as on the textual and linguistic representation of the phenomenon in ancient literature Several contributions in the volume explore literary texts that discuss or illustrate the philosophical dimension of fallibility such as satire's or tragedy's often exaggerated depiction of human weakness     Vergil's Eclogues George C. Paraskeviotis, 2019-11-04 Between 42 and 39 BC Vergil composed the first Latin pastoral collection entitled Eclogues and consisting of ten poems in the form in which it has come down to us Vergil's Eclogues represent the introduction of a new genre the pastoral to Latin literature and recall the Hellenistic poet Theocritus who invented this genre The fact that the Roman author inserts into the text elements from other Greek and Latin texts modifying them through innovations and changes constitutes an attractive field of research This book shows that Vergil's dialogue with the earlier Greek and Latin tradition is not only typical of the way in which Latin literature was written in the 1st century BC rather it is also a dynamic literary method used to affect and define the character of each Eclogue     **Ovid, Aratus and Augustus** Emma Gee, 2000-03-28 The astronomical material in Ovid's Fasti has been overlooked It is this material which is the subject of this book     **Dictionary Catalog of the Research Libraries of the New York Public**

Mark Possanza,2004 Germanicus Caesar s translation of Aratus s celebrated astronomical poem Phaenomena is crucial for the study of the poetics of Latin translation Building on the foundation of translation studies Translating the Heavens investigates how Germanicus rewrote the Phaenomena as an Augustan aetiological poem that subverts the religious and philosophical themes of the original In Germanicus s version the map of heaven becomes an Ovidian firmament of love and transformation Translating the Heavens

shows that the poetics of Latin translation far surpasses in complexity and sophistication the conventional notion of the translator as an interlingual scribe who mechanically substitutes the words of one language for the words of another
